

MAIN TABLE BARGAINING UPDATE

ON DAIMLER NEGOTIATIONS

APR. 23, 2024

UAW Daimler Family,

While your Daimler Bargaining Council showed up in full force at 8 am ready to bargain, the Company barely showed up and their Chief negotiator was a no-call no-show for the whole day (that's eight hours charge time for him). The few times the Company appeared at the bargaining table over the course of the thirteen hours we were at the table, it was to push papers around on small-time nonsense movement (that's seven hours charge time for each member of management on the company's bargaining committee).

Yet the big ticket proposals remain without any attention from the Company.

NOTHING on the common wage grid.

NOTHING on COLA.

NOTHING on job security.

NOTHING on historic wage increases.

(Continued)

MAIN TABLE BARGAINING UPDATE

ON DAIMLER NEGOTIATIONS

APR. 23, 2024

Your Bargaining Council, on the other hand, forced the Company to sit and listen to a detailed presentation on why the common wage grid is essential to getting this deal done. **Equal work = Equal pay**, But we faced nothing but blank stares from the Company reps.

It's almost like the Company has no interest in getting this record contract done by the deadline. It's almost like the Company is not taking the strike threat seriously.

TICK TOCK...
