This means that the employee should give a full day's work for the time that he or she gets paid, with reasonable allowance for personal delays and fatigue. He or she is expected to operate in the prescribed method at a pace that may be considered representative of all-day performances by the experienced, cooperative employee.

## TENTATIVE AGREEMENT

### ARTICLE 5 SENIORITY

**Section 1.** An employee's seniority shall be computed from the time of initial employment by the Company in any capacity within the Bargaining Unit, except that a new employee shall be on probation for the first sixty (60) days worked. A day of work is defined as four (4) or more hours worked. After the sixty (60) days worked, a new employee shall be placed on the seniority list and given a seniority rating as of the first day last hired by the Company. Retention or termination of probationary employees shall be at the Company's sole discretion and specifically excluded from the grievance procedure except in cases related to illegal discrimination or Union affiliation. In cases of alleged illegal discrimination or Union affiliation, the probationary employee will have access to the grievance and arbitration procedure.

**Section 2.** Seniority shall be lost and employment terminated for any of the following reasons:

- A. Voluntary resignation;
- B. Discharge for just cause;
- C. Retirement;
- D. Three (3) working days unreported (absence without notification to the Company for three (3) consecutive working days) unless the absence is of such a serious nature that it was impossible for the employee to provide or arrange for the provision of the required notification to the Company and is substantiated by medical documentation;
- E. Absence for five (5) consecutive working days without a reasonably satisfactory excuse;
- F. Failure to report to work within three (3) working days following notification of recall from layoff. However, it is understood and agreed to by the parties that this three (3) working day rule will be automatically extended to fourteen (14) calendar days if the laid-off employee has taken work with another company during such period of layoff.

The only use of temporary seniority employees in this Agreement shall be as defined below:

1. Temporary seniority employees shall only be used as summer vacation replacements.
2. Employees who are on layoff who decline the opportunity to return for temporary summer employment shall not lose seniority.
3. Employees who do return to temporary summer employment shall retain their original layoff date.
4. Each year laid off employees will be offered temporary summer employment from May 1<sup>st</sup> through September 30<sup>th</sup> beginning with the most senior employee on layoff and in descending order thereafter. Any extensions beyond September 30<sup>th</sup> will be done through mutual agreement by both parties.
5. Temporary seniority employees may exercise shift preference among other temporary seniority employees by seniority at their time of initial placement. In the event it is necessary to transfer temporary seniority employees outside their initial work group, it will be done in consideration of seniority and their ability to do the work.
6. Temporary seniority employees will be paid the current step progression rate at which they

15

4/15

had at the time of layoff for the job being performed and all time worked will count towards the next pay step progression.

7. Temporary seniority employees will not fill positions in departments with displaced employees before first offering the opportunity to senior employees currently working in the plant prior to May 1<sup>st</sup> to return to their "home" department. Employees who decline to return to their "home" department during the employment of temporary seniority employees will not forfeit their displacement/homestead rights.
8. Such employees will not be subject to shift displacement by seniority employees by Article 13.
9. Such employees will not be eligible for provisions of Article 12.
10. Notification requirements regarding temporary seniority employees will be the same as required regarding other Bargaining Unit employees per Article 4.
11. Maximum amount of temporary seniority employees hired for vacation replacements will not exceed the number of employees needed to fill the highest week of vacations entitlement during the five (5) month period.
12. All other provisions of the Agreement will apply to these employees.

G. Layoff or medical leave of absence for a continuous period of time exceeding the applicable accumulation limit. Seniority shall continue to accumulate during periods of layoff or medical leave of absence for an employee with seniority for a period equal to such employee's service with the Company or a minimum of thirty-six (36) months. During the 2018 ~~2018~~ **2024** negotiations, it was agreed that during the life of this Agreement, no employee will lose seniority due to layoff.

**Section 3.** It shall be the responsibility of the employee to keep both the Company and the Union informed of their current address and telephone number. During periods of layoff, the employee shall provide notice in writing of any change in address and telephone number. Failure on the part of the employee to keep the Company informed of the correct address releases the Company of any responsibility of any backpay liabilities for failure to be recalled by seniority. Upon notice of recall by certified mail, (return receipt requested) the employee shall report to work within three (3) working days. The three (3) working days provision may be extended at the Company's discretion upon reasonable and acceptable proof of failure to report to work but not to exceed fourteen (14) calendar days.

Notice of loss of seniority and termination will be given to the employee involved at the employee's last known address, in writing, promptly after an entry to that effect is made in the personnel records of the Company.

**Section 4.** A seniority list shall be prepared by the Company every three (3) calendar months for all employees covered by this Agreement and posted in one (1) agreed central location in each plant. The Union shall receive a copy of this list. The employee with the most Company seniority will be first on the list and the employee with the least Company seniority will be the last. During periods of layoff, a seniority list of employees on layoff will similarly be provided to the Union.

Should any objections arise to seniority listing, such objections shall be made within thirty (30) days after posting the roster, with the exception that any employee who is on any approved leave or layoff at the time of posting the roster shall have a thirty (30) day period after returning to work to enter

CM

such objection.

**Section 5.** Employees who are transferred or promoted to positions within the Company outside of the Bargaining Unit and are subsequently separated from that job will not have the opportunity to return to a job in the Bargaining Unit.

## TENTATIVE AGREEMENT

### ARTICLE 6 GRIEVANCE AND ARBITRATION PROCEDURE

The Union and the Company encourage all employees to discuss and fully disclose to their Supervisor any problem or complaint in an effort to resolve such problem or complaint before resorting to the grievance procedure. If after the employee has shared the facts of the matter with his Supervisor, he requests his Shop Committeeperson, the Company will summons the Shop Committeeperson and no further inquiries will be made by the Company until the Shop Committeeperson arrives.

Should a grievance occur, all parties involved should make an earnest effort to ascertain the facts and seek a fair and equitable settlement through the use of the following procedure. Neither party will burden the formal grievance procedure with insignificant matters or cases unsupported by the facts or common sense.

If the complaint is not raised within two (2) working days, it shall be deemed abandoned and not entitled to consideration thereafter, unless the employee(s) were not aware of the facts leading to the grievance.

Group grievances will be entered at Step 2 of the Grievance Procedure.

Policy grievances will be entered at Step 3 of the Grievance Procedure.

#### Section 1.

**Step 1.** In the event that the complaint is not settled between the employee and his immediate Supervisor within twenty-four (24) hours of the time it is raised, it will be reduced to writing on an agreed upon form provided by the Union, and presented to the employee's Supervisor by the Shop Committeeperson. The Supervisor's answer will be given in writing to the Shop Committeeperson and/or placed in the designated box within three (3) working days after receipt of the grievance.

**Step 2.** If the grievance is not settled at Step 1, it may be presented to the Department Manager by the Shop Committeeperson within three (3) working days after receipt of the Supervisor's answer in Step 1. The Department Manager's answer will be given in writing to the Shop Committeeperson and/or placed in the designated box within three (3) working days.

**Step 3.** In the event the Department Manager's answer is not satisfactory, the Shop Chairperson may, within five (5) working days of the Department Manager's answer, request a meeting in writing with the Human Resource Manager or designee to seek resolution of the grievance. The Step 3 meeting may include representatives of the Human Resource Department and other management representatives as deemed necessary and, the Union Shop Chairperson and the Committeeperson who has handled the grievance in Steps 1 & 2 above and other appropriate witnesses as deemed necessary. This group shall meet as soon as practical but, no later than ten (10) working days of receipt of written request. The Company's answer will be given within five (5) working days of the conclusion of the Step 3 meeting.

**Step 4.** Regional Review Step: In the event the Company's answer is not satisfactory, the Shop

KS

rd

Chairperson may, within five (5) working days request a meeting in writing with the Human Resources Manager or designee to seek resolution of the grievance. The Step 4 meeting will include the Plant Manager or his designee, the Human Resources Manager or his designee, and other Management representatives as deemed appropriate by the Company; also included will be one (1) or two (2) Representative(s) of the International Union, the Shop Committeeperson involved in previous grievance steps, Shop Chairperson, and the local Union President. The Shop Chairperson may bring an additional representative(s) as deemed necessary by the Union. This meeting will be scheduled within ten (10) working days of the written request from the Shop Chairperson for the 4<sup>th</sup> step meeting. The Company's answer will be given within five (5) working days of the conclusion of the 4<sup>th</sup> step meeting.

The Regional Representative upon receipt of the 4<sup>th</sup> Step Company answer shall have thirty (30) calendar days to settle, withdraw or appeal the grievance to the Arbitration Step of the procedure or the UAW Heavy Truck Department. Upon receipt, Representatives from the UAW Heavy Truck Department shall contact DTNA Corporate Labor Relations in an attempt to dispose of the grievance.

**Step 5. Arbitration:** Region and/or UAW Heavy Truck Department. If the matter is one subject to arbitration as provided in Article 2, Management's Rights, or one involving the discharge and discipline of employees pursuant to Article 15, Discipline and Discharge, hereof, and all conditions satisfied, including applicable time limits, then the Union may, within sixty (60) working days of the Company's answer in Step 4, request that the grievance be submitted to an arbitrator for determination pursuant to Sections 2 through 6 hereof. The fact that the Union does not request arbitration within the allotted time, or the fact that a grievance is withdrawn by the Union, will be without prejudice or precedent to either party.

**Section 2.** The written request for arbitration of a matter, which is arbitral under the terms of this Agreement, shall set forth the nature of the grievance. The ~~Union~~ Company will submit a form to the FMCS requesting a panel of seven (7) arbitrators within ten (10) working days of the request of the Union (Company will pay the cost of submitting the form). The Company and the Union shall within ten (10) working days, select the arbitrator by striking from the panel until only one (1) name remains on the list. The name of the arbitrator remaining on the list shall be deemed as accepted by both parties.

**Section 3.** The arbitrator so selected shall schedule a prompt hearing at which time he shall have the power to make determinations of fact on the questions submitted to him and apply them to the provisions of the Agreement alleged to have been violated, so long as the matter is one which is subject to arbitration under the terms of this Agreement and so long as it is submitted to him in accordance with the procedure herein specified. In interpreting and applying the provisions of this Agreement which are subject to arbitration and in making findings of fact in connection therewith, the arbitrator's interpretation must be in accordance with the terms of this Agreement.

No arbitrator shall have the jurisdiction or authority to add to, take from, nullify or modify any of the terms of this Agreement or to impair any of the rights reserved to management under the terms hereof, either directly or indirectly, under the guise of interpretation; nor shall he have the power to substitute his discretion for that of management in any manner where management has not contracted away its right to exercise discretion. The arbitrator shall be bound by the facts and evidence submitted to him and may not go beyond the term of this Agreement in rendering his decision. No such decision may include or deal with any issue or matter, which is not expressly made subject to arbitration under terms of this Agreement.

6/3

The decision of the arbitrator shall be in writing and shall be final and binding upon the parties when rendered upon a matter within the authority of the arbitrator and within the scope of matters subject to arbitration as provided in this Agreement.

The decision of the arbitrator shall be rendered in writing within thirty (30) calendar days after the close of the hearing or the date for submission of written briefs.

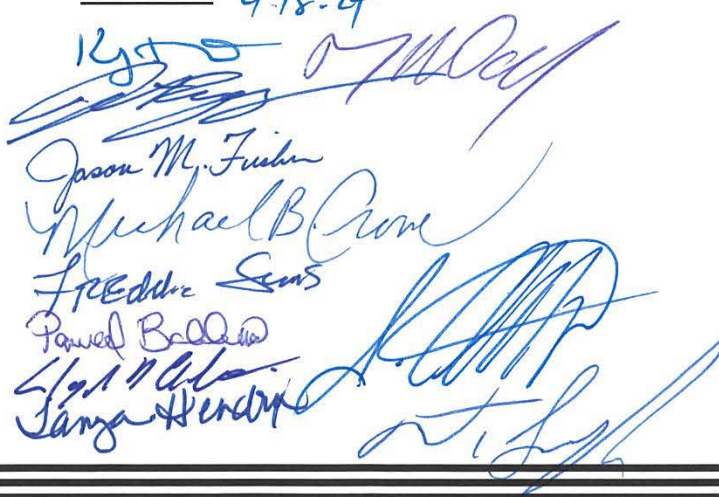

**Section 4.** Unless it is mutually agreed otherwise, each grievance, which is subject to arbitration, shall be handled by a separate arbitrator in a separate hearing, except grievances arising out of an identical set of facts or the same incidents may by agreement be heard together. It is further agreed that arbitration cases will be scheduled on a prioritized basis such that discharge cases or other potential back pay cases will be scheduled ahead of other pending cases.

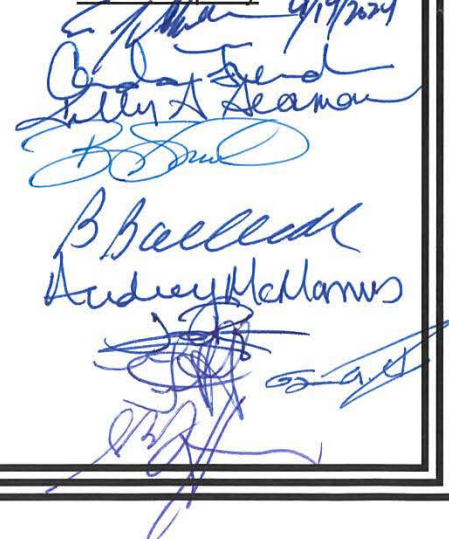

**Section 5.** The fees of the arbitrator and the necessary expenses (exclusive of payment to witnesses) shall be borne by the losing party. Each party shall pay the fees of his own counsel or representative. If an employee-witness is called by the Company, the Company will reimburse him for the time lost. The Company will also reimburse either the grievant or one (1) Union witness for time lost to attend the arbitration hearing. If other employee-witnesses are called by the Union, the Union will reimburse them for the time lost. Any non-employee witness will be compensated by the party requesting his appearance.

In the event an arbitrator is selected and a hearing date is scheduled and agreed upon by both parties and either party subsequently cancels such hearing, the party so canceling shall pay any cost assessed by the arbitrator.

**Section 6.** Except as noted in Article 5, Section 1, should it be determined that an employee, other than a probationary employee, was disciplined or discharged without just cause as provided in Article 15, Section 2, Discipline and Discharge, he shall be restored to his former status; provided, however, any unemployment compensation or other compensation or remuneration from any source shall be credited against any back pay award.

**Section 7.** In all cases, where agreed upon time limits appear herein, those time limits shall be strictly enforced. Such time limits may be extended only by mutual agreement in writing. Absent such agreement should the Union or its members default on such limits, the grievance shall be deemed as closed and not subject to further review.

Employees with seniority may be granted personal leaves of absence, without pay, for up to ninety (90) days upon written request to the Company, stating the reason for the leave (the Local Union will be given notice within forty-eight (48) hours). Employees requesting a personal leave of absence due to emergency or hardship reasons will not be required to use accrued benefits (sick time, vacation time, etc.) when applying for such leave. It is understood and agreed that personal leave is separate and apart from any requirements under the Federal Family Medical Leave Act as stipulated in Section 5 of this Article.

Such leaves are subject to HR Manager or Plant Manager / PDI Manager approval, but will not be unreasonably denied if the Company's operations or requirements permit. Seniority shall continue to accumulate during the personal leaves. No personal leave of absence will be granted to employees who are incarcerated. Any employee who accepts other employment while on leave of absence will be considered to have quit his job. Any disputes will be addressed with the Company and appropriate Union Representative.

Personal leaves of absence without pay must be a minimum of three (3) workdays.

Employees in the Attendance Control Program with thirty (30) or more chargeable hours are ineligible for personal leaves of absence.

Personal leaves may be extended for an additional period of thirty (30) calendar days upon approval of the Company. Such leaves will not be unreasonably withheld. Any disputes will be addressed with the Company and appropriate Union Representative.

#### Section 2. Union Leave

The Union will notify the Human Resource and Department Manager in writing in the event it is necessary for employees to have a leave of absence to attend to Union business. The Union will provide such notice at least forty-eight (48) hours in advance when feasible. Such notice will stipulate the number of employees and the duration of the leave. Daily Union leave will not exceed twelve (12). Such leaves will be granted by the Company. Any alleged abuses will be referred to the Heavy Truck Division of the UAW.

The Company will consider more than the aforementioned number of employees when requested by the Union providing the request would not abnormally affect the operation of the plant.

For purposes of "compensation" under the pension plan, employees of the Company on approved Union Leave will be paid for such Union Leave time by the Company provided the Union shall promptly reimburse the Company monthly for all pay provided for time not worked.

#### Section 3. Medical Leave

91

Employees who are unable to work due to injury or illness will be granted a medical leave of absence, provided the employee completes the application for medical leave and presents medical proof of inability to work covering the period of disability. The minimum duration of medical leaves will be seven (7) calendar days. The maximum duration of medical leaves will be based upon employees' service with the Company to the same extent and period of time as they would maintain and accumulate seniority while on layoff.

#### **Section 4. Military Leave**

Employees who enlist in the Armed Forces of the United States or who otherwise are required to perform military service will be granted a leave of absence and shall be entitled to reinstatement to the extent and upon the conditions provided by applicable federal and state law.

#### **Section 5. Federal Family Medical Leave Act**

The parties recognize, understand and agree that the Federal Family Medical Leave Act, 107 Stat. 6, 29 USC 2601, took effect on February 5, 1994.

In some instances, FMLA leaves will be concurrent with leaves of absence covered by the Collective Bargaining Agreement, those cases where the employee is eligible for leave under the Daimler Trucks North America-UAW Collective Bargaining Agreement and the leave also qualifies under the FMLA, the Company intends to comply with the requirements of the FMLA as well as the separate provisions of the Collective Bargaining Agreement regarding covered leaves of absence.

- Automatically designate and apply absence time that is compensated under the short-term disability provisions of the Life, Disability and Health Care Benefits Program against an eligible employee's FMLA entitlement for up to two (2) weeks per calendar year.

Individuals placed in the Chronic Attendance Program will be subject to having any FMLA leave being taken concurrently with any paid leave the employee is entitled to including Paid Sick Leave, PTO, Vacation, and absence time that is compensated under the short-term and/or long-term disability provisions of the Life, Disability and Health Care Benefits Program.

Pursuant to the Company's present plan for compliance with the FMLA, the Company's rights under the act will be modified to:

- Employees seeking to use FMLA leave are required to provide thirty (30) day advance notice to take FMLA leave when the need is foreseeable and such notice is practicable. If leave is foreseeable less than thirty (30) days in advance the employee must provide notice as soon as practicable generally either the same or the next business day. When the need is not foreseeable, the employee must provide notice to the Company, via the third (3<sup>rd</sup>) party FMLA administrator, as soon as practicable under the facts and circumstances of the particular case, which should normally be within two (2) business days of the need for FMLA leave becoming known. Absent unusual circumstances, employees must comply with the employers' usual and customary notice and procedural requirement for requesting leave.

