

MAIN TABLE BARGAINING UPDATE

ON DAIMLER NEGOTIATIONS

APR. 9, 2024

UAW Daimler Family,

After spending the morning finalizing another round of your demands for a just contract, your DTNA Bargaining Council met with the Company this afternoon and began the session by passing a total of 19 detailed proposals on the members' demands, including profit sharing, adding new holidays, streamlining the grievance procedure, attendance policy, attendance bonus and refining the drug and alcohol policy.

This time, at least the Company's representatives asked a few questions that showed they were listening. The session ended with the Company agreeing to a few minor proposals, including more vigorous payroll error procedures, an agreement that the Company will print as many contracts as needed, and confirming our agreement to maintain present language on a bunch of items.

Other than blanket rejections, your major items – historic wage increases, COLA, profit share, real shift differential pay, among the others – remain unanswered by the Company.

MAIN TABLE BARGAINING UPDATE

ON DAIMLER NEGOTIATIONS

APR. 9, 2024

Meanwhile, the Health & Safety and Benefits sub committees continued to meet with modest advancements, but nothing significant to report.

We will meet again tomorrow and continue to fight for the fair and historic contract you deserve.
