

# HYUNDAI WORKERS

# FIGHT FOR MORE

**UAW autoworkers just won historic raises in their new contracts.** Right after that, Hyundai announced raises. The company has been saying we'll make even more money in the future.

But they won't tell us how much.

Even with next year's raise, we'll make a lot less than UAW members. Because they're in the union, their raises are guaranteed by their contract. And they include cost of living pay to keep up with inflation.