E/S

- Provide that an employee on FMLA leave will continue to accumulate seniority in the same manner as the employee also would be eligible under the Collective Bargaining Agreement, respectively, as appropriate.
- Permit, but not require employees to substitute vacation and/or paid sick leave in single day increments for unpaid FMLA leave.
- Provide that employees who are married to each other will be each entitled to a maximum of twelve (12) weeks of qualifying leave under the Act.
- If two (2) employees apply for FMLA for the same event regarding the birth, adoption, or placement of a child, the time permitted for the event will be divided between the individuals and in no case will exceed twelve (12) weeks.
- Continue Company-paid Group, Life, Accidental Death and Dismemberment, and Disability Insurance during all FMLA Leaves.

Problems related to the implementation of this letter may be discussed by the representatives of the UAW Heavy Truck Department and the Company's Employee Relations Staff.

#### **Section 6. International Union Leave**

Upon application, the Company will grant a leave of absence to such of its employees, who are appointed to the staff of the International Union, provided the Company is furnished with written certification of such appointment. The employee will continue to accumulate seniority and pension credits per the pension plan during such leave. The International Union will notify the Company, to the extent possible, thirty (30) days in advance of the expiration of such leave(s). Upon the expiration of such leave of absence, the employee on such leave of absence under this section shall be returned to the employee's job in line with the employee's seniority and shall receive the rate of pay prevailing for that job.

#### **Section 7. Parent Involvement in School Leave**

In conjunction with the North Carolina School Leave Law, four (4) hours of excused leave per student without pay will be granted per year to any employee who is a parent, or guardian of a school-aged child so that the employee may attend or otherwise be involved at that child's school or designated location.

- The leave shall be at a mutually agreed upon time between the Company and the employee.
- The employee must submit a written request for the leave at least forty-eight (48) hours before the time desired for the leave.
- The Company will require that the employee furnish written verification from the child's school or designated location that the employee attended or was otherwise involved at that school or designated location during the time of the leave.

Note: Sporting events are not covered under this law/provision.

### ARTICLE 15 DISCIPLINE AND DISCHARGE

**Section 1.** In the case of discipline, suspension or discharge, the Company agrees that an employee who shall have completed his probationary period provided for in Article 5, Seniority, shall not be disciplined or discharged without just cause. In all cases, a copy of written discipline notifications will be provided to the Union within twenty- four (24) hours of issuance to the employee. Employee requests for Union representation in accordance with the provisions of this Article shall be provided. Employees who elect not to be represented shall do so by signing the "waiver of representation" form provided by the Company in the presence of their Shop Committeeperson. The Union will be notified of suspensions and discharges at the time of such disciplinary meetings with employees. In cases where the immediate removal of the employee from the plant is required, the Union will be notified in writing of the disciplinary action within twenty-four (24) hours.

Grievances relating to suspension or discharge must be filed by the Union within five (5) working days from the date of notification, exclusive of Saturdays, Sundays, and holidays, and entered into Step 3 of the Grievance Procedure.

**Section 2.** Any employee who has been suspended or discharged may request the presence of his appropriate Shop Committeeperson to discuss the case with him in a private setting provided by the Company, unless the nature of his offense requires his immediate removal from the Plant. The Shop Committeepersons in said meeting will not experience a loss of earnings.

**Section 3.** The rights to discipline suspend or discharge employees shall remain in the discretion of the Company except that the Company shall have the burden to show such discipline, suspension or discharge was only imposed for just cause. Disciplines for violations of DTNA work rules and Company policies will be issued no later than fifteen (15) working days upon completion of the investigation.

**Section 4.** Disciplinary records will not be used for progressive disciplinary purposes after one (1) year from date of issuance. However, a break in active employment due to STD, LTD and layoffs will be extended time for time (e.g. employee who was disciplined in March 2010 and laid off or placed on disability in July 2010, recalled or returned from disability in January 2011, the discipline the employee received in March 2010 will be removed for the purpose of progressive discipline in September 2011 provided the employee has continuous employment).

**Section 5.** Where feasible, the Company recognizes that Shop Committeepersons are a valuable resource that can be used to assist in correcting an employee's negative behavior prior to issuing formal discipline. Supervisors will be strongly encouraged to utilize this resource.

**Section 6.** Standards for Discipline and Discharge

This letter memorializes the parties' understanding and agreement to the principles of "Just Cause" as referred to in the Collective Bargaining Agreement. The just cause principle entitles Bargaining Unit employees to "industrial due process" and consideration of specific mitigating and aggravating factors. The essence of the just cause principle is the requirement that the Company must have

some demonstrable reason for imposing discipline. The parties agree that industrial due process includes the following elements: (1) notice to the accused bargaining unit employee of the specific allegations of wrongdoing or misconduct; (2) an opportunity for the accused Bargaining Unit employee to respond to the allegations before any final disciplinary decision is made and imposed; (3) that the Company will conduct a prompt and thorough investigation; and (4) that the Company will render a decision and take action within a reasonable time based upon the nature and consequence of the allegations and circumstances involved in each situation.

The parties agree that the levels of discipline must be proportional and will depend on the nature and consequence of the Bargaining Unit employee's offense, the clarity or absence of rules, the length and quality of the employee's work record, and the practices of the parties in similar cases. Discipline must bear some reasonable relation to the seriousness and/or frequency of the offense. Discipline for all but the most serious offenses will normally be imposed in gradually increasing levels aimed at correcting the offending behavior. Serious offenses include, but are not limited to, theft, physical assaults, willful and serious safety breaches, gross insubordination, and significant violations of law on the Company's time or premises.

The parties further agree that the Company will provide the Union and the accused with all relevant evidence, to include exculpatory evidence, gathered and considered by the Company in its determination to take any disciplinary action against a bargaining unit employee.

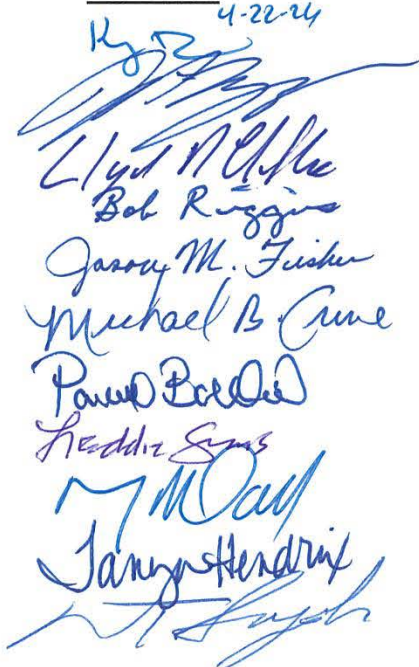

The parties also agree to the following definitions:

Mitigating factors include the Bargaining Unit employee's seniority, good work records, and in appropriate cases, the presence of provocation or misrepresentations leading to the misconduct.

Aggravating factors include such things as the seriousness, willfulness, or repetition of the misconduct and the harm stemming from the misconduct.

**Section 3. Injury/Examination/Inspections/Monitoring**

A) Employees must report to their supervisor any injury suffered so proper treatment can be administered by the Medical Department or doctor. Reports should be made promptly after the employee becomes aware of the work relatedness of the injury or illness. The Company shall promptly make adequate provision for first aid, hospital care, and ambulance service as on all shifts (first, second, and third, **and weekend**).

The Company will survey employees on the quality of care in the medical department. The survey will be jointly developed and the results shared with the members of the JSSC. Improvements may be implemented based on survey results.

The supervisor will lead the investigation of all reported injuries; the investigation will begin immediately and be completed within twenty-four (24) hours, based on available facts. If determined that the serious injury was caused by an equipment malfunction, the investigation will be completed prior to another employee being assigned to that machine but no later than twenty-four (24) hours. Notification will be provided to the Union Safety Representative or designee prior to release of the equipment that has been involved in an accident **incident**.

Upon notification of an accident **incident** the supervisor will ensure that if there are any injuries that medical attention is provided immediately. As soon as possible the **Company supervisor** will notify the Union Safety Representative of **or** their designee. **The Union Safety Representative or designee will be afforded the opportunity to participate in investigations.**

The supervisor will investigate the accident **incident** and document the results of his/her investigation. This documentation will be forwarded to the local Safety Engineer and the Union Safety Representative.

**The joint parties agree on the importance of reporting, investigating, evaluating, and determining corrective actions for "Near Miss" incidents which occur in the workplace. The joint parties recognize that the foundation of any successful safety process rests with a cultural atmosphere that allows employees to bring potentially hazardous situations to the attention of management in order to achieve timely correction. This line of communication can only be achieved if Employees are free to discuss self-report "Near Miss" incidents with supervision without fear of discipline reprisal. To this end, In order to proactively correct potential hazards, near miss reporting is encouraged and required. Workers will not be subject to progressive disciplinary measures provided there is no willful breach of safety**

RD

policies discovered after a joint review of the near miss incident is conducted. The Company will instruct Management and employees at each facility on the importance of reporting "Near Miss" incidents.

Further, Near misses will be entered into Enablon B.E.S.T. 2.0 included as part of accident investigations with corrective actions identified and implemented plans and due dates. In the interest of mitigating hazards and improving our safety culture, the company will use counseling in lieu of discipline in those cases where and employee immediately self-reports a "Near Miss" incident involving a possible violation of safety rules. In addition, a communication in the form of a Huddle-Topic an awareness topic Safety Talk and/or other materials to encourage employees to immediately report near misses to their supervisor will be distributed across all locations. Any issues arising from this document will be resolved between the joint parties at the appropriate level.

Any equipment operator employee involved in an accident with property damage and/or injury will may be subject to the Drug and Alcohol Policy of this contract depending on the circumstances of the accident as determined by the Union Safety Representative and Safety Engineer.

In the event that a powered industrial vehicle (PIV) operator has two(2) accidents in which the operator was mutually (Union & Company) found at fault in one (1) year, the operator will have their operator's license revoked for a period of one (1) year and will be assigned to an open job (placement to be decided by Human Resources and the Shop Chairperson) that does not require the use of a PIV. Employees who have moved will not retain rights to return to the previously held position.

- B) If a medical examination or test given to an employee by the Company discloses any abnormal conditions, the employee shall be informed of said conditions and shall be given a full copy of any written opinion or recommendation made by the doctor.

Medical examinations will be offered at an off-site location for employees if they are potentially overexposed to in-plant chemical agents. Safety Data Sheets (SDS) will be provided to the employees upon request. Published Biological Exposure Indices such as those developed by the ACGIH will be used as a guide.

- C) The Company agrees to notify the Union Safety Representative or his/her Alternate in advance, or upon the Company's knowledge of health and safety inspections by OSHA, insurance loss control, environmental inspections, boiler inspectors, city, county and state inspections related to health and safety, licensed health and safety inspectors and any health and safety consultants retained by the Company. The Union Safety Representative will be afforded an opportunity to accompany such officials or consultants and provide any pertinent information to them. Upon request, the Company will provide a copy of such

reports, including those of insurance inspectors, to the Union Safety Representative regarding violations of applicable local, state, or federal codes or standards.

D) In an effort to monitor and control noise and air quality in the plant, the Company will maintain noise measurement equipment, current NIOSH approved detector tubes for sampling airborne contaminants and appropriate multi-gas meter for air monitoring. Direct reading sampling equipment will be purchased, rented or contracted for the purpose of air quality surveys of the contaminants identified by the JSSC. The Union Safety Representative, Alternate and location Safety Engineer will be trained on the use of this equipment. A chain of custody will be used for quality assurance when sampling is performed. The location Safety Engineer and Union Safety Representative will evaluate the need for testing if there are process changes or other exposure changes. Specific exposure limits are to be reviewed and agreed upon by the location Safety Engineer and Union Safety Representative. The Company will use ACGIH TLV's and will strive to achieve NIOSH REL's, unless local or federal regulations are lower, as the standard for comparison. For chemicals where no TLV or PEL exists, the Company will seek other sources for bench marking such as best practices in industry. The location Safety Engineer and Union Safety Representative will conduct industrial hygiene monitoring when valid employee complaints are registered to their supervisor, Union Safety Representative or the Medical Department and in areas where isocyanates are used. The isocyanate program will proceed as follows:

- These areas will be identified by the Union Safety Representative and Location Safety Engineer within ninety (90) days of ratification.
- Once these areas have been identified the Union Safety Representative and the Location Safety Engineer will prioritize the list.
- The Union Safety Representative and Location Safety Engineer will then identify those personnel who require baseline medical surveillance to determine the level of any potential previous isocyanate exposure and will sample the areas using the ASSETNCO sampler or its equivalent to determine the potential isocyanate exposure.
- The Union Safety Representative and Location Safety Engineer may decide, in each of the predetermined areas, that industrial hygiene monitoring should be performed prior to baseline medical surveillance to identify which employees should be included in the program.
- If an isocyanate overexposure is detected during monitoring, the employee will be placed into a mandatory medical surveillance program using the NIOSH protocol or other available technologies.

The program will consist of detailed physical examination, medical history, pulmonary function testing, urine and/or blood sampling for antibodies related to isocyanate exposures and chest x-rays, if deemed necessary by the treating physician. Employees restricted from working in identified isocyanate areas will be placed per the Agreement. The Company will provide the Union Safety Representative and the JSSC chairs a copy of the results of industrial hygiene surveys.

## TENTATIVE AGREEMENT

### ARTICLE 16 HEALTH AND SAFETY

#### Section 4. B.E.S.T. Program

The Bringing Excellence to Safety Teams (B.E.S.T.) program has been launched and agreed to by both parties as a method to implement the hierarchy of controls to manage health and safety related programs and activities.

The B.E.S.T. program will be a tool for bringing safety concerns to the attention of Management and the UAW. This program will be used to track any safety issues brought up by Management or represented team members through to the satisfactory completion of both parties. Overall implementation of the B.E.S.T. program is designed to ~~complement~~ complement provisions associated with health and safety in this Article and the parties are committed to integrated management of the program. The B.E.S.T. program will not supersede provisions of this Agreement.

#### A) Joint Safety Strategy Committee (JSSC)

In order to ensure the B.E.S.T. program will achieve its full potential uniformly throughout DTNA, The Union and Management agree to maintain a JSSC at each location.

There shall be a JSSC consisting of the Plant Manager, Facilities Manager, Director of Manufacturing/Production Manager, Logistics Director or Materials Manager, Manufacturing Resource Manager, and Location Safety Engineer from Management at a minimum. From the Union: Shop Chair, Union Safety Rep, Alternate Safety Rep at a minimum. In order to conduct the meeting there must be a quorum of at least the Plant Manager or Director(s), Shop Chair or Alternate, Location Safety Engineer, and Union Safety Rep. The Plant Manager and the Local Union President or Shop Chairperson shall serve as Co-chairs of the JSSC. The JSSC will oversee and direct the activities of the B.E.S.T. Hazard Investigation Team (HIT). The JSSC shall meet once each month to (but not limited to):

1. Review the results of the previous month's B.E.S.T. HIT meetings.
2. Review the status of contractual safety and health issues.
3. Discuss and resolve issues that cannot be resolved at the HIT level.
4. Review the previous month's OSHA recordable injuries.
5. Review any safety concerns brought to the Committee's attention by an employee.

120

6. Assist in obtaining better employee cooperation with the enforcement of accident prevention rules.

7. A jointly agreed upon agenda will be created including a report out of any open items such as: results of industrial hygiene surveys, ergonomic issues, Safety Data Sheets, employee complaints, Outside Contractor Safety Program, Supervisor Accident Reports, local safety and health education programs, Lockout, Confined Space, Ergonomics, and Accident Investigation.

8. Minutes of the JSSC meetings shall be taken by a designee. Copies shall be made available to the JSSC members. Minutes will be approved by the Co-chairs at the end of the meeting.

9. It is understood that the Co-chairs of the JSSC will be afforded an opportunity to participate in investigating occupational injuries and illnesses in the plant. Any applicable information and photographs will be made available for the Union to review. The Union Safety Representative shall also have the right to conduct incident investigations and take photographs. The Company will promptly notify the Union Safety Representative of all significant injuries, illnesses and medical emergencies.

10. The Union Safety Representative or alternate will be provided advanced notification of industrial hygiene and noise surveys and be allowed to participate.

11. Address other issues as needed. Any issues that have been addressed **discussed** by the JSSC which cannot be satisfactorily resolved shall be referred for resolution to Step 3 of the grievance procedure.

Members of the JSSC will receive appropriate health and safety and ergonomics training as agreed to by the JSSC. In addition, the Union Safety Representative and the location Safety Engineer will attend three (3) mutually agreeable training sessions each year, with one (1) being internal training, one (1) being regional, and the third (3rd) being national training. Internal is defined as a joint training provided by the UAW International or a reputable, outside source and conducted onsite at one (1) of the NC-DTNA/UAW locations consisting of a topic that is relevant and important to all represented NC-DTNA/UAW locations whenever possible. It is understood that the internal training would be attended jointly by each Union Safety Representative, Alternate Safety Representative as well as the locations Safety Engineer. The regional training and the national training will be attended by each Union Safety Representative and the location Safety Engineer. Regional is defined as a joint training provided by the UAW International or a reputable, outside source and conducted within the states VA, NC, SC, GA or TN, also consisting of a topic that is relevant and important to all represented NC-DTNA/UAW locations whenever possible. The national training will consist of one of the following:

1. American Society of Safety Engineers **Professionals** (ASSEP) Annual Conference and Expo.
2. National Safety Council Annual Congress and Expo.
3. Or any other mutually agreed upon event.

The specific event to be attended each year will be decided jointly by the Union Safety Representative and the location Safety Engineer of each site. In the event that a majority decision cannot be made then the decision will be made jointly by the UAW International Regional Representative and the Corporate Safety Manager.

Any employee traveling will be required to follow DTNA policy for submitting post-trip expense reports. The Company will cover expenses associated with the internal, regional, and national training sessions.

Any safety training held at the location will be available to the Alternate Union Safety Representative. Other training must be agreed to by the Local Union Shop Chair and the Plant Manager upon request.

