

MAIN TABLE BARGAINING UPDATE

ON DAIMLER NEGOTIATIONS

APR. 21, 2024

UAW Daimler Family,

Your DTNA Bargaining Council met today starting at 1:00 pm. We had hoped that the extra break time we gave the Company would mean the Company would come to the table with renewed energy to start dealing with the economic proposals, like historic wage increases, COLA, profit sharing, and shift premium, but instead the Company passed modest movement on Article 9 and Article 10, and some proposals to maintain present language.

Your Bargaining Council went straight to work and quickly passed back omnibus proposals to get these issues resolved – and again, by 5:00 pm, the Union was all caught up and the ball was back in the Company’s court. After watching bags and bags of food being carried up to the Company’s breakout rooms (no doubt paid for by the Company), at 6:30 pm the Company informed us that they were ending bargaining for the night – even though we were ready to stay on as long as needed to work through the night tirelessly.
