

# UAW Conservation & Recreation Committee

## Purpose of the Committee

This committee provides a variety of opportunities that fall into two categories. Recreation, which includes leisure time activities, and Conservation, which includes environmental concerns.

It has been proven that in today's busy work environment people need to combat stress with quality family and individual leisure time activities. If you enjoy organizing events such as bowling leagues, hunting trips, sporting events, team sport competition and the like, then the Conservation and Recreation Committee could be your committee of choice.

This committee is also an avenue to explore if clean air, clean water, developing parks and other environmental concerns are of interest to you. The Conservation and Recreation Committee challenges are not limited to your neighborhood or state, but are as widespread as national and global issues that affect us all. The Education Department has created a workshop titled *Citizen Earth: A Call for Collective Action* that explores the connection between pollution and our health and well-being. It also provides tips on how simple changes in our behavior can have big payoffs for the planet we share. Your local union leadership can request a copy of this curriculum kit through your Servicing Rep.