B) Hazard Investigation Team (HIT)

There shall be a HIT consisting of ~~a mutually agreed upon number~~ of members appointed by the Union and ~~an equal number~~ of members of Management from **each department of** the plant. The Union Safety Representative and the location Safety Engineer of their respective designees shall serve as co-chairs of the HIT. The co-chairs will ensure that appropriate methods of investigation are used, the hierarchy of controls is applied to all corrective actions, and the HIT is adequately trained and fully staffed at all times. The HIT shall meet once each week to:

1. Review the status of past due hazards found during weekly inspections and make recommendations for the correction of such hazards.
2. Review any Supervisor Accident Investigation Reports from the previous week and critique their containment and corrective actions taken.
3. Minutes of the HIT meetings shall be taken by one (1) of the Company members, and if acceptable, electronically signed by the location Safety Engineer and Union Safety Representative. Copies shall be distributed to the HIT members.
4. Members of the HIT will receive appropriate B.E.S.T. hazard recognition training, including database entry and on-floor inspections.
5. Union members of the HIT will be afforded the time needed to do joint weekly inspections with supervisors in their assigned areas regardless of manpower issues.

#### Section 6. Ergonomics Program

(4) It is the Company and Union's objective to ~~establish and~~ maintain an effective ergonomics program, appropriate to each facility, ~~in order to~~ control occupationally related Musculoskeletal Disorders (MSD). The Company and Union both recognize their responsibilities to support the Ergonomics Program by providing the necessary resources and leadership through the JSSC. All aspects of the Ergonomics Program will be jointly developed, implemented, and administered by the Ergonomics Committee.

The parties agree to maintain the roles and responsibilities of each specific location's Ergonomics Committee. The course "Building Effective Joint Ergonomics Committees" will be held, as needed.

#### (3) A. Ergonomics Committees

1. An Ergonomics Committee of equal representation will be maintained at each facility and co-chaired by the Company and the Union. The ~~committee established at the facility~~ will include, but not be limited to, the Union Safety Representative, location Safety Engineer, members from Facility/Maintenance Departments, Engineering, Medical, Production and/or Logistics Departments, ~~Corporate Manufacturing Engineering~~, Ergonomics Coordinators/Soft Tissue Therapists, and appointed UAW members ~~trained analysts~~, as appropriate. One (1) member will be dedicated as an Ergonomic Engineering Champion. The Ergonomics Committee will:

- a. Meet monthly to review employee injuries and illnesses to identify potential ergonomic problems.
- b. Conduct and review ergonomic job analyses.
- c. Evaluate the status of the facility's prioritized problem job listing.
- d. Review the upcoming and completed CI events.
- e. Recommend job improvements.
- f. Oversee related ergonomics training.
- g. Help to implement corrective actions when necessary.

The Company agrees to implement ergonomic solutions within a three (3) month time frame after a job analysis determines corrective action is required. Problem jobs have not been corrected within three (3) months of the ergonomics job analysis will be placed on the agenda of the facility JSSC. The Ergonomics Committee will utilize the consultation of the International Union's Ergonomic Specialist when they deem it appropriate to aid the Ergonomics Committee.

#### 2. Corporate Joint Ergonomics Steering Committee

100 4-19-24

The Corporate Joint Ergonomics Steering Committee's mission is to promote ergonomic awareness, develop and implement technical documentation, program documentation and guidance information and to act as a point of contact/reference for all UAW-DTNA locations. Each of the UAW-DTNA represented locations will have at least one (1) UAW Ergonomics Committee member as part of the Corporate Joint Ergonomics Steering Committee.

The Committee will also identify and make available assessment tools to assist DTNA in developing strategies to avoid and minimize musculoskeletal injuries. The committee will monitor the effectiveness of the program components, documentation, and training through the risk assessment process and Corporate Safety Audit modules.

The Committee will meet quarterly to achieve objectives/goals and share best practices. The Company will ensure at least one (1) member of the Corporate Design Engineering Group and/or one member from the Corporate Manufacturing Engineering Group will be part of this committee to act as a liaison for ergonomic issues related to engineering.

- (2) **B.** The Company recognizes that analyzing and reviewing all symptom survey and injury data is an important step in the ergonomic process and will begin working toward that end. The Ergonomics Committee will be provided MSD-related data to analyze and track. The Ergonomics Committee will use this information to identify jobs and departments with the highest rates of MSDs and maintain a priority job list. Employees will have the opportunity to submit recommendations to the Ergonomics Committee through the employee suggestion system.

~~Ergonomic analysis shall be conducted by the location Safety Engineer and/or Union Safety Representative and/or those trained in the tools agreed to by the Ergonomics Committee. Ergonomic improvements made as a result of these analyses shall be incorporated into standard work.~~

- (4) **C.** Job Evaluation

- (a)1. Ergonomic analyses shall be conducted by the location Safety Engineer and/or Union Safety Representative and/or those trained in the tools agreed to by the Ergonomics Committee. Ergonomic improvements made as a result of these analyses shall be incorporated into standard work documents. The primary tools used to evaluate standardized work and maintenance tasks will include the UAW-GM Risk Factor Checklist and the Washington State Caution Zone Checklist and will be further developed and revised as needed. The Ergonomic Committee will select additional advanced method(s) of job analysis based on mutual agreement, such as, but not limited to ACGIH Hand Activity Level TLV, Rhomert recovery model for

analyzing shoulder stress, Snooki-Cirello Tables for push and pull motions, NIOSH 1991 Lifting formula, the Washington State lifting model, ~~and three (3) dimensional static strength prediction model,~~ **and any recognized ergonomic tool available in the ergonomics industry.** The use of qualified outside source(s) to perform job analyses will be considered jointly but will not reduce the duties of the Union Safety Representative. Ergonomic job evaluation(s) will be conducted within two (2) weeks of a reported job-related MSD, when the Company becomes aware of an ergonomic risk factor, when a symptom survey indicates an ergonomic issue, and when major machinery and equipment changes are made. Employees performing jobs being analyzed will be asked to provide input on problem aspects of the job and potential corrective measures. Employees performing the job will be notified prior to job changes.

~~(b)~~**2.** Ergonomic job evaluations will be entered into a computer database and can be accessed via a handheld device, which will be selected during the Implementation Meeting. The Ergonomics Committee will establish and have access to this system for consistent recordkeeping, tracking of problem jobs, and provide a convenient method to update evaluations after job changes or ergonomic improvements.

~~(c) Ergonomic design criteria and checklists will be selected by the Ergonomic Committee for use in the review of new equipment and processes such as ANSI B11 Appendix for Ergonomics Design.~~

~~(d)~~**3.** Trained Analysts of each facility Ergonomics Committee will be afforded the time needed to perform their periodic ergonomic job evaluations and attend scheduled meetings.

**4. In order to identify elements of Skilled Trades jobs that require necessary ergonomic interventions, the joint Ergonomics Committee, under the guidance of the JSSC, will develop a Skilled Trades Ergonomic Assessment Form to effectively and efficiently analyze Skilled Trades jobs.**

~~(e)~~ **D. Job Improvements**

~~(e)~~**1.** Ergonomic design criteria and checklists **have been developed by the Corporate Joint Ergonomics Steering Committee** ~~will be selected by the Ergonomics Committee for use in the review of new equipment and processes. such as ANSI B11 Appendix for Ergonomics Design.~~ **Engineers, TOS Implementation Team members and Contractors will follow the Corporate document "DTNA Ergonomic Design Guidelines for Control of Musculoskeletal Loads" when designing work stations, work processes and purchasing and/or building equipment and tooling.**

**2.** Feasible Engineering controls (job redesign) will be implemented as the preferred method to control ergonomic risk factors. **When engineering controls are not**

feasible, the Hierarchy of Controls will be followed in eliminating or reducing ergonomic risk factors. Employees performing the jobs will have direct input into the redesign of their workstation using the Standard Work process.

3. Seats, chairs, mats or insoles can be considered appropriate solutions to control specific ergonomic risk factors. The Company agrees to leave such devices in place when they are provided in accordance with the guidelines and are recommended by the Ergonomic Committee.

(6) E. Training

(a) 1. New Ergonomics Committee members will have initial internal Practical Ergonomics Training (PET) as soon as practical possible, but at least within twelve (12) months of appointment to the Committee. Participants will be able to perform evaluations using the basic risk factor checklist. The Ergonomics Committee will receive additional internal training on other advanced risk factor analysis tools.

(b) 2. An Ergonomics Awareness Training Program will be developed for all facility employees. This awareness training will be conducted every three (3) years annually and during new/recall employee orientation. Employees will have the opportunity to submit recommendations to the Ergonomics Committee through the employee suggestion system.

(c) 3. In addition to general practical ergonomics training, manufacturing engineers and design engineers will be trained initially in the job evaluation tool(s), design criteria and checklists used for equipment and process reviews.

(d) The Ergonomics Committee will utilize the consultation of the International Union's Ergonomics Specialist when they deem it appropriate to aid the Ergonomics Committee.

## TENTATIVE AGREEMENT

### ARTICLE 16 HEALTH AND SAFETY

#### Section 7. Miscellaneous

#### 1. Occupational Health

##### A) Noise Abatement

The Company and the Union recognizes that noise induced hearing loss is a permanent and irreversible condition that significantly affects the quality of an employee's life. Management and the Union are committed to reducing noise levels in the plant. **An initial noise determination process will be repeated for any significant change in production, process, equipment, controls or personnel which may result in new noise exposures at or above eighty (80) dBA.** A comprehensive sound survey will be conducted **at least every two (2) years at each plant** to measure sound exposures throughout the plant(s). The survey will identify **those** areas of the plant(s) required to participate in a hearing conservation program and **those** areas required to wear hearing protection. Areas found to be in excess of eighty (80) dBA as an eight (8) hour time-weighted average (**TWA**), will be evaluated for engineering controls to reduce noise levels below eighty (80) dBA. The survey will identify the primary sources of noise and list engineering controls to reduce exposure. The Company and the Union will **continue to maintain a comprehensive noise abatement program to address areas exceeding eighty (80) dBA on an eight (8) hour TWA.** The goal of the noise abatement program is to significantly reduce the number of employees required to wear hearing protection as a result of eliminating exposures to hazardous levels of noise. The JSSC will review the noise abatement program each year. The Company will establish an eighty (80) dBA specification for new machinery, equipment and powered hand tools. Deviations from the noise specification, when compliance is not feasible, will be reviewed by the JSSC. **The Hierarchy of Controls will be utilized to develop noise abatement programs to reduce noise levels in areas where hearing protection is required.** Powered hand tools will be evaluated for compliance with the noise specification and ergonomics design guidelines prior to purchase.

##### B) Industrial Hygiene and Hazardous Chemical Use Reduction

1) Effective control of hazardous materials will serve to protect the employees of DTNA as well as the environment in the surrounding community. The Company and the Union are committed to the continuous reduction in the use of hazardous materials.

WSD

This will be accomplished through process changes and on-going efforts to identify safer substitutes for materials currently in use. This program will be reviewed with the JSSC and is expected to reduce employee exposures and protect the environment and to improve communication when products or processes are introduced into the work environment. The Union Safety Representative will participate in the Chemical Review Committee. Initial process reviews will include intra-plant benchmarking on electrostatic spray paint transfer efficiency and spray booth cleaning methods. The Company will use ACGIH TLV's and will strive to achieve NIOSH REL's, unless local or federal regulations are lower, as the standard for comparison. For chemicals where no TLV or PEL exists, the Company will seek other sources for bench marking such as best practices in industry.

### C) CADMIUM AND HEXAVALENT CHROMIUM USE

During the course of these negotiations, Management and the Union have held discussions concerning cadmium and hexavalent chromium in the workplace. The below elements were agreed to:

1.) The Company commits that it will not use cadmium-coated fasteners in the assembly process.

2.) Hexavalent chromium will not be utilized as it pertains to metal pretreatment.

3.) In the unlikely event that cadmium-coated fasteners or hexavalent chromium as it pertains to metal pre-treatment are found in the plant, the Company will provide a risk communication regarding cadmium and hexavalent chromium to all affected employees within the facility. Should an exposure occur, the Company will schedule and pay for biological testing conducted by a mutually agreed upon certified laboratory and will ensure that any cadmium-containing residue and hexavalent chromium containing residue is properly cleaned up and disposed.

4.) The DTNA Corporate Manager of Health and Safety, the UAW International Health and Safety Representative, and the Local Health and Safety Representative agree to meet, discuss, and determine the adequacy of our existing strategy relating to cadmium and hexavalent chromium and determine if any additional actions may be required.

5.) If any components/parts containing Cadmium are found to be in any UAW represented plant covered under this Agreement, the Company will communicate to the work force to minimize exposure. The Company will work with those vendors to identify suitable alternatives and follow procedures outlined in Section 3 above.

#### D) Plant Ventilation Systems, Heat Stress

The Company recognizes the importance of ventilation systems to maintain a comfortable and safe environment, and control air contaminants and reduce the risk of fires and explosions. Preventive maintenance programs will be implemented and maintained to ensure that plant ventilation systems operate properly. All exhaust ventilation and make up air units will be rated the highest priority. The Manager of Maintenance will review the program with the JSSC on a periodic basis, or at a minimum, annually. The Company will perform a ventilation study on new equipment as and mutually agreed to establish baseline performance requirements.

The Company is committed to effectively controlling ambient temperature within the DTNA facilities during periods of high or low temperature conditions. The parties agree to identify economically feasible ways to improve air movement through the locations to address employee exposure to high or low temperature conditions.

The Company will monitor temperatures (the JSSC will verify) during high or low temperature conditions. The Company will purchase a mutually agreed to heat index measuring device capable of monitoring the heat index for each plant. In areas of the plants where the heat index is typically highest, the UAW Safety Rep or a Company designee will measure the heat index via a company provided Wet Bulb Globe Temperature device or equivalent. Should the heat index reach  $\geq 90$  degrees in affected work areas, the Company will follow the established DTNA Occupational Safety and Health Environmental Heat Stress Policy by providing 10 minutes of rest break every 2 hours of exposure. Should the heat index temperature reach  $\geq 100$  degrees in affected work areas, 15 minutes of rest break will be provided every hour of exposure. The Company will supply ample hydration stations, drinking fountains, and electrolyte drinks as well as any other heat relief items that protect exposed workers during periods of excessive heat conditions in affected work areas. In addition to the DTNA Occupational Safety and Health Environmental Heat Stress Policy, the April 8, 2022, OSHA directive on Heat Related Hazards (CPL 03-00-024) including NIOSH criteria for Recommended Alert Limits (RAL) and Recommended

Exposure Limits (REL) will be referenced as a guideline to protect workers from heat related injury/illness potential. The company agrees to train all employees on heat illness prevention and provide a detailed review of the heat illness compliance program. Annual refresher training will also be provided.

E) Pandemic Health Protocols

During the course of these negotiations, Management and the Union have held discussions concerning global pandemics and its effects in the workplace regarding health and safety.

The parties agree that if the World Health Organization (WHO) declares a global pandemic, the Company will follow the guidance protocols of the Centers for Disease Control and Prevention (CDC) or local government agencies, whichever is stricter, by establishing protocols to reduce the spread of any novel pandemic virus.

2. Safety Processes & Procedures

A) Review of New Equipment and Rearrangements

New equipment (including used equipment from other facilities) and rearrangements will be reviewed and signed-off by the Facilities/Engineering Manager, location Safety Engineer and the Union Safety Representative prior to being placed into operation. The Certification of Facility Equipment Installation (preliminary form 09ME-R02 or preliminary form 09ME-R04) or another approval/buy-off process will be routed to the Location Safety Engineer and the Union Safety Representative for review and sign-off.

If the new equipment and/or rearranged equipment does not meet applicable OSHA standards and Relevant Consensus Standards, the equipment will be immediately assessed jointly by the Union Safety Representative, the Location Safety Engineer, and the Project Lead Representative prior to the equipment being placed back into service.

When work areas are redesigned for new operations, new models, or new technology, upon completion of the modifications, changes may be reviewed on-site by the International Health and Safety Department, upon request.

**B) Outside Contractor Safety Program**

The Company will maintain an Outside Contractor Safety Program and provide a copy to the JSSC for their review. Outside Contractors will be required to comply with all Federal, State, and Municipal Health and Safety regulations as well as company health and safety policies and procedures. The Company will notify the Union Safety Representative, in advance, of contractors working in the plant and a job site safety plan will be developed and reviewed prior to commencement of on-site work. Where construction or maintenance work requires that contractor employees work in proximity to DTNA-UAW employees, additional precautions will be taken to minimize any adverse safety or health concerns. Management and Union Safety Representatives will conduct periodic inspections and monitor the work of outside contractors so they may correct any safety related violations immediately ~~to ensure compliance.~~ Contractors found to violate health and safety regulations and standards will be advised and will be expected to implement corrective action or be required to leave the facility.

**C) Plant Emergency Response Drill**

The parties agreed to regular trials of an Emergency Evacuation Plan and Severe Weather Plan. It was further agreed that an Emergency Evacuation Drill or Severe Weather Drill will be conducted on each shift if production employees are assigned to the shift. The drills will be conducted on an annual basis. These planned and pre-announced drills will be to familiarize employees with the emergency warning system, evacuation routes, and assembly areas. Future drills will be conducted as deemed necessary by the JSSC. The Plant Emergency Evacuation Routes will be periodically updated to reflect changes in the plant. In addition, emergency coordinators will receive annual refresher training, and the emergency alarm will be activated at least once a year, at pre-announced times, for familiarization purposes. Supervisors will review the evacuation routes and warning system, Severe Weather Plan and the Active Shooter Plan with employees at least twice a year during Supervisor Safety Awareness meetings. A written Plant Emergency Response Plan will be maintained with up-to-date contact information that includes responsible plant personnel as well as local municipal emergency response agencies.

#### **D) Powered Hand Tools Safety**

A preventive maintenance program for powered hand tools will be maintained. Defective powered hand tools will be immediately removed from service and tagged out.

**The Company agrees to reduce slip and trip hazards by reviewing and replacing powered hand tools. A joint hazard assessment will be conducted to review hand and portable power tools with electrical flex cord and pneumatic hose connected tools used in production and assembly areas. Based on the results of the assessments the company agrees to create a priority list and replace those high risks tools with cordless, battery powered hand tools provided battery powered hand tools meet the torque specifications/applications needed to perform the work.**

#### **E) Audits**

An annual comprehensive Health and Safety audit of each NC DTNA/UAW represented facility will be conducted by the Corporation, International Union, Local Union, and Plant Management. ANSI Z10-2019 protocols will be used to further develop the current audit process.

The parties agree that beginning in 2019, **A** follow-up event to the **joint** audits will take place within ninety (90) calendar days of the facility submitting a corrective action plan. **A** The corrective action plan will be completed within fifteen (15) working days of the facility receiving the final **audit** report. The corrective action plan will then be submitted to the Corporate Safety Manager and the International Union for review. A follow-up event is defined as a conference call, web conference, video conference, online meeting, or onsite visit to be mutually agreed upon by the Location Safety Engineer, Union Safety Representative, Corporate Safety Manager, and UAW International Safety & Health Department. These follow-up events will apply to NC DTNA/UAW facilities that had, in their most recent audit, significant regulatory requirements either missing or not effectively controlled or have exposure with repeat findings and potential violations within a module.

