

BARGAINING UPDATE

ON DAIMLER NEGOTIATIONS

APR. 9, 2024 | UAW LOCAL 3520

UAW Local 3520 Family,

Your Local Bargaining Committee continues to work after each shift this week to fight for the local improvements you are demanding. Tonight, we spent the first part of the evening finalizing our proposal on TOS, and when we met with the Company representatives we were able to secure a tentative agreement on our demanded improvements to the Truck Operating System.

Before we closed the evening, we passed to the Company our proposal on wage rates and overtime (Article 8) which contains the improvements the members are demanding. We await the Company's response.

However, that is all we achieved tonight, and the big ticket items remain: job security, hours of work, wage rates, and overtime, including our absolute refusal to consider any concessions.

BARGAINING UPDATE

ON DAIMLER NEGOTIATIONS

APR. 9, 2024 | UAW LOCAL 3520

At the CTS table, we passed Union proposal “E,” which includes a totally new concept that would ensure job security in line with the BLA.

We will continue to meet night after night until the Company comes to its senses and understands that we mean business.

RECORD PROFITS = RECORD CONTRACTS.

TICK TOCK...
