

WHO DO YOU TRUST?

COMPANY MANAGERS WHO SAY THINGS LIKE

If you sign a union authorization card you will lose your rights like bathroom breaks and the ability to talk with your supervisor. We believe in two-way dialogue with our employees and signing a card might change all of that.

We're proud of the world-class production we have created here. Our economic model is under attack by outsiders trying to organize auto plants here in our state.

The United Auto Workers launched an organizing campaign to represent auto workers all across the country. If a union comes in, that changes things and you would start from zero and people could lose their jobs.

OUR COWORKERS WHO KNOW

“This is just not true. Signing a union card means we support forming a union so we can win more rights. When we join together in the UAW, we bargain contracts that give us the power to improve our jobs and overall quality of life. We'll still talk to supervisors and we'll have the union to back us up – just like Mercedes workers do in every other country in the world.”

Moesha Chandler | Trim 1, Assembly 2

“We are Alabama workers forming our union, and we proudly build the world-class cars that make Mercedes successful. Let's be honest, we make the company billions of dollars and they think we're willing to accept lower wages than in other states. Having our union means we will change that.”

Detrick Lewis | Panel Adjuster, Assembly 1

“It is false and illegal for Mercedes to say we could start from scratch or lose our jobs. Law in the United States protects our right to form a union. And when we're negotiating our contract, it is illegal for them to change our working conditions for the worse. We have more protections and more power when we join together in the union. That's why management wants to keep things the way they are – the only voice they want to listen to is their own.”

Latesha Henry | Conveyance, Assembly 2