## **F) Liability**

The International Union, Local Union, the JSSC and Union officials, employees and agents shall not be liable for any work connected injuries, disabilities, diseases, deaths, or loss resulting there from which may be incurred by employees of the Company or by third parties while on Company property. This is not intended to and does not increase the Company's liability in such cases beyond its normal exposure, if any (i.e., worker's compensation).

## **G) Health and Safety Training**

### **1. General Population**

The parties agree that health and safety training is an essential part of an effective safety program. All health and safety training curriculum will be approved by the location Safety Engineer and the Union Safety Representative prior to being delivered to employees. The training must meet all applicable OSHA training requirements and all DTNA guidelines.

### **2. Skilled Trades**

**All Skilled Tradespersons will receive mutually approved Powered Industrial Vehicle Operator Training, Aerial Lift Operator Training, Fall Protection Equipment Training, Confined Space Entry Training and Lockout Tag Out Training upon initial assignment to the Maintenance Department. In addition, Electrical Safe Work Practices/NFPA 70E Arc Flash Training will be conducted for all Electricians, Electronics Technicians & HVAC Technicians. Refresher training in all safety related topics will be provided as determined between the parties.**

### **3. Certification Training for Safety Trainers**

**The Company agrees to cover the costs associated with training certifications for the UAW Safety Representative, Alternate UAW Safety Representative and other mutually agreed to facility trainers for regulatory safety topics including, but not limited to, Powered Industrial Vehicle Operation, Cranes and Hoists Operation, Fall Protection Competent Person,**

**and Lock Out Tag Out. Those trained will be the designated trainers on the specific topics.**

### **3. Worker Protections**

#### **A) Lockout**

The Company and the Union jointly recognize the importance of the Lockout program, and every effort will be made to ensure the safety of all employees. It is the policy of DTNA and endorsed by the UAW that Lockout is required where employees may be exposed to hazardous energy which could cause serious injury or fatalities. **Therefore, the company agrees to the following:**

**1. Proper utilization of energy isolating devices during servicing and maintenance of machines and equipment in which the unexpected energization or start-up of the machines or equipment, or release of stored energy could cause injury to employees.**

**42.** Maintaining placards containing machine specific lockout procedures, listing equipment needed and verification methods on all machinery and equipment with multiple energy sources in the plant. The Company will utilize a third party or internal process at all plants to generate a common lockout placard for new machines and equipment. This will also be used to update existing placards into the common placard template whenever machinery and/or equipment is modified.

**23.** All plants will be required to conduct an annual review of lockout placards. Records of this annual review will be tracked to ensure appropriate compliance.

**34.** Ensure that all types of energy isolating devices and the proper number of devices needed to perform complete lockout procedures are **always** on hand in the plant.

**45.** Ensure that authorized and affected employees per OSHA standard are trained in lockout and authorized employees are provided the necessary types and number of devices to safely perform lockout procedures.

**56.** The Company and Union recognize the importance of maintaining and reevaluating cell entry procedures to ensure that effective health and safety controls

are in place and that no exposure exists to operators entering the cell to perform minor, routine, and repetitive tasks. A risk assessment will be performed on new robotic cells **and all current cells will be reviewed for compliance.**

**7. Whenever replacement or major repair, renovation or modification of a machine or equipment is performed, and whenever new machines or equipment are installed, energy isolating devices for such machine or equipment shall be designed to accept a lockout device.**

**8. The company shall conduct an audit of authorized personnel at least annually to ensure that the procedures are being followed. The periodic inspection shall be performed by an authorized employee other than the ones utilizing the energy control procedure being inspected. Any deviations or inadequacies identified will be corrected.**

#### **B) Fall Prevention Program**

The Company will maintain a Fall Prevention Program that meets all elements of the most current version of the ANSI Z359 Fall Protection Code. The Union Safety Representative will survey employees to identify tasks that involve work at heights greater than four (4) feet within one (1) year of the effective date of the Agreement. Each task will be documented, prioritized, and evaluated to determine feasible engineering controls. Fall protection equipment **including engineering approved, certified anchorage points where required,** will be made available only when engineering controls are not appropriate to prevent falls. The Company agrees to maintain all equipment in safe working order and replace equipment found to be defective. Appropriate fall prevention equipment that meets ASTM\_F887-0420 will be provided for applicable skilled trades. Appropriate employees will be trained in the proper use of fall protection equipment per the OSHA standard. Fall protection equipment will be made available, properly stored, ~~and~~ maintained, **and inspected per OSHA requirements.** Appropriate refresher training will be provided on an annual basis for all applicable employees. The Company will make readily available fall protection equipment to the employees who are required to use such equipment.

**In the event of an emergency rescue from heights related to man-up equipment, selected employees will be trained to immediately rescue a fellow employee either with the use of the emergency descent valve on the piece of equipment being utilized or other equipment such as aerial work platforms or order picker vehicles depending upon the location, situation, and safe methods. Additionally, to avoid prolonged post fall suspension trauma, an emergency call**

will be placed to the nearest local municipal fire and rescue agency immediately to request assistance in performing the rescue where needed.

The Company understands the risk associated with portable ladders. The Company agrees to evaluate and work to eliminate all portable ladders on assembly lines. A joint hazard assessment will be performed on all jobs which require a portable ladder. Hazards will be prioritized by risk and controls will be implemented to limit work on portable ladders. Additionally, production jobs that require employees to climb onto chassis, cabs, moving dollies, or other components during assembly will be identified and corrected.

The company agrees to comply with all regulatory standards related to fall protection when requiring employees to work on roofs within a 6' unprotected leading edge. A roof safety plan will be developed to ensure adequate protection/prevention for employees exposed to potential falls prior to roof top work commencing. Under no circumstances will employees be required to work within 6' of unguarded roof edges without proper protection/prevention such as guardrails, and/or personal fall arrest systems.

#### C) Working Under Suspended Loads

The Company will eliminate the practice of employees working under suspended loads in all areas of the plant. Each task that currently requires employees to place part of their body under a suspended load will be identified and corrective measures will be implemented to address each including product design changes, moving certain operations to other stations and modification of tooling and methods.

#### D) Working Alone

The Company and Union agree that assigning an employee to work in an isolated location does not in and of itself create an unsafe condition. When such assignments involve work situations potentially hazardous to an employee, such work shall be in accordance with recognized safe work practices. Each location's JSSC and the Skilled Trades Representative will review and list **remote** high hazard areas and jobs and develop Safe Operating Procedures (SOP) **to address the potential hazards**. When an employee is required to work in an isolated area, precautions ~~which might include~~ **such as** two-way communication **devices**, ~~periodic checks by the supervisor, team leader or security,~~ **continuous monitoring, adequate support personnel** or other means, will be taken to monitor the well-being of the employee. Additionally, the Company will exercise caution in the assignment of apprentices **or newly hired**

employees who may be less familiar with the hazards associated with certain tasks necessary to be performed in remote or isolated locations. The Company will make certain apprentices or newly hired employees are knowledgeable of the potential hazards prior to making any work assignments.

#### E) Refusal of Hazardous Work

The company recognizes that all employees have the opportunity to exercise their right to refuse to do unsafe work under the protection of OSHA Standard 1977.12.

Therefore, A worker, who has a reasonable belief that their work assignment may result in a physical injury, including illness, should immediately discuss the safety aspects of the work assignment with their supervisor. Failing resolution, the issue will be brought to the district union representative immediately. Should technical consultation be requested by the supervisor or the district union representative, the UAW Safety Representative and Company Safety Engineer will be notified before further action is taken.

#### F) No Hands In Dies Policy/Strategy

The Company and UAW supports a "No Hands in Dies" policy/strategy throughout all facilities. Full implementation of "No Hands in Dies" in each location requires provisions for expendable or other hand feeding tools, slide feeds, sliding bolsters, automatic or semiautomatic operation, die cutouts, cobots/robots or other means and procedures whereby the operators are not required to place their hands into the point of operation. In addition, procedures for use of die blocks/slide locks and safety lock-outs for maintenance and setup personnel are imperative. An intensive orientation program for operators, supervisors, and process and facilities engineers may also be advisable.

#### 4. Powered Industrial Vehicle & Material Handling

A. The company and union understand the need to evaluate and replace forklift and PIV equipment. The JSSC will evaluate and agree on a replacement strategy to ensure PIV's are in safe working condition. The parties agree to replace PIV's that have exceeded 15,000 hours. The JSSC will explore an electronic PIV inspection and monitoring system which can be installed on future and existing equipment within 90 days of ratification and mutually agree on implementation of the electronic system. Further, the JSSC will work to create a more comprehensive PM program to maintain all PIV's as well as other material

handling equipment such as dollies, mother carts, daughter carts, bulk flats, totes, trash gons, etc.

B.-The Company and Union recognize the importance of crane/hoist operators performing daily pre-operational inspections prior to utilizing the equipment. The Company will explore options for electronic crane/hoist inspection systems for cranes/hoists. The JSSC will mutually agree on the electronic inspection system and create a crane prioritization list. The Company will budget funding for implementation of the electronic inspection systems to be completed in stages over the life of the agreement.

C. The Company agrees to install and maintain virtual/projected floor markings/signs to improve visual safety. Each facility's JSSC will discuss and mutually agree to the locations & priority of virtual floor markings within their respective facilities. Additionally, fixed floor markings designating both pedestrian and equipment aisles will be maintained as needed. The parties agree that pedestrian aisles will be indicated by two four-inch-wide parallel lines 36 inches apart from outside-to-outside dimension wherever possible. Under no circumstances will pedestrian aisles lead to overhead doors or other recognized hazards. The Company Safety Engineers and UAW Health and Safety Representatives will develop a plan to conduct strategic flow mapping, separating high vehicle traffic areas from high pedestrian traffic areas.

D. The company agrees to maintain and utilize dock locks for all docks. In the event the dock locks are not functioning or no dock lock exists, the company agrees to use wheel chocks to prevent unintended trailer movement.

The Company agrees to follow material handling, stacking and storage best practices as discussed in the quarterly best practice-share meetings. Material storage racks both inside and outside of each facility will be inspected and properly maintained on a regularly scheduled basis. Stored materials must not create a hazard for employees. The company and union will provide mutually agreed upon training to all material handlers for proper material storage and safe load handling. To prevent creating hazards when storing materials, the company agrees to make every effort to store materials safely.

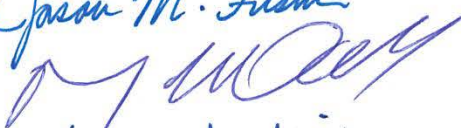

E. A documented trailer safety inspection process will be developed and implemented to ensure all trailers are free from damage and safe to load or unload with powered industrial equipment. Damaged trailers are to be identified,

tagged, and removed from service. Employees will be trained to inspect the condition of the floor, side walls, ceiling, understructure, landing gear, etc. for damage prior to crossing the threshold of a trailer with a PIV. In the event that a docked trailer landing gear is compromised, jack stands will be provided and utilized to stabilize the trailer.

G. The company recognizes the importance of maintaining outside walking-working surfaces for safe PIV and pedestrian travel, trailer movement, stability and storage. The JSSC will identify, document and prioritize areas in need of repair. The company agrees to provide the necessary funding to expedite repairs of all damaged concrete and asphalt surfaces. Further, the company agrees to discontinue the use of covering potholes, cracks or deteriorated surfaces with non-coated steel plating and will seek immediate repairs. In the event a pothole, crack or deteriorated surface requires temporary covering, the company agrees to utilize anti-slip material to provide maximum traction until such time proper repairs can be completed.

H. Roof leaks will continue to be addressed in a timely manner by the Maintenance and Facilities department. Employees will not be required to work in areas where roof leaks are compromising their safety. Maintenance will divert roof leaks out of work areas until roofers can come in and make needed repairs.

## TENTATIVE AGREEMENT

### ARTICLE 23 AUTHORIZATION FOR CHECK-OFF DUES

During the 2018 2024 contract negotiations for the UAW represented DTNA North Carolina facilities, the parties agreed to a procedure for the authorization for check-off dues. The following will apply:

Subject to the limitations as provided by the applicable laws of the State of North Carolina and/or Federal law, the Company agrees during the life of this Agreement, to deduct Union membership dues from the pay of each employee who is a member of the Union, in accordance with the procedures set forth herein. For the purposes of this Letter, pay from which Union membership dues may be deducted shall include all categories of payment to the employee, which the Union Constitution recognizes as appropriate for deduction of dues.

Upon receipt of a signed authorization which is in conformity with the laws of the State of North Carolina and applicable Federal law, the Company agrees to deduct from pay earned by employees who are members of the Union the amount which is certified by the Union as membership dues, including any applicable initiation or reinstatement fees, and remit such amounts monthly to the Local Union Financial Secretary. Employees who desire to authorize the request to the Company to make such deductions and payments of their Union membership dues shall use the form entitled "Authorization for Check-Off of Dues." Such authorization may be revoked by the employee as provided therein and as provided in Section 302(c) of the Labor-Management Relations Act of 1947, as amended. It shall be the responsibility of the Union to provide such authorization.

The Local Union Financial Secretary shall give written notice to the Company of the amount of membership dues, including initiation or reinstatement fees, deductible in accordance with the preceding authorization. In all cases where a deduction is made which duplicates payment already made to the Union by an employee, or where deduction is not in conformity with the provisions of the Union Constitution and bylaws and/or terms of this Agreement, refunds to the employee will be made by the Union.

All sums deducted shall be remitted to the Local Union Financial Secretary not later than the fifteenth (15) day of each calendar month in which deductions are made. At the time of remitting the deducted amounts each month, the Company will furnish the Local Union Financial Secretary with a listing of the employees, by name, social security number and amount deducted, for whom payroll deduction of Union membership dues was made. The Union will give the Company prompt written notice of any errors in the listing or remittances.

Once each month, the Company will forward to the Local Union Financial Secretary a listing of employees' names indicating the reason for failure to include any sum or sums, which ordinarily would have been checked-off from the pay of the employee, covered by the Agreement.

The Union shall indemnify and save the Company harmless from all claims, demands, suits, or other liability arising out of or by reason of any action taken or not taken by the Company for the purposes of complying with the provisions of this letter.

DTNA Payroll will use the pay rate in effect for the last complete work week of each month for the

RS

dues deduction calculation the following month. Thereafter, all sums deducted will be remitted to the Local Union Financial Secretary not later than the fifteenth (15<sup>th</sup>) day of each calendar month in which the deductions are made. ### ARTICLE 24 PAID SICK LEAVE

~~Paid Sick Leave provisions will remain unchanged for the 2018 calendar year. The following is effective January 1, 2019.~~

**Section 1.** Beginning on January 1 of each year, Paid Sick Leave in the maximum amount of five (5) days per calendar year will be awarded to every employee (see Section 6) not in the attendance disciplinary step of the Attendance Control Program. Attendance Control Program employees will accrue Paid Sick Leave at a rate of 3.33 hours per month. Any days not taken will be accrued to a maximum of fifty (50) days. An employee with fifteen (15) or more days of accumulated Paid Sick Leave may use five (5) of such days as an additional full week of vacation in accordance with normal scheduling requirements. An employee with twenty-four (24) or more days of accumulated Paid Sick Leave may use ten (10) of such days as additional full weeks of vacation in accordance with normal scheduling requirements.

Individuals who are on layoff on January 1 and who are subsequently recalled during the calendar year will continue to accrue Paid Sick Leave at a rate of 3.33 hours per month beginning the month after they return up to the maximum of five (5) days.

Individuals hired on or after January 1 will accrue 3.33 hours of Paid Sick Leave per month beginning the month after they attain seniority.

**Section 2.** Up to four (4) days per calendar year may be used as personal time at the employee's option provided these days off are scheduled in advance in the same manner as single days of vacation.

**Section 3.** Any employee with accrued Sick Leave of five (5) days may cash out the excess above five (5) days (cash out full days only) at any time.

**Section 4.** Paid Sick Leave may be used during the statutory waiting period by employees who are off work with compensable injuries. Employees who choose to use contractual sick leave to satisfy the unpaid waiting period will not have any adverse pay impact. Paid Sick Leave used for this purpose will not be reinstated. Employees indefinitely laid off through a reduction of force will be paid for earned and accrued sick leave pay including pro-rata to the last day worked. Upon request of an employee who is indefinitely laid off or terminated pending a just-cause determination by an Arbitrator, the Company will defer payment of any sick leave money to which he/she is entitled, but not in excess of twelve (12) months following layoff or termination. Sick leave money paid subsequent to the date of layoff is payable at the employee's applicable pay rate as of the date of his last day worked.

**Section 5.** Up to four (4) hours of Paid Sick Leave may be utilized in one (1) hour increments each calendar year. All other Paid Sick Leave must be used in four (4) hour increments. The only exceptions to these rules are in cases when the normal shift hours are shortened due to a plant or department shutdown. In such cases, an employee can use an increment of available Paid Sick Leave necessary to cover the balance of the shift. Paid Sick Leave cannot be used to cover absences

Individuals who are off for any of the following reasons on January 1 and who return to work during the calendar year, will be awarded five (5) days of Paid Sick Leave upon reinstatement as long as the individual was not in the attendance disciplinary step of the Attendance Control Program as of January 1. Five (5) days is the most that is awarded regardless of how long the individual has been off.

This will be applicable only to employees who are in the Attendance Control Program, or where there is a reasonable suspicion that the request for Paid Sick Leave was utilized for purposes other than sickness.

**Section 8.** To streamline the pay request procedure the Union and the Company agree that employees' sick pay will automatically be paid from the absentee call in system **or a time keeping app.**

**TENTATIVE AGREEMENT**

**LETTER OF UNDERSTANDING**  
**EMPLOYEE PLACEMENT**

The Union and the Company recognize the hiring of new employees while there is a surplus of seniority employees in layoff status at other Daimler Truck North America (DTNA)/UAW represented locations is not in the best interest of the parties. Therefore, the parties will provide seniority employees, who are subject to indefinite layoff, idling, and/or plant closure, an opportunity for employment at other DTNA/UAW represented facilities covered under this language.

For purposes of this Letter of Understanding, seniority for placement refers to the longest unbroken Company service with a DTNA/UAW facility, which will be used to give priority to indefinitely laid off employees who choose to be employed at another DTNA/UAW facility.

