

We are the majority!

Once an overwhelming number of us sign cards, we will have enough power to have an election, and then be able to bargain the first contract.

I'm helping to form this union to protect our jobs. Having a union is about having the workers best interest at heart. We should negotiate for better trainings. Right now we are not properly trained and if we make one make a mistake our jobs are threatened.

Jayden, Body Shop

To be able to bargain for better benefits, like cheaper insurance, increase in PTO, and sick days- that is why I am helping. To have the chance to use my PTO for me, for time with family, and not for company shutdowns.

Greg, Logistics

I support forming a union so that we can have a seat at the table. It is the only way to have our voices heard. We deserve nothing less.

Keonna, Body Shop
