We work across every department, area, and shift at VW and we will be voting "Union Yes!" on April 17th, 18th, and 19th.

We hope you will join us.

We proudly build the cars that make VW a successful and profitable company. We are dedicated to our work and are committed to VW's success, but we also know the value of having a voice at work.

We know that without a union, VW can and does change our work conditions without our consent. They have imposed unfair PTO policies. They have changed the quality and cost of health insurance for workers and our families. They have penalized some of us for staying home sick. We can do better.

By coming together at VW and joining tens of thousands of auto workers across America, we have made significant wage gains in recent months. With a union and collective bargaining, we can negotiate for numerous improvements to enhance the quality of our jobs and our overall quality of life.

We work hard every shift for this company and we know we deserve better. Let's get this done.