Employees who are hired to work at another DTNA/UAW represented facility will maintain all recall rights to their original facility. However, if an employee chooses to stay at the new facility when offered an opportunity to exercise their recall rights, the employee forfeits any recall rights back to their original facility. If there is an indefinite layoff, closing or idling at the employee's new facility, they will maintain seniority for hiring opportunities to all DTNA/UAW represented facilities covered under this language.

Once the employee enters the new facility, they will be given a plant entry date for purposes of job bid, shift preference, overtime, vacation scheduling, and layoff/recall at the new facility. Company service/seniority will continue for pension purposes, vacation accrual, pay rate and wage scale progression.

Details of the process will be established and communicated and any unexpected issues that arise will be discussed and resolved by mutual agreement.

### LETTER OF UNDERSTANDING MEDICAL LEAVE TRANSPARENCY FOR EMPLOYEES WITH LESS THAN 12 MONTHS OF SERVICE

Prior to 2024, the third-party Disability Administrator & DTNA worked together to update the reason used for STD denial when an employee did not have 12 months of service and added language to the denial letter the third-party Disability Administrator sends to the employee.

Going forward all DTNA UAW employees will be advised to file an STD claim if they expect to be medically disabled for 7 calendar days or more, even if they do not have 12 months of service.

The Benefits Group will update the script so the Customer Service Representative does not stop employees from filing an STD claim and to use the Attending Physician Statement in the packet and return it to local HR (not plant medical).

The Benefits Group will make sure if the third-party Disability Administrator receives the Attending Physician Statement in the denied STD claim (when denied for length of service) that the information is either forwarded over to the Disability Coordinator or the Disability Coordinator is advised so they can access the documents in the claim images. Union Benefit Representatives to be notified via email of receipt of the Attending Physician Statement (for notification purposes only).

## TENTATIVE AGREEMENT

### LETTER OF UNDERSTANDING

#### ATTENDANCE CONTROL POLICY

The Company and the Union mutually agree that the Attendance Control Policy is a reasonable work rule. **Attendance Control Policy discipline will be issued within twenty (20) available working days of the triggering occurrence.**

An employee's regular attendance on the job is of vital importance for the efficient operation of our business. Disruption of established work schedules due to excessive absenteeism places a heavy burden on fellow employees as well as on the planning necessary to achieve production goals. In order to maintain acceptable standards of attendance and to provide for fair and consistent treatment of employees receiving corrective action for excessive absenteeism, the following Attendance Control Policy is effective upon ratification. The parties further acknowledge this policy is a reasonable work rule and corrective discipline will be imposed under the provisions of this Letter of Understanding.

#### 1. Absences (Non-Chargeable):

Absences for the specific reasons listed below are not charged against the employee's attendance record:

1. Negotiated Paid Sick Time Leave (03-Time)
2. Short-Term Disability in Excess of Seven (7) Calendar Days
3. Approved Military Leaves of Absence
4. Holidays
5. Vacations
6. Jury Duty
7. Court Appearance (Only as subpoenaed witness and not as a principal of court action itself)
8. Bereavement (as defined in the Agreement)
9. Time Lost due to Industrial Injuries or Illness
10. Layoff or Temporary Plant Closures / Shutdowns
11. Time Lost due to Plant Emergencies (power failures, bomb threat, tornadoes, etc.)
12. Disciplinary Suspensions
13. Approved Leave for Union Business
14. Approved Personal Leave of Absence
15. Medical Leave (minimum of 5 working days)
16. PTO (if employee has time available)
17. FMLA

#### 2. Absences (Chargeable):

Absences for the following reasons will be charged against the employee's attendance record:

1. Casual Absenteeism
2. Tardy / Leave Early

Common (MTH - GAS - CLE - ATL - MEM)

### 3. Committed Overtime

Charges for the following situations will result in chargeable time until the employee reports their absence or tardiness to the Company.

- Late call in with ~~03 time~~ **Paid Sick Leave** available.
- Late call in without ~~03 time~~ **Paid Sick Leave** available.
- Late call in for bereavement leave.
- Late call in when an employee is going to be late.
- Late call in for workers compensation injury.
- Late call in for medical leave (first day only).

Exceptional circumstances will be reviewed by Management on a case-by-case basis.

~~Paid Sick time~~ **Leave** (~~03 time~~) will automatically be paid from the absentee call in system.

### 3. Procedure:

A. The program will be administered on a continuous twelve (12) month basis beginning on the date of the employee's first chargeable occurrence. All chargeable time associated with absences, tardies, and leave earlies will be accumulated over a twelve (12) month period. On the anniversary of the day in which an absence occurred, it will be subtracted from the employee's total. For example, if an employee was absent on December 1, January 3, and May 8, he would have a total of twenty-four (24) charged absent hours on May 9. If no additional time was accumulated by December 2 of the following year, his chargeable hour total would be reduced to sixteen (16) hours to reflect the subtraction of the eight (8) hours assessed on December 1 of the previous year. It is further understood that chargeable time discipline steps will be administered each time they are crossed.

B. The Corrective Disciplinary Steps are as follows:

- 20 Hours - Written Warning
- 30 Hours - Final Warning
- 40 Hours - Termination

It is understood that all steps (written warning and final warning) must be issued before an employee can be terminated. A final written warning must be documented prior to termination for employees in excess of forty (40) hours chargeable time.

C. Tardiness or Leave Early:

Tardiness and leave early occurrences will be charged against the employee's attendance record. In addition, tardy and leave early occurrences will result in corrective discipline based on the following:

A Guidance and Counseling will be issued when an employee has two (2) or more occurrences in a thirty (30) day calendar period.

Two (2) additional occurrences in a thirty (30) day calendar period (within a twelve (12) month revolving period) will result in a written warning.

Two (2) additional occurrences in a thirty (30) day calendar period (within a twelve (12) month revolving period) will result in a final warning (in lieu of suspension).

Two (2) additional occurrences in a thirty (30) day calendar period (within a twelve (12) month revolving period) may result in termination.

4. Chronic Attendance Program:

The purpose of the Chronic Attendance Program is to identify and review an employee whose attendance records identify habitual patterns of abuse.

A. Guidelines:

1. An employee with twenty-four (24) hours or more of chargeable time under the current Attendance Control Program and an average of twenty-four (24) hours of chargeable time annually would be considered Chronic and therefore subject to placement in the Chronic Attendance Program and Final Written Warning.
2. Average annual chargeable time will be calculated by taking the total hours of charge time the employee has accrued in the last three (3) years (1095 days) of active employment divided by three (3). For example: An employee with seventy-eight (78) total hours of chargeable time in the previous 1095 days would have an average of twenty-six (26) hours of charge time annually over that period.
3. Employees with less than three (3) years of active service with the Company will have their average annual chargeable time calculated and annualized based on their total active time of employment based on the following formula:

$(\text{Total chargeable hours} / \text{Total active service time}) \times 365 = \text{Average annualized charge time}$

For example: An employee with sixty (60) total hours of chargeable time with only 790 days of active employment would have:

$$(60 / 790) \times 365 = 27.72 \text{ hours of average annualized charge time}$$

4. An employee with twenty-four (24) hours or more of chargeable time under the current Attendance Control Program and at least fifty percent (50%) of the chargeable time in the past three (3) years of active employment (or total active time of employment is less than three (3) years) occurring on Mondays and Fridays would be considered Chronic and therefore subject to placement in the Chronic Attendance Program and Final Written Warning.
5. An employee with twenty-four (24) or more hours of chargeable time and has been in the Chronic Attendance Program during the last three (3) years of active employment would be considered Chronic and therefore subject to placement in the Chronic Attendance Program and Final Written Warning.
6. An employee with six (6) or more tardy/leave early occurrences in a rolling twelve (12) month period of active employment and average six (6) or more tardy/leave early occurrences in the last three (3) years of active employment would be considered Chronic and therefore subject to placement in the Chronic Attendance Program and Final Written Warning.
7. Employee with less than three (3) years of active employment that reach or exceed an average of six (6) tardy/leave early occurrences and average six (6) tardy/leave early occurrences annually based on the following formula:

6/12

(Total number of tardy/leave early events / Total active service days) x 365 = Average annualized tardy/leave early events.)

For example: An employee with fifteen (15) tardy/leave early occurrences with 820 days of active employment would have:

$$(15 / 820) \times 365 = 6.67 \text{ average annualized tardy/leave early events}$$

**B. Program:**

Once an employee has been placed in the Chronic Attendance Program they will remain in the program for a period of six (6) months of active employment. While in the program, the employee will be subject to the following:

1. Any FMLA leave will be taken concurrently with any paid leave the employee is entitled to.
2. Will not be eligible for job bids.
3. Will not be eligible to accrue sick time.
4. Will not be eligible to use any previously accrued sick time without a doctor's excuse that includes a diagnostic code.
5. Will not be eligible for PTO without a doctor's excuse that includes a diagnostic code.
6. Will not be allowed a personal leave of absence.
7. Will not be eligible for the Attendance Bonus if the employee is in the Chronic Attendance Program.

If an employee was in the Chronic Attendance Program at any time during the quarter in which Attendance Bonus is calculated, the employee is not eligible for payment. For example, an employee in the Chronic Attendance Program from March 30<sup>th</sup> – September 30<sup>th</sup> would not be eligible for Attendance Bonus payment in Q1, Q2 or Q3. Alternatively, an employee that meets the criteria for Attendance Bonus payout for Q1 but is placed in the Chronic Attendance Program in early April (prior to actually receiving Q1 payout check) would be eligible to receive payment.

8. On any approved leave or approved absence during the six (6) month period, the excused time will be added back to the employees six (6) month period they must serve to complete the program.

**C. Final Written Warning – Chronic Program:**

There are two (2) types of Final Written Warnings that employees may receive based on attendance issues associated with total charged time or tardy/leave early occurrences as noted in Guidelines section above:

1. Chargeable Time: The Final Written Warning will specify that the employee cannot accumulate more than eight (8) hours charge time. An employee at or above 8.01 hours charge time will be subject to termination.
2. Tardy/Leave Early Occurrences: The Final Written Warning will specify that the employee accumulating more than two (2) tardy or leave early occurrences will be subject to termination.

The period of the Final Written Warning will be six (6) months. Employee and Company representative must sign the Final Written Warning. The Union Representative will sign the Final Written Warning acknowledging receipt. Employees who refuse to sign the Chronic Attendance

Program Final Written Warning will be subject to termination.

D. Special Accommodations:

The Plant Manager or Human Resources Manager may grant or deny a special accommodation request. The Union can appeal the decision of the Company following Article 6 of the Grievance and Arbitration Procedure.

E. End of Program:

At the end of the program, the employee will have all contractual rights reinstated.

F. Effective Date:

The Chronic Attendance Program is effective January 1, 2015. Employees that reach or exceed twenty four (24) or more hours of chargeable time that accrue any charge time after this date will be subject to review and potential entry into the program based on Guidelines. In addition, any employee that reaches or exceeds six (6) or more tardy/leave early occurrences in a rolling twelve (12) month period and has a tardy/leave early occurrence after this date will be subject to review and potential entry into the program based on Guidelines.

### **LETTER OF UNDERSTANDING EQUAL APPLICATION AGREEMENT**

For several years, the Company and the Union have been leaders in adopting and effectuating policies against discrimination because of race, color, religion, age, sex, national origin, status as a qualified person with a disability, sexual orientation, marital status, union activity or membership in any legally protected class and to this end the parties have expressly incorporated in their Agreement an "Equal Application" provision that both ensures adherence to that principle in all aspects of employment at Daimler Trucks North America LLC and provides the contractual grievance and arbitration procedure for the resolution of alleged violations of that principle.

The parties now recognize the desirability of increased communication and a cooperative effort in this area on this subject (1) to encourage employees and grievance Representatives to use the grievance and arbitration procedure as a the exclusive contractual method for the prompt resolution of all claims of denial of equal application rights or claims of sexual harassment or discrimination (2) to determine the cause of such claims in order to reduce the probability of these claims arising and recurring, and (3) to maintain liaison with appropriate federal, and state civil rights agencies for the following purposes: (a) to increase understanding, (b) to promote and encourage the use of the contractual grievance and arbitration procedure in order to avoid multiplicity of litigation in many forums simultaneously which is frequently time- consuming, contradictory and hence nonproductive to relieving employee problems, (c) to seek solutions to mutual problems, (d) to relieve tensions in this area, and (e) to exchange information, expertise and advise.

Accordingly, the parties now establish an Equal Application Committee and its functions shall be the following:

- A.) Suggest guidelines for Union and Company representatives active in the grievance procedure in the proper and prompt handling of grievances alleging such claims.
- B.) Conduct or arrange for investigations and/or studies into the cause of equal employment opportunity and discrimination problems and tensions in an attempt to prevent such problems from arising or recurring.

The parties continue to recognize their legal and moral responsibility for assuring that all Daimler Trucks North America LLC employees have equal employment opportunities and freedom from discrimination. Consequently, the function of the Equal Application Committee shall be advisory, consultative and cooperative. While the Company and the Union will welcome the recommendations the Committee may make, the Committee may not commit either party to a specific course of action. However, the Union agrees that it will encourage its members to utilize the grievance and arbitration procedure with respect to any claim or complaint against the Company, which may be made a subject of the grievance procedure under the contract.

### LETTER OF UNDERSTANDING NAFTA PENSION PROJECT

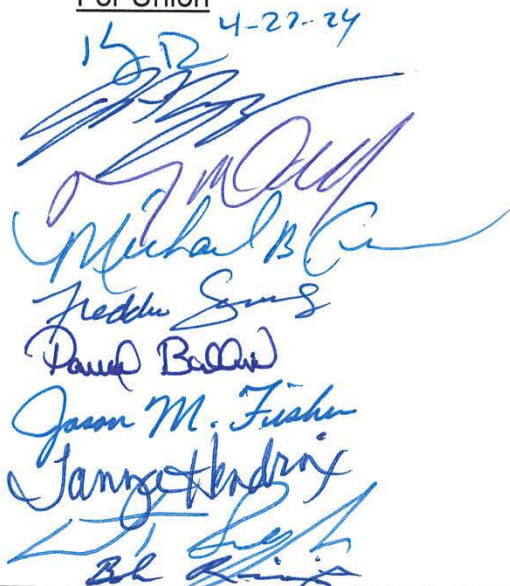

During these negotiations, the Company and the Union have discussed the impact the NAFTA Pension Project may have on employees covered under this Agreement. It is understood that the Company maintains its right and obligation to administer pension and retirement programs, subject to the requirements of Collective Bargaining Agreements. Administrative changes resulting from initiatives implemented as a result of the NAFTA Pension Project will not alter this arrangement.

The goal of the NAFTA Pension Project, as announced by the Company, is to leverage and standardize current asset management/service providers, investment consultants, record keepers, paying agents and the like currently utilized by subsidiaries of Daimler AG operating in the

NAFTA region. The Company advises that the streamlining of multiple providers and leveraging of multiple current vendors will result in lower administrative and management fees and costs.

While project work is underway for this initiative, there have been no changes made at this time that impact employees covered under this Agreement. However, during the course of this Agreement, the selection of new vendors, managers, investment options, etc. is likely to occur. As such, Daimler Trucks North America LLC is committed to providing advance notice to the Union of potential changes that may impact our current service provider or third party administrator arrangements. The Company will continue to honor all negotiated contractual commitments relative to health and retirement plan benefits, and no such changes shall adversely affect UAW represented employees, retirees, or their spouses and beneficiaries.

### LETTER OF UNDERSTANDING NATIONAL HEALTH CARE

As a result of the Patient Protection and Affordable Care Act and its companion legislation, Health Care Reform has been, and will continue to be, enacted to fundamentally change the delivery, coverage, access and the relationship of patients, providers and plan sponsors in the delivery of healthcare.

New considerations such as mandated benefits, state exchanges, penalties, and the potential for tax credits and coverage options may result in potential benefit changes, additional costs, or shared savings over the life of this Agreement. This new health care delivery model may require the Company and Union to investigate and implement changes in order to meet the requirements of Health Care Reform regulations.

It is agreed, with mutual consent of the Joint Benefits Committee, if Health Care Reform options become available, the medical plans contained in this Agreement may be modified to address the opportunities as they arise.

### LETTER OF UNDERSTANDING ON-SITE MEDICAL CLINICS

The rate of escalating healthcare costs presents a significant challenge to both the Company and the UAW. One of the cost mitigation strategies being investigated is the implementation of on-site medical clinics at one or more Company locations. The feasibility, and potential scope, of implementation is currently being reviewed. The intent would be that operation of the clinics would be contracted to a third party supplier specializing in this area. Initially, we would select one pilot location, and depending on the success, consider expanding to other locations as the business case warrants.

Initially, implementation would have no impact on contracted benefits. However, depending on the success of this initiative over time, opportunities could arise which would warrant discussions between the Company and the UAW regarding integration with the contract and benefit plans. Conversely, if not successful, continuation of on-site clinics could be discontinued at any time at the sole discretion of the Company. Although no formal decision has been made, this Letter of Understanding is intended to keep the Union apprised of the Company's plans in this area.

## **TENTATIVE AGREEMENT**

### **LETTER OF UNDERSTANDING REINSTATEMENT OF GRIEVANCES**

During the 2018 2024 negotiations, the parties agreed to the following:

The parties acknowledged the desirability of ensuring prompt, fair, and final resolution of employee's problems. The parties also recognized the maintenance of a stable, effective, and dependable grievance procedure is necessary to implement the foregoing principle to which both subscribe. Accordingly, the parties view any attempt to reinstate a grievance properly disposed of as contrary to the purpose for which the Grievance Procedure was established and violative of the fundamental principles of collective bargaining. However, in those instances where the International Union, UAW, by either its Executive Board, Public Review Board, or Constitutional Convention Appeals Committee has reviewed the disposition was improperly affected by the Union or a Union Representative involved, the International Union may inform the Company's Human Resource Manager in writing that such grievance is reinstated in the Grievance Procedure at the step at which the original disposition of the grievance occurred.

It is agreed, however, that the Company will not be liable for any claims for damages, including back pay claims, arising out of the grievance that either (1) are already barred under the provisions of the Agreement at the time of the reinstatement of the grievance, (2) that relate to the period between the time of the original grievance and the time of the reinstatement as provided herein. It is further agreed that the reinstatement of any such grievance shall be conditioned upon the prior Agreement of the Union and the employee or employees involved that none of them will thereafter pursue such claims for damages against the Company in the grievance procedure, or in any court or before any Federal, State, or Municipal Agency. Notwithstanding the foregoing, a decision of the Arbitrator on any grievance shall continue to be final and binding on the Union and its members, the employee or employees involved and the Company and such grievances shall not be subject to reinstatement.

