

**AUTOWORKERS ACROSS THE COUNTRY ARE STANDING UP**

# HOW WE WIN OUR UNION: 30. 50. 70.

## 30% - WE GO PUBLIC

When 30% of our coworkers sign union cards, we go public. That means an organizing committee made up of autoworkers at your plant publicly telling the world that you are on track to unionize your workplace. We're going to be loud and proud about our union.

## 50% - WE RALLY

When 50% of our coworkers sign cards, we organize a public rally with UAW President Shawn Fain, community leaders, our coworkers, neighbors, friends, and families to show that a majority of us are ready to fight for what we deserve.

## 70% - WE DEMAND TO BE RECOGNIZED

After 70% of our coworkers have signed cards and we have an organizing committee made up of workers from every shift, every job classification, and every group of workers in the plant, we demand that the company recognize our union. If they don't, we file cards with the NLRB and take it to a vote.
