# Education Committee

## Purpose of the Committee

Building the power of the movement through educating and training union members is the responsibility of the Education Committee. Members of this committee determine the needs of the membership and provide classes, material, and information based on these needs.

In many subject areas “on the shelf” programs exist that can be delivered to your members. Materials are developed on such issues as:

- ▶ New Member Orientation
- ▶ Grievance Handling
- ▶ Leadership In Action
- ▶ Union Involvement
- ▶ Planning

If you are committed to providing education that informs, develops skills and motivates our leadership and members, this is the committee for you.