This letter is not to be construed as modifying in any way either the rights or obligations of the parties under the terms of the Agreement, except as specifically limited herein, and does not affect sections thereof that cancel financial liability or limit the payment of retroactivity of any claim, including claims for back wages, or that provide for the final and binding nature of any decisions by the Arbitrator or other grievances.

It is understood that this provision and the parties' obligations to reinstate grievances as provided herein can be terminated by either party upon thirty (30) days' notice in writing to the other.

It is agreed that none of the above conditions will be applicable to any grievance filed or settled prior to the effective date of the 2018 2024 contract.

##### **Waiting Period**

The Waiting Period before Plan benefits may begin is seven (7) consecutive calendar days of medically certified absence from work, commencing with the first day of disability. Any paid time you have accrued at the time of the disability may be utilized during the waiting period. If an employee works less than eight (8) hours and qualifies for Short Term Disability, this partial workday will be considered as the first day of the seven (7) day waiting period.

There should be no interruption of the waiting period because of paid days from independently established benefits such as paid holidays. In other words, holidays should be counted toward the satisfaction of the seven (7) consecutive calendar day waiting period.

Independent benefits such as paid sick leave, PTO, holidays, vacations, jury duty pay, or any other paid days for the time not worked will not interrupt or extend the seven (7) day waiting period. Moreover, where "paid days" occur during a seven (7) day waiting period, there will be no pyramiding of independent benefits (for example, vacation pay plus paid sick leave or holiday pay plus paid sick leave).

Employees who are off on worker's compensation will have the option to supplement worker's compensation benefits with annual short-term disability paid days, if available.

##### **Eligibility Ends**

The coverage of any Covered Employee shall terminate on the occurrence of the earliest of the following events:

- You are no longer disabled
- The end of the 182 days
- When a formal layoff notice is issued, individuals who are on Short Term Disability will remain on disability in accordance with the guidelines in effect at the onset of such disability. Short Term Disability claims initiated after such notice will transition to lay off status consistent with their seniority date unless such claim was scheduled in advance of such notice or is the result of accident or onset of a critical illness.
- Termination of active employment by the Company;
- The Retirement Date, which means the date of a Covered Employee's retirement under the

Daimler Trucks North America LLC UAW Pension Plan.

**Definition of Disabled**

A Covered Employee will be considered disabled for purposes of STD benefits only if the Covered Employee is all of the following:

- Continuously disabled by sickness, injury, or pregnancy;
- Under the regular treatment of a legally licensed physician, which means a medical doctor (MD), physician's assistant (PA), chiropractor (DC), or osteopathic physician (DO) nurse practitioner (NP)
- For purposes of the plan a Healthcare Provider is defined as a person who; (i) is legally licensed to practice medicine; (ii) is not related to the employee by blood or marriage; and (iii) is providing care and treatment within the scope of his/her license. For the purpose of disability related to normal pregnancy or childbirth, a midwife, a nurse-midwife duly and acting within the scope of his/her practice is a qualified practitioner;
- For purposes of the Plan, Appropriate Care and Treatment is defined as treatment consistent in type, frequency and duration with relevant guidelines of national medical, research and healthcare coverage organizations and governmental organizations and agencies.
- There is Objective Medical Evidence to substantiate your disability.
- For purposes of the plan, Objective Medical Evidence has been met if the claimant has submitted a medical demonstration of anatomical, physiological, or psychological abnormalities manifested by signs or laboratory findings, apart from the claimant's perception of his or her mental or physical impairments. These signs are observed through medically acceptable clinical techniques such as medical history and physical examination. Laboratory findings are manifestations of anatomical, physiological, or psychological phenomena demonstrated by chemical, electrophysiological, roentgenological, or psychological tests.
- After ninety (90) days, employees being treated for a condition by a healthcare provider whose area of training or certification is not specific to the condition being treated may be required by the Claims Administrator to see a specialist for continued certification; and
- Unable to perform the duties of his or her occupation with the Company.

It is not necessary to be confined at home or in the hospital to receive benefits under the Plan. However, to continue receiving benefits you must furnish proof of your disability whenever requested by the Plan Administrator or the Claims Administrator.

You will be deemed to be under the regular treatment of a legally licensed physician if you are under treatment for alcohol or drug abuse in an inpatient residential, day treatment, or outpatient substance abuse facility approved for benefits under the Company's health plan and you furnish the Company with certification of disability provided either by the facility's physician director or by a physician consultant selected by the facility, based on information furnished by and upon the recommendation of, the therapist who is supervising your therapy. For such certification to be acceptable, the physician or physician consultant providing it must be a licensed MD or DO.

You will be deemed to be disabled for purposes of receiving STD benefits if you become confined as a registered bed patient in a legally constituted hospital for undergoing testing to determine your suitability to be a donor for an organ or tissue transplant and are otherwise eligible for such benefits.

#### **STD Benefit Formula**

A Covered Employee who becomes disabled will receive weekly STD benefit payments equal to seventy (70%) percent of wages, subject to the Benefit Offsets described in Part III below.

#### **Maximum Period Payable**

The period for which a Disabled Covered Employee may receive STD benefits under the Plan cannot exceed a Maximum Period Payable, as defined below. No benefit shall be paid for the period prior to the expiration of the waiting period or for the period after completion of the Maximum Period Payable.

The Maximum Period Payable an employee is eligible to receive STD benefits is 182 calendar days from the date of Disability.

#### **Benefits for More than One Absence/Relapse**

If you return to work after receiving STD benefits for less than 182 days, and you are then absent again within ninety (90) days after your return for the same or a related reason, the seven (7) day waiting period will not apply and you may begin receiving STD benefits beginning with the day of your absence for the remainder of the 182 days.

If a second absence results from an unrelated sickness or injury once you return to work, a new STD claim will be established with a new seven (7) day waiting period.

If there are ninety (90) day or more between two (2) periods of disability and you return to work for at least seven (7) days in that ninety (90) day period, the second period of disability will be deemed to be from a different disability unrelated to the cause of the first period of disability. In that case, a new seven (7) day waiting period will apply before you begin to receive STD benefits.

If while receiving STD benefits, you suffer from an additional disability distinct from the disability for which you originally qualified for STD benefits, the total period of STD benefits will in no case exceed 182 days from the onset of your original disability. At that time, you may transition to LTD benefits, even though your original disability may have resolved and the unrelated disability causes your transition to LTD benefits. You will not be required to apply for Social Security Disability Insurance benefits until the condition putting you onto LTD benefits has lasted at least six (6) months.

#### **Applying for STD Benefits**

Notice of sickness or injury must be given to the Claims Administrator within ~~ten (10)~~ **fifteen (15)** days of the date of the commencement of disability. You have twenty (20) calendar days to provide proof of disability once claim is submitted.

#### Part II: LTD Benefits

##### Eligibility

Your eligibility for coverage begins on your completion of one (1) year of active employment. Employees must be actively at work on or after attaining one (1) year of seniority.

##### Waiting Period

The Waiting Period before LTD benefits may begin is 182 calendar days of medically certified absence from work, commencing with the approved STD start date.

##### Eligibility Ends

The coverage of any Covered Employee shall terminate on the occurrence of the earliest of the following events:

- The employee is no longer disabled;
- Termination of the employee's active employment by the Company; or
- The covered employee's retirement date.

##### Definition of Disabled

An employee will be considered disabled for purposes of LTD benefits only if the covered employee is:

- Wholly and continuously disabled by sickness or injury;
- Under the regular care and attendance of a Legally Qualified Physician, meaning a medical doctor (MD) or osteopathic physician (DO) licensed by the recognized licensing authority of the state in which he or she practices and acting within the scope of his or her license;
- There is Objective Medical Evidence to substantiate your disability.

For purposes of the Plan, Objective Medical Evidence has been met if the claimant has submitted a medical demonstration of anatomical, physiological, or psychological abnormalities manifested by signs or laboratory findings, apart from the claimant's perception of his or her mental or physical impairments. These signs are observed through medically acceptable clinical techniques such as medical history and physical examination. Laboratory findings are manifestations of anatomical, physiological or psychological phenomena demonstrated by chemical, electrophysiological, roentgenological, or psychological tests; and

- For the first ninety one (91) days from the end of the LTD waiting period, wholly and continuously

disabled as a result of any sickness or injury so as to be prevented from performing any and every duty of the covered employee's occupation, and after the end of those ninety one (91) days, wholly and continuously disabled as a result of any sickness or injury so as to be prevented from performing any and every duty of any occupation, except as provided below for Release with Restrictions.

- Your disability is certified by a Healthcare Provider.

For purposes of the plan a Healthcare Provider is defined as a person who; (i) is legally licensed to practice medicine; (ii) is not related to the employee by blood or marriage; and (iii) is providing care and treatment within the scope of his/her license. For the purpose of disability related to normal pregnancy or childbirth, a midwife, a nurse-midwife and a nurse practitioner duly license and acting within the scope of his/her practice is a qualified practitioner.

You will be deemed to be under the regular treatment of a legally licensed physician if you are under treatment for alcohol or drug abuse in an inpatient residential, day treatment, or outpatient substance abuse facility approved for benefits under the Company's health plan and you furnish the Company with certification of disability provided either by the facility's physician director or by a physician consultant selected by the facility, based on information furnished by and upon the recommendation of, the therapist who is supervising your therapy. For such certification to be acceptable, the physician or physician consultant providing it must be a licensed MD or DO.

It is not necessary to be confined at home or in the hospital to receive benefits under the Plan. However, to continue receiving benefits you must furnish proof of your disability whenever requested by the Plan Administrator or the Claims Administrator.

#### **LTD Benefit Formula**

A Covered Employee who becomes disabled will receive monthly LTD payments equal to sixty six and two-thirds (66 2/3%) percent of wages, except as provided below for Release with Restrictions and subject to the Benefit Offsets described in Part III below.

#### **Maximum Period Payable**

The period for which a disabled covered employee may receive LTD benefits under the Plan cannot exceed a Maximum Period Payable, as defined below. No such benefit shall be paid for the period prior to the expiration of the waiting period or for the period after completion of the Maximum Period Payable.

The Maximum Period Payable for LTD is the period beginning on the first day following the last day of the waiting period and ending with a date determined on the basis of your seniority (only applies to those with a date of disability under the 2010 contract; see Appendix A for DOD's prior to January 1, 2011) and your age on your date of disability, or DOD, as provided in the table below. Date of disability means the date on which you are first unable to perform the duties of your occupation due to sickness or injury. Seniority is credited in accordance with your Bargaining Agreement. Time for time in the table means a period equal to your seniority.

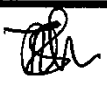

Seniority	Under 61 at DOD	61 to 67 at DOD	68 or Older at DOD
12 months to less than 10 years	Earliest of: time for time, your death, your retirement date, your 65th birthday, date the plan terminates	Earliest of: time for time, your death, your 70 <sup>th</sup> birthday, the 60th month following the month LTD started, your retirement date, date the plan terminates	Earliest of: time for time, your death, two years after your date of disability, your retirement date, date the plan terminates
10 or more years	Earliest of: your death, your retirement date, 65th birthday, date the plan terminates	Earliest of: your death, your 70th birthday, the 60th month following the month LTD started, your retirement date, date the plan terminates	Earliest of: your death, two years after your date of disability, your retirement date, date the plan terminates

**For Dates of Disability on or after January 1, 2011**

**Release with Restrictions**

If you qualify for LTD benefits and are subsequently found to be physically able to work, yet continue to be unable to work for the Company as a result of documented medical restrictions, your LTD benefit will be reduced to fifty (50%) percent of your wages. The reduction will take effect beginning with the month following the month of such finding. The reduced LTD benefit will continue for the remainder of your Maximum Benefit Duration, subject to the following:

- (a.) Effective in accordance with the effective dates listed in Appendix A, if you have less than ten (10) years but more than one (1) year of seniority, once you are found to be physically able to work as described above and beginning with the month following the month of such finding, the benefit amount payable will be reduced to fifty (50%) percent of pre-disability pay and will continue for a period equal to your seniority (or the normal LTD benefit end date above, if earlier) and beginning with the start date of your LTD benefits. Upon the conclusion of that period, you will have been deemed to have lost seniority and your employment will be terminated.
- (b.) If you have ten (10) or more years of seniority, beginning with the month following the month that you are found to be physically able to work, the benefit amount payable will be reduced to fifty (50%) percent of pay and will continue until the end of your LTD benefit period.
- (c.) If you are described in paragraphs (a) or (b) and you are awarded a Social Security Disability Insurance Benefit (or DIB) with an award effective date after the date when you were found physically able to work, your benefit amount payable will increase to sixty six and two-thirds (66 2/3%) percent beginning with the month after the DIB award date. The benefit will be offset by the DIB benefits as described in Part III. The length of benefits eligibility will remain as stated in paragraphs (a) and (b).

(d.) If you are described in paragraphs (a) or (b) and you are awarded DIB with an award effective date prior to the date when you were found physically able to work, the reduction in your benefit amount to fifty (50%) percent will be changed back to sixty six and two-thirds (66 2/3%) percent on the date of the original reduction. The benefit offsets described in Part III will apply. The length of benefits eligibility will remain as stated in paragraphs (a) and (b).

(e.) During periods of disability described in paragraphs (a), (b), (c), or (d), you will remain eligible for the employee benefits that you are entitled to under the terms and conditions of your labor contract.

(f.) If you have a concurrent disability during the waiting period, your LTD benefit will not be reduced due to a release with restrictions until 182 days have elapsed since the onset of the later of your subsequent disabilities, even though you may have begun receiving LTD benefits before the expiration of that 182 day period in accordance with the treatment of concurrent disabilities for purposes of STD benefits.

#### **Recurrent Disability**

If you cease receiving LTD benefits and, while a covered employee, suffer a recurrence of being disabled from the same or related cause or causes, the subsequent period of disability will be deemed a continuation of the prior period, unless six (6) months or more have elapsed between such periods, in which event the subsequent disability will be deemed to be a new disability subject to then-applicable benefits and a new waiting period.

In other words, if you return to work for the Company after qualifying for LTD benefits and the same or a related disability recurs within the next six (6) months, your benefits under the Plan may resume as of the first day of your reoccurring disability if you are disabled. You do not have to satisfy another waiting period.

Successive periods of disability due to unrelated causes are considered to be separate periods of disability. There is a waiting period for each disability due to unrelated causes.

#### **Applying for LTD Benefits**

Thirty (30) days prior to the end of the waiting period you will receive an LTD benefits application from the Claims Administrator. When you apply, you must submit written proof of your medical condition to the Claims Administrator. You and your Legally Qualified Physician will need to fully complete the application that will be sent to you by providing specific information about your medical condition, treatment and prognosis.

You will be asked to provide written proof to the Claims Administrator that you continue to be disabled.

As discussed below, you must also file an application for Social Security Disability Income benefits. You should apply for Social Security as soon as possible to allow sufficient time for your claim to be reviewed and processed. If you have any questions about applying for Social Security, contact your local SSA Office.

#### **Part III: Provisions Applicable to Both STD and LTD Benefits Benefit Approval Ends**

Subject to the Maximum Period Payable, your benefits under the Plan end on the earlier of the following:

- You cease to be Disabled;

- You refuse to undergo an impartial medical examination within thirty (30) days following written notice by the Claims Administrator;
- You refuse to furnish information on your treatment and care within thirty (30) days following written notice by the Claims Administrator; or
- The date you are either no longer under the regular and continuous care and treatment of a qualifying medical professional, as required by the Plan, or you refuse to follow the treatment plan recommended by a qualifying medical professional.

**Examination Requirement**

The Plan reserves the right to require you to undergo an independent examination or evaluation by a physician or vocational rehabilitation specialist chosen by the Plan as the Claims Administrator or Plan Administrator decides is necessary, both at the time a request for payment is made under the Plan and during the continuation of disability.

If the independent examiner finds that you are no longer disabled and that finding contradicts the finding of your treating physician, the matter may be referred to an Impartial Medical Examiner. Impartial medical examinations, scheduled by the Claims Administrator or Plan Administrator will not require selection of the physician by the Company and the UAW but rather will utilize an independent network for selecting the provider based on appropriate specialty and location subject to the following:

The opinion of such an examiner with respect to the existence of total disability as defined by the definitions contained herein, shall be final and binding upon the Company, the Union, the Carrier, and the employee.

Additionally, the Union and the Company agree to meet and review any claims by either party regarding findings favorable/unfavorable by a provider that appears to be biased in either direction.

The Carrier will encourage medical examiners to discuss their findings concerning a claimant's disability with the attending physician if there is a question as to the employee's ability to return to work.

A Certificate of Mailing will be obtained from the United States Postal Service whenever a notice is mailed to an employee advising such employee to report for a medical examination in accordance with the Plan. Additionally, Union Benefit Representatives will be notified of such mailings.

If you fail to undergo such an examination within thirty (30) days of the Claims Administrator's or Plan Administrator's request, the Claims Administrator or Plan Administrator shall have discretion to terminate benefits.

**Benefit Offsets**

Your STD benefits will be offset by benefits you may receive from other sources, such as:

- Any benefits from the Federal Insurance Contributions Act (Primary benefits and Dependents Social Security Disability Benefits), such as Social Security Disability Income (SSDI) benefits you or your dependents may be entitled to, including SSDI awards to your family members by virtue of your disabled status. Social Security DIB awards will not be reduced for children eighteen (18) years or older who qualify for Supplemental Social Security Income (SSI) benefits as long as they meet SSI benefits eligibility; and

*TLR*

- Benefits payable under any workers' compensation (including payment for rehabilitation and retraining institutes) or similar law.

Your LTD benefits will be offset by benefits you may receive from other sources, such as:

- Any wages, pension, or other compensation you may receive from the Company or a subsidiary or an Affiliate of the Company;
- Income from any employer or self-employment;
- Any benefits from a governmental plan paying disability benefits;
- Disability benefits received from a group life or accident insurance policy;
- Any benefits from the Occupational Disease Act or Law;
- Effective April 1, 2011, military disability pay to the extent it is payable for the same or related illness or condition that gives rise to LTD benefits under the Plan; and

In order to receive the full amount of your benefits under the Plan, you must apply for these other benefits and diligently pursue your claims. Benefits will not be offset for amounts paid under a private or individual long-term disability policy, other than a no-fault automobile insurance policy.

