

BARGAINING UPDATE

ON DAIMLER NEGOTIATIONS

FEB. 26, 2024 | UAW LOCAL 5286

Greetings Brothers and Sisters,

This morning we passed a combination of 15 Articles, LOU's and Maintain Present Language (MPL's) to the company. We have given the company Article 33 Skilled Trades and are waiting on their reply. The company was asked if there is any need to negotiate skilled trades language since they were not abiding by the present language and they refused to answer.

At our afternoon meeting, the company refused to follow the agreed upon structure to pass proposals back and forth, so the meeting was stopped until resolved. The company is asking for concessions, and we are not having it. We had seven more issues to pass them, which didn't happen.

We did sign off on six TA's where both the Union and Company agreed not to change the current language.

In Solidarity,

Local 5286 Bargaining Team