#### **Changes to the Benefit Offset Amounts**

Any amendments or changes in the disability insurance benefits under the Federal Insurance Contributions Act (Social Security) that result in an increase in amounts paid or payable to a Covered Employee and his or her dependents under such laws, and that become effective during any period in which benefits under the Plan are payable to a Covered Employee, will further reduce benefits under the Plan only to the extent that the total of all monthly disability benefits under the Plan and specified Social Security payable to the Covered Employee exceed one hundred (100%) percent of the Covered Employee's monthly wages in effect on the date of the disability for which such benefits become payable.

#### **Social Security Disability Benefits**

A covered employee who becomes disabled and is eligible to receive and receives STD and LTD benefits under the Plan is required to file a claim for federal disability benefits (under the Social Security Act) if the disability is expected to extend beyond the applicable waiting period under that Act (unless the employee's physician completes a statement indicating they will return to work in twelve (12) months). You will be notified by the thirty first (31<sup>st</sup>) week after you become disabled of the eligibility requirements for Social Security Disability Insurance Benefits (DIB). The Disability Plan Administrator (currently Sedgwick) makes the services of a third party vendor (Allsup) available to assist an employee, on approved disability, in applying for SSDI benefits. Employees are required to use this vendor and agree to use its electronic overpayment recovery program. Their LTD benefits will not be offset by estimated SSDI until they receive notification of approval from the Social Security Administration. The Disability Plan Administrator will refer the claim to the third party vendor (Allsup) by the thirty first (31<sup>st</sup>) week. The employee must complete and return the required authorization paperwork with the third party vendor (Allsup) by the thirty ninth (39<sup>th</sup>) week to avoid the presumed offset. This requirement will apply to employees that transition to LTD on or after the ratification date. The employee continues to be required to sign and return the reimbursement agreement by the thirty third (33<sup>rd</sup>) week to avoid the presumed offset.

*TS*

You will not be responsible for the cost of such representation (Allsup), but failure to comply with reasonable requests from the organization in a timely manner in conjunction with its representation of you will result in your LTD benefits being offset by the amount of your presumed DIB.

If you are awarded DIB with a retroactive award date, you must repay any overpayment of LTD benefits that result from the retroactive award. The amount of the overpayment will be calculated based on the actual amount of the DIB award.

Any cost-of-living increases in your Social Security benefits will not reduce your benefits under the Plan until the total of all monthly Social Security benefits and STD and LTD benefits are more than one hundred (100%) percent of your pay in effect on the date you became disabled.

It is important to note that approval of a claim by the SSA does not in and of itself qualify you for benefits under the Plan. Approval of benefits under the Plan is at the Plan Administrator's sole discretion subject to all Plan provisions in effect.

**Appendix A**

The following tables set out the Maximum Period Payable for claims approved for full disability prior to January 1, 2011, by location:

During periods of disability as outlined in Appendix A employees will remain eligible for the employee benefits for which they are entitled to under the terms and conditions of the Labor Contract.

The following process will be used when an employee returns to work and owes DTNA due to an overpayment on the Disability Plan. Payroll will establish the offset amount to ongoing weekly payroll based on a forty (40) hour work week after all required taxes and deductions and twenty five (25%) percent of this net pay amount would be the established weekly offset. Any deductions from active payroll or disability payments will not exceed twenty five (25%) of net pay unless mutually agreed to. The deduction would begin on the first check processed once the overpayment information is received from Sedgwick. Deductions will continue on a weekly basis until overpayment is fully recovered. If the employee prefers a larger amount collected from ongoing paychecks that can be arranged with Payroll.

Plan documents will be amended upon ratification to reflect these changes. Should unanticipated issues arise during the implementation of this Letter; the parties agree a good faith effort will be made towards a mutually satisfactory resolution.

**Section 5.** See Common Language

**Section 6.** Notwithstanding their natural seniority, all active Shop Committeeperson(s) under Article 3, Sections 1 and 2, who are involved in contract administration activities, shall be deemed to have the top seniority for purposes of layoff and recall. During periods of layoff and recall, the President of the Local Union, Shop Chairperson, Health and Safety Representative, and Benefits Representative, in accordance with Article 3 Representation shall be deemed to have the top seniority in the Plant.

**Section 7.**

**Step 1.** For the purpose of establishing seniority, employees with the same hire date will be rank ordered (top to bottom) alphabetically based on the first letter of their last names. Among a group of employees with the same hire date, those with the first letter of their last names coming closest to the beginning of the alphabet will be considered to have more seniority than those with the first letter of their last names coming farther down the alphabet.

**Example:**

<u>Name</u>	<u>Hire Date</u>
Eric Dolata	10/25/89
Georgetta Paulin	10/25/89*
Jimi Proctor	10/25/89
Gary Speth	10/25/89

Among these employees, Eric Dolata is the most senior followed by Georgetta Paulin, Jimi Proctor, and Gary Speth in rank seniority order.

**Step 2.** Employees who have the same hire date and the same first letter of their last names will be rank ordered (top to bottom), for purposes of seniority, according to the subsequent letters in their last names.

**Example:**

**ARTICLE 5 SENIORITY**

Donna Collins	10/25/89
Ray Curry	10/25/89

Among these employees, Loretta Carr is the most senior followed by Thomas Carver, Donna Collins, and Ray Curry.

If two (2) or more employees have the same last name, first names and then middle initials will be considered in the same manner.

**Step 3.** Employees who have the same hire date and same name (Last, First, and Middle Initial) will be rank ordered (top to bottom) for purpose of seniority, according to the Representative value of their Social Security number in the following manner:

Add the last four (4) digits of the employee's Social Security number together, and the employee with the highest total will have the most seniority. If the sum total of the last four (4) digits is equal, the middle two (2) numbers will be added together and, if necessary, the first three (3) digits.

**Example:**

<u>Soc. Sec. #</u>	<u>Name</u>	<u>Hire Date</u>
*243-78-8190	Michael D. Fulbright	10/25/89
245-80-2631	Michael D. Fulbright	10/25/89
268-58-2206	Michael D. Fulbright	10/25/89
247-61-2710	Michael D. Fulbright	10/25/89

In the above example, the employees are ranked in seniority order by the value of their Social Security number.

**Step 4.** In all instances, whether they be layoffs, recalls, promotions, transfers, or otherwise, where it has been designated that an employee's status is to be determined specifically by seniority, the above procedures will apply.

**Step 5.** In the application of this procedure, the employee's name, as of their hire date, will be used thereafter for the purpose of determining their seniority ranking.

Section 9. The "specialized required skills" classifications of Production Electrician Technician (to include the Team Leader of the Production Electrician Technicians) entering the group will have date of entry seniority. The employees already in the work group at the time of ratification will maintain their original plant seniority. System Technicians will have date of entry seniority in the classification. **ARTICLE 7 HOURS OF WORK**

**Section 1.** Employees will be scheduled to work forty (40) hours per week consisting of five (5) consecutive eight (8) hour days.

The normal workweek will be Monday through Friday.

A. The normal shift hours during times at which the plant is operated at two (2) shifts instead of (3) three will be:

First Shift (days)	6:30 a.m. to 3:00 p.m.
Second Shift (afternoons)	4:00 p.m. to 12:30 a.m.

Each shift will have one (1) paid break of twenty (20) minutes and an unpaid thirty (30) minute lunch period. However, when employees work six (6) hours or less they will be provided a twenty (20) minute paid break.

For all employees on continuous twenty-four (24) hour operations, the normal hours of daily shifts shall be:

First Shift (days)	6:30 a.m. to 2:30 p.m.
Second Shift (afternoons)	2:30 p.m. to 10:30 p.m.
Third Shift (midnight)	10:30 p.m. to 6:30 a.m.

Employees will be provided one (1) paid break of five (5) minutes and a paid lunch of thirty (30) minutes.

B. The normal workweek or shift starting times may be changed by mutual agreement of the parties. It is agreed that neither party will unreasonably withhold their mutual agreement.

C. It is understood that this Agreement does not guarantee to any employee any number of hours of work per day or per week or days of work per week. However, if there is a normal work stoppage within one (1) hour of the end of the shift for reasons not covered in Section 3 of this Article, employees will be given the option of Leave without Pay or completing their shift in other capacities.

**Section 2.** Employees who are scheduled more than nine (9) hours will be given a ten (10) minute rest period at the beginning of the overtime period.

**Section 3.** Any employee reporting for work (including signing in at the plant gate) shall be given a minimum of four (4) hours continuous work or four (4) hours pay. Employees shall be deemed to have been ordered to work unless notified not to report at or before the close of the previous shift worked, provided, however, in the event of a plant or department shutdown due to an occasion of national or

local significance which calls for a temporary shutdown, or due to an emergency beyond the Company's control, the Company shall not be liable for wages to any employee for time lost. "Emergency" shall be defined as a situation resulting from causes such as fire, explosion, power failure, major equipment and computer failures, parts shortages that prevent operations, and acts of God.

**Section 4.** An employee called back to work after completing his regular work shift and after leaving the Company's premises shall be given not less than four (4) hours work or four (4) hours pay based on the overtime rate of pay that would have been in effect had the employee been continuously on the payroll since the completion of his regular shift. If an employee is called to report to work for a maximum of two (2) hours prior to the start of his normal shift, he will not be eligible for call-back pay.

**Section 5.** The break periods defined under Section 1 are subject to adjustment based upon the needs of the operation. However in all cases, unless mutually agreed otherwise, a break period will be recognized during the first half or last half of the shift and employees will not be required to work during the break period.

**Section 6.** The parties agree to consider alternative work schedules during the term of this contract in order to best achieve fluctuating production requirements inherent in the cyclical commercial vehicle market. Various potential shift configurations will be reviewed, such as a 2 x 4 x 10 model. Additional proposals from the Union will likewise be discussed. If necessary, the objective will be to significantly increase production and manpower without incurring expensive facilities expansions to accommodate unsustainable rates. No mandated daily overtime will be scheduled during an alternative work schedule that consists of ten (10) hour days. Furthermore, any additional shifts of mandated overtime during alternative work schedules will not exceed eight (8) hours in duration.

In the event, alternative work schedules are not implemented, the Company may, by mutual agreement schedule up to four (4) additional Saturdays per contract year beyond the maximum specified in Article 8, if necessary, in response to extreme market demands. Mutual agreement will not be unreasonably denied.

The equivalent amount of unpaid lost time that is worked on Saturday will be paid at the normal rate before time and one-half applies. 4 JAW AK  
Section 56: Starting times for voluntary overtime on Saturday, Sunday and Holiday will be 5:30 a.m. Out of group overtime volunteers working in a mandated area will have the same shift start time as the mandated area. Off-shift start times for voluntary overtime will be mutually agreed by both parties prior to scheduling. Mandated overtime on Saturdays will start at the regular start time.

5 JAW AK  
Section 67: Overtime Provisions

Overtime work will be voluntary, with limited exceptions as indicated and will be offered among employees in the "overtime groups". Selection of employees to work overtime will be as follows:

Voluntary Overtime Provisions:

A. Daily

1. Casual daily overtime will first be offered to the employee who is performing the work on that day and shift provided he/she has signed up via the daily voluntary overtime sheet system and marked the man on the job (MOJ) block. Employees who are used to train other employees during daily overtime will be selected from the daily voluntary overtime sign-up sheet system for the appropriate overtime group. If during the shift, the employee performing the job is re-assigned to another position, they will be the first to be offered the overtime opportunity. Garage/rework will be offered to volunteers by seniority (within the appropriate department) able to perform the work and have signed up via the voluntary overtime sign-up sheet system for the garage/rework area. Specifically, Final Chassis, Pre-Paint Chassis and Final Cab.

Daily man on the job overtime for Turn and Sell work group employees will be offered by seniority to those who have signed up on the Turn and Sell daily overtime sheet system. Daily man on the job overtime for outside CRC employees will be offered by seniority to those employees who have signed up on the CRC daily overtime sheet system.

2. A voluntary overtime sign-up sheet system will become available, consisting of before and after shift sections will be posted by individual overtime groups on Friday for the upcoming week for all employee(s) who want to volunteer for daily overtime. This list sheet system will be used for other employees within the overtime group in the event that the employee who is performing the work on the day the overtime is offered declines the overtime. To be eligible, an employee must sign the overtime sign-up sheet system three (3) hours prior to the end of their shift. Overtime will be granted on a daily basis by seniority to appropriate employee(s) on the list who volunteer. Once the employee's name is highlighted the employee is approved for the overtime, they are considered scheduled

JAW  
AK

and will be required **obligated** to work. Any employee scheduled to work will be highlighted **approved** no later than two (2) hours prior to the end of the regular scheduled shift or he/she will not be obligated to work.

There will be a ~~second column~~ **an option for** (out of group) ~~on the sign-up sheet~~ for employees **to sign up** from outside the overtime group to indicate the desire to work within a specific overtime group so overtime requirements can be filled by the volunteer(s) before any mandatory overtime assignments are made within the overtime group. Consideration will be given to those volunteering from the department by seniority able to perform the work before going Plant Wide. If sufficient employees cannot be obtained using the above procedure, volunteers will be solicited from any overtime group, whenever practicable by seniority among employees able to do the work.

If sufficient volunteers are not acquired by the above procedure, the overtime may be made mandatory of the necessary employees within the overtime group, by seniority, beginning with the least senior employee able to do the work.

3. When the Company deems it necessary to work overtime prior to the start of the shift, it will be offered to volunteers who signed ~~the daily overtime sign-up sheet~~ **up**. If an insufficient number of employees sign-up to work, and the Company elects to call employees in early, they will first call the senior employee(s) able to perform the work from the subsequent shift and request volunteers. Employees, who choose not to be called, must sign the No-call list.

#### B. Saturday, Sunday and Holiday

1. A voluntary overtime sign-up sheet ~~will be posted~~ **process will become available for** in all overtime groups on Friday for employee(s) who want to volunteer for Saturday, Sunday and/or Holiday overtime for the following Saturday, Sunday and/or Holiday (with dates listed). An employee desiring to be considered for Saturday, Sunday and/or Holiday overtime must sign **apply for** the overtime sign-up sheet two (2) hours prior to the end of their regular scheduled shift on Wednesday. Any employee scheduled to work will be highlighted **approved** no later than two (2) hours prior to the end of the regular scheduled shift on Friday or he/she will not be obligated to work. Overtime will be granted to the **qualified** appropriate employee(s) who volunteer from the Saturday, Sunday and/or Holiday rotational list and are able to perform the work, if a sufficient number of employees cannot be obtained from the above procedure, then **all qualified volunteers will be selected to work within the department first, then outside the department until the required manpower has been met** ~~volunteers from other overtime groups may be solicited~~. If sufficient volunteers are not acquired by the above procedure, **all qualified volunteers will be allowed to work and then** the overtime may be made mandatory of the necessary employees within the overtime group, by seniority, beginning with the least senior employee able to do the work. Qualified employees who sign up for less than the minimum required overtime hours will be skipped by Management to obtain the required employees for the necessary hours of overtime. For example, those employees who signed up for eight (8) hours will work before those who signed up to work six (6) or four (4) hours and those employees who sign up to work six (6) hours will work before those who signed up for four (4) hours, etc.

Clarification for rotational overtime: When one (1) or more employee(s) are approved ~~highlighted~~ "out of group" the seniority line returns to the top senior employee within the overtime group for the next available overtime opportunity. When all "in group" employees are ~~highlighted~~ approved but no "out of group" employees are approved ~~highlighted~~, the seniority line doesn't change for the next overtime opportunity. Saturday, Sunday and Holiday are separate rotational overtime list.

Consideration will first be given to those employees volunteering from the overtime group on the off-shifts by seniority able to perform the work then from the department by seniority able to perform the work before going Plant Wide.

2. In the event overtime for Sunday and/or Holiday is not determined until Saturday, the appropriate employee(s) that signed the volunteer list up (in and out of group) who are not present on Saturday will be called with a Union Representative present and offered the right to the overtime. If a sufficient number of employees cannot be obtained from the above procedure, then those volunteers working Saturday will be solicited prior to any other employee(s).

Mandatory Overtime Provisions:

A. Daily

1. If the Company deems it necessary to work daily overtime in a complete overtime group, the overtime may be mandated without first soliciting volunteers. Daily mandated pre-shift overtime will be mandated with mutual agreement with prior day notice for equipment failure(s) only. All mandated pre-shift overtime for equipment failure(s) only will be paid at a double time rate regardless of hours worked for that day. Team Leaders pre-shift mandatory overtime is limited to a maximum of fifteen (15) minutes.
2. Employees will be notified at least one (1) day in advance prior to the end of shift for mandated daily overtime work. When daily overtime is being mandated for an extended period, employees will be advised of the approximate duration.

When daily overtime is mandated, it will be limited to no more than one (1) hour on a daily basis. In addition, if daily overtime is mandated then cancelled by the Company by the end of shift the day prior, the hours scheduled will not count towards the thirty-two (32) hours of overtime allotment per calendar month.

Mandated overtime will not be scheduled on Fridays unless mutually agreed.

However, when the Company fails to cancel daily mandated overtime by mid-shift four (4) hours after start of regular assigned shift the day of, the Company will be charged double (unless due to emergency situations as described in item 8 in General Provisions listed later in this Article) the amount of time scheduled towards the thirty-two (32) hours of mandated overtime for the calendar month.

B. Saturday

1. No more than eight (8) hours of overtime will be mandated on Saturdays.
2. Employees will be notified by Thursday (end of shift) for mandated Saturday work, unless an emergency situation arises. Employees will not be mandated to work such overtime if a vacation day, personal day, Bereavement, or Union leave has been approved for them on the Friday preceding or Monday following the mandated Saturday work. **Employees on a pre-approved absence in conjunction with a mandated Saturday will have those hours credited towards the maximum hours of overtime per calendar month.** Employees must take the last half of Friday or the first part of Monday on half day as vacations to be excused for the mandated Saturday overtime.
3. If Saturday overtime is mandated by the Company and not cancelled before the end of the employee's shift on Thursday the hours mandated will count towards the thirty-two (32) hours of mandated overtime per calendar month.
4. No Saturday mandatory overtime will be scheduled in connection with any Holiday weekend. This does not apply to skilled trades employees who may be required to work to support critical business needs.

General Provisions:

1. No employee will be required to work in excess of thirty-two (32) total hours of mandatory overtime per calendar month including a maximum of two (2) non-consecutive Saturdays per calendar month.
2. If due to unforeseen circumstances, voluntary daily or weekend overtime planned for an overtime group is no longer necessary those employees who have reported to work may be assigned to work outside their overtime group. Alternatively, employees will be given the option of clocking out upon notice of the assignment outside of their overtime group. Employees who do elect to clock out will do so without pay or penalty.
3. Employees may not refuse to work mandated or committed voluntary overtime without a reason deemed justifiable to the Company.
4. Any employee skipped or otherwise missed in the overtime distribution procedure will be offered make-up work equal to the hours worked by the employee who worked the job. **The make-up work offered must be overtime that the employee would not have normally been entitled to, and doing so will not negatively impact other employees' opportunity to work available overtime.** In the event that more employees were skipped than worked, only the number of employees skipped who equal the number of employees who worked will be offered make-up work. It is the Company's intent to correct mistakes on the same day if they are brought to the attention of the Supervisor prior to the end of the shift. Any disputes will be escalated to the HR Department and Union Shop Chairperson.

AF

If the mistake is brought to the attention of the Supervisor on the day overtime is scheduled, prior to the end of shift, and the mistake is not corrected, the Company will pay the employee(s) who were skipped or otherwise missed, the appropriate rate equal to the hours worked by the employees(s) who worked the overtime. Any disputes will be escalated to the HR Department and Union Shop Chairperson.

5. All Sunday and/or Holiday overtime will be voluntary.
6. Notice of cancelling or scheduling mandatory overtime will be posted in an email format at the affected department's time clocks. ~~In~~ **in a tamper proof display**. The Company (with a Union Representative present) will notify all employee(s) who are not present the day prior when mandated weekend overtime has been cancelled. Employees who are not present due to an unplanned absence when mandated overtime is announced will be required to work the weekend mandated overtime.
7. If an employee signs up for voluntary overtime in their "home" overtime group, they are required to work in their "home" overtime group first before working in any other overtime group. Employees who sign up after the cutoff time for daily, weekend and Holiday voluntary overtime will only be considered after those employees who signed up "in group" and "out of group" prior to the cutoff time are exhausted.
8. The provisions of this Article that restrict the right of the Company to mandate any overtime work may be suspended by mutual agreement for a specified and limited time if operations are interrupted by emergency situations such as product safety or liability issues, parts shortages, major equipment or computer failures, extended power shortages, fire, tornado, flood, hurricane, or other acts of God, government mandated work, regulatory training, short-term volume increases and annual inventory. It is further understood that the Local Union will not unreasonably withhold their agreement.
9. The roles and responsibilities of the Team Leader may require preparation before the shift and completion of duties after the shift. As such, Team Leaders may be required to work fifteen (15) minutes before and/or fifteen (15) minutes after their shift hours. This requirement will not count toward their maximum of thirty-two (32) total hours of scheduled (mandatory) overtime per month.
10. In the interest of best practices and continuous improvement, the Company reserves the right to upgrade and modernize the process of administrating overtime, approvals and other functionality which can be improved. Changes to the process of administrating overtime which conflict with this Article will be discussed with all Shop Chairpersons and implemented with mutual agreement.
11. All mandated overtime notifications will be forwarded to the appropriate Shop Committeeperson and Shop Chairman.

AF

12. Overtime will be granted within overtime groups by classifications, with the exception of Utility, if more than one classification exists.

ARTICLE 10 VACATIONS

Section 1. See Common Language

Section 2. See Common Language

Section 3. Pro-Rata Vacation Pay - See Common Language

Section 4. The vacation workweek is defined as Monday through Friday. Vacation must be taken within the year of the anniversary date of employment. Unless otherwise stated in this Article, single days of vacation may be taken in increments of four (4) or eight (8) hours. Only block/full weeks of vacation during the vacation scheduling period will be assigned according to seniority. The Company will allow twelve percent (12%) of block week vacation for the employees in each vacation group during the prime months of May, June, July, August, and September. All other months will have a maximum of ten percent (10%), except work groups which have limitations as outlined below.

The balance of vacation allotment will be distributed equally over the (non-prime) months of January, February, March, April, October, November and December.

For block week vacation scheduling, customary two (2) digit rounding will be used: e.g. 1.49 will be rounded down to one (1) person.

For single day vacations, automatic rounding up to the next whole number will be done (i.e. 1.1 will result in 2).

Employees must cancel vacation (single or block) requests seventy-two (72) hours prior to the start of such vacation or the vacation must be taken. When single vacation days are scheduled within the seventy-two (72) hour period, the vacation must be taken if approved.

In cases where the vacation percentages for block and single day vacations are calculated to be less than 1.00, one (1) employee will be allowed off on vacation for each allotment (block and single).

Once percentages for prime and non-prime vacation periods for the year have been calculated, according to earned allotment, then an additional two percent (2%) will be allowed off for single days. ~~No single day or block week vacation requests will be accepted on weekends or holidays.~~ **Any request submitted outside of employees' normal shift hours will be processed along with any submissions received in the first two (2) hour window of the next regularly scheduled workday.** Employees will be allowed a two (2) hour window into their shift to submit their single day vacation request, which will be awarded on a seniority basis. Single day requests submitted after the two (2) hour window will be processed on a first come first served basis. Requests will be processed one (1) month (date to date) in advance and each day thereafter until the maximum is reached. Single day vacations will be approved by seniority and posted daily. Same day vacation requests ~~forms~~ will be ~~returned to the appropriate employee(s)~~ **processed** within four (4) hours from the time the Supervisor receives the request. All other requests ~~forms~~ will be **processed** ~~returned to the appropriate employee(s)~~ no later than two (2) hours prior to the end of the regular scheduled shift. However, once you have been approved and posted to the list you cannot be bumped by a senior person who submits a request on a subsequent day. After the maximum is reached and a cancellation occurs, the opening will be filled by the most senior person who submitted a request. All vacation ~~request forms~~ **submissions** will be

submitted to the Supervisor or Manager.

In the event that the full week percentages are not filled, employees may schedule a single day of vacation in either four (4) or eight (8) hour increments up to the maximum allowed for full weeks of vacation. **Single days may be requested in the current or following week for unfilled block days.** Requests must be submitted one (1) week in advance.

At the Company's discretion, half or single days may be approved, if available, if a worker shows up and applies for the vacation time.

Section 5. See Common Language

Section 6. See Common Language

Section 7. See Common Language

Section 8. The vacation scheduling procedure is set forth below:

1. The month of November of the preceding year will be the designated period set aside for advanced vacation scheduling. Prescheduling vacation forms will be returned to all employees who apply by the 15<sup>th</sup> of December.
2. During the advanced scheduling period, employees may schedule all block weeks of vacation which they are eligible to take during the current calendar year through December of the following calendar year. Full weeks of vacation must be taken from Monday to Friday. ~~Two (2)~~ **Three (3)** weeks of vacation may be reserved for either four (4) or eight (8) hour increments or for selection of an open vacation week later in the year. A maximum of five (5) single days may be reserved for four (4) hour increments with the remainder of single days taken in eight (8) hour increments. Single days of vacation used for plant shutdown periods will NOT be counted against the single vacation day allotment. Any unused vacation from a partial block week will be scheduled as a block week. Any unscheduled vacation time will be subject to availability during the year.
3. Vacations will be granted on a rotational seniority preference basis within the designated vacation groups on each shift for the following calendar year. Clarification: Block weeks will be awarded until the allotments for the desired week has been filled by rotational seniority order.
4. No employee, regardless of seniority, will be able to bump other employees from pre-scheduled vacation weeks.
5. Requests for block vacations made outside of the advanced scheduling period will be made at least one (1) day prior to the date the vacation is to be effective. Approval will be granted on a first-come, first-serve basis. All requests for vacation made outside the advance scheduling period must be submitted ~~in triplicate on a standardized form available for this purpose~~ **using the electronic system.** In the interest of best practices and continuous improvement, the Company reserves the right to upgrade and modernize the process of administrating vacation requests, approvals and other functionality which can be improved. Changes to the process of administrating vacation which conflict with this Article will be discussed with all Shop Chairpersons and implemented with mutual agreement.

ARTICLE 10 VACATIONS

6. Approval for granting one (1) day at a time vacation requests will be at the sole discretion of the Company for all requests above the two percent (2%) allowed for single days. All vacations, weekly and single days, will be posted in each respective vacation group on the digital vacation board.
7. A maximum of two (2) weeks of unused vacation entitlement from the previous year may be deferred to the next succeeding vacation year. **Any surplus of vacation above the maximum amount will be paid out.** However, employee(s) who have been on an approved leave of absence or workers compensation leave in excess of six (6) continuous calendar months within a vacation anniversary year, will be allowed to carry over any unused vacation into their next vacation anniversary year.
8. If a holiday falls within an employee(s) scheduled vacation, such employee will be granted an additional day off with pay, to be scheduled at a later date during his/her vacation anniversary year in accordance with normal single day vacation scheduling or the employee may elect to receive holiday pay for such day as though the employee were not on vacation.
9. Vacation anniversary dates will not be readjusted for leaves of absence or periods of layoff.
10. Vacation time cannot be borrowed ahead of anniversary date and no advanced vacation pay will be granted. However, advanced vacation pay will be granted where an employee's anniversary date falls within the week of a plant shutdown and is requested to cover lost wages for such period.
11. If an employee pre-schedules a vacation during the advanced scheduling period and subsequently has a position change, his/her vacation will transfer to his/her new work area. However, no backfill of vacation will be done in the work group from which the employee vacated.

ARTICLE 11  
LAYOFF/RECALL

LAYOFF/RECALL/REDUCTION IN MANPOWER

Section 1. In the event of a layoff a minimum of ~~five (5)~~ **ten (10) business** days' notice will be given to employees, unless longer notice is prescribed by law. All layoffs and reductions in manpower will be conducted within affected classifications as outlined below:

The Job Posting provisions of Article 12 and Transfer of Shift provisions of Article 13 will be frozen for thirty (30) calendar days prior to and fifteen (15) calendar days following the effective date of a mass layoff or permanent reduction.

- A. Probationary employees will be the first to be reduced from the classification.
- B. If it is necessary to reduce additional manpower due to reduction of force (layoff) or reduction of manpower within a work group, the following procedures will apply:
1. Reduced employees will first fill an opening within their classification and work group on their current shift, being given the choice of openings by top seniority. If no opening exists, the employee will displace the least senior employee within their classification and work group on their current shift, given the employee holds seniority to do so.
  2. A) Reduced employees will fill an opening in their classification or utility team classification within the Department on their current shift being given the choice of openings by top seniority. If no openings exist, the employee will displace the least senior employee within their classification first, then in other classifications within the Department on their current shift, save and except joint selection process or specialized required skill classifications. If the employee chooses to ~~move~~ **displace the least senior employee** as in 2(A), the employee will be required to use a job bid and forfeits his displacement rights back to the previous work group and classification. **Reduced employees will be moved by the third Monday from the time the reduction/layoff goes into effect.**

or

B) Reduced employees will fill an opening in their classification on another shift in the workgroup first, being given the choice of openings by top seniority, **If no opening exists,** then will displace the least senior employee within the classification in the workgroup. If no openings exist or the employee cannot displace within the workgroup, the employee will fill an opening in the Department on another shift in their classification, being given the choice of openings by top seniority, then will displace the least senior employee on another shift within their classification in the Department. If the reduced employee cannot displace the least senior in their classification within the Department they will fill an opening in the Department on ~~that~~ **their current** shift in any other classification, save and except any joint selection process and

specialized required skill classifications, being given the choice of openings by top seniority. If there are no opening(s) they will displace the least senior in the Department. Senior employees in any classification, save and except any joint selection process and specialized required skill classifications may invoke their seniority to be displaced from the Department. Those who invoke their seniority to be displaced will forfeit their displacement rights back to the Department and work group.

3. Reduced employees in a "required specialized skill" classification that have been displaced from their Department, may first fill an opening in their classification in another Department if available, and lastly, displacing the least senior employee in their classification in another Department. To ensure retention of a sufficient number of trained employees, the reduction procedure may be extended up to one hundred and twenty (120) calendar days to allow sufficient training time.
  4. Employees who do not have sufficient seniority to bump as outlined above will have their choice of assembler and utility team openings by Department on a plant wide basis in seniority order, then lastly displacing junior employees in the assembler and utility team classifications.
- C. It is understood that less senior employees currently working in the classification may be retained if more senior employees being reduced from their classification with plant seniority do not have the specialized skills to perform available work. "Specialized Required Skills" are defined as and limited to Cab Finish/Repair, Painter, Striper, Paint Inspector, certified aluminum Welder, certified steel Welder, FAB shop, Komo Operators, Switcher Operators, Paint Robotics Technicians, Production Electrician Techs (Offline, pool 3 and 8, **and Finish Cab**), Systems Techs, QC Auditors, CAT Team, QA Lab and CMM Operator. In this instance, the next least senior employee on the plant wide seniority list will be placed on layoff in place of the retained employee. It is understood, an employee is not permitted to return to a "Spécialized Required Skill" by displacing a less senior employee currently in the position to prevent lay-off.
- D. During periods of reduction the Company and the Union recognize the need to keep the skill base of the Utility Team Members within the Department therefore, the Utility Team classification cannot displace plant wide. Should they be unable to displace within their Department they will follow the stated process in Section 1 of this Article.

Section 2.

- A. Recall to Assembler and Utility Team Member classifications will be by plant seniority. Recall to other classifications will be in the reverse order of layoff from those classifications. Recalled employees who have been laid off for one (1) year or more will have their displacement rights suspended for up to a period of six (6) months. Recalls from a voluntary layoff will be conducted as outlined in Section 3 of this Article.
- B. Employees recalled from layoff in excess of six (6) months or who may have been ill or injured while on that layoff will be required to satisfactorily complete a return to work physical as required by the Company. Such return to work examinations shall be consistently applied to all returning employees. It is understood that additional criteria may be required where injuries

or illnesses are known to have occurred.

Employees recalled from layoff who fail to report for a scheduled return to work physical without a justifiable reason will be terminated. The Shop Chairperson will be notified, in writing, of all employees terminated for this reason at the time of termination.

If the employee fails such examination and cannot return to work he/she will remain on layoff until medically cleared to return to work. At that time, the employee will return to work providing they have seniority to do so. Employees upon recall who fail the drug screen for illegal substance(s) and/or legal substance(s) taken without a current prescription ~~will result in termination.~~ (See Common Language)

Disputes arising between the opinions of the employee's physician and the Company's physician concerning the medical suitability for available work recalled to, will be settled by an independent physician mutually selected or a professional medical organization. All costs associated with the independent examination shall be shared equally by the parties and such final decision by such independent physician or organization will be final and binding on the Company, Union and the employee.

- C. Any employee refusing recall from layoff to the job classification from which he was originally laid off, other than for temporary summer help, will be considered as a voluntary termination. Recall to any other classification will be voluntary. No subsequent opportunities for recall to a classification other than the classification from which the employee was originally laid off will be offered.
- D. Employees who are working in another classification as a result of an involuntary displacement, will be given consideration to return to an opening in their previous regular assigned Department and workgroup. Employees in the same classification working in another work group as a result of an involuntary displacement, will be given the opportunity to return to an opening in their previous regular assigned Department and workgroup. In the event there are employees in both categories listed above, the opening will be filled first by the most senior employee. Employees who decline the opportunity to return will lose all future rights of return.
- E. Prior to recalling a "specialized required skill" classification out of seniority order, the Company will post the specific job provided there are no displaced employee(s) from those classifications currently working in the plant with the exception of Production Electrician Technicians, Systems Technicians, and Robotic Technicians. Employees who are on voluntary layoff from a "specialized required skill" classification, with seniority to be in the plant, will be contacted prior to posting and must return as required in voluntary layoff provisions.
- F. During periods of recall if there are openings in the Utility Team classification within a Department, employees displaced from that Department regardless of the previously held classification in that Department will be offered the opportunity to fill the opening before a less senior Utility Team Member is recalled to that position.

JAN  
BTF

Those employees offered the opportunity to fill the Utility Team opening and were not displaced from the Utility Team classification in that Department will not forfeit their displacement rights to the previously held classification in the Department if they decline the opportunity. They will not be solicited again for an opening in their "Home Department" until their original classification by seniority becomes available.

Those openings not filled through the above stated circumstances in the Utility Team classification but are being filled during a period of recall from layoff will first be filled by those employees who held the Utility Team classification in that Department before being laid off by either a job posting or displacement by seniority.

Section 3. During a layoff, employees who are notified that they will be displaced from their current classification may, instead of being displaced, request a voluntary layoff, which will be granted. Requests for voluntary layoffs must be written and signed by employees and submitted to a representative of the Human Resources within three (3) working days following notice of displacement.

Employees who take a voluntary layoff will not be recalled until such time as an opening becomes available in the job classification ("Home Work Group") they occupied at the time of their voluntary layoff.

Section 4. A Shutdown week(s) occurs when the normal operations of the Plant are curtailed for a period not to exceed one (1) week. This period may be extended with mutual agreement. Such agreement will not be unreasonably withheld. During such time, employees required for essential operations will be selected in the following manner:

1. Once the number of employees needed is determined, Senior qualified volunteers from the essential work groups will be selected first, then qualified volunteers will be selected by seniority within the Department on all shifts. Employee(s) must sign the shutdown sheets for the appropriate workgroups and/or Department (~~garage rework~~) to be considered.
2. If a sufficient number of qualified volunteers are not obtained by the above procedure, the least senior qualified employees from the essential work groups on the shift the work will be performed will be required to work, unless qualified former employees from the work group volunteer on a posted secondary list. The Company will use an updated skills training matrix retains the right to determine qualifications. Employees will be notified by mid-shift on Thursday prior to the Shutdown week for those scheduled to work the following week.
3. When possible any disputes between the "parties" over who is selected to work will be addressed before the actual shutdown week takes place and will be reviewed by both parties to reach a mutual agreement. Management will inform the Union Immediately if question exists.

Section 5. A shutdown day occurs when the normal operations of the facility are curtailed for a period less than one (1) production week. This period may be extended with mutual agreement. Such agreement will not be unreasonably withheld. During such time, employees

required for essential operations will be selected in the following manner:

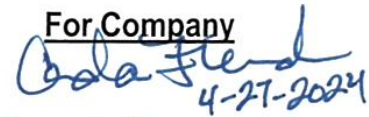

1. Once the number of employees needed is determined, ~~S~~senior qualified volunteers from the essential workgroup(s) ~~on the shift the work will be performed.~~ will be selected first, then qualified volunteers will be selected by seniority within the Department on all shifts. Employee(s) must sign the shutdown sheets for the appropriate workgroups and/or Department to be considered.
2. If a sufficient number of volunteers are not attained by the above procedure, ~~L~~east senior qualified employees will be mandated from the essential workgroup(s) on the shift in which the work will be performed unless qualified former employees from the work group volunteer on a posted secondary list. The Company will use an updated skills training matrix ~~retains the right to determine qualifications.~~ If the shutdown period is less than one (1) week, scheduled employees will be notified as soon as possible.

Section 6. When it becomes necessary to send a partial workgroup(s) home due to a temporary condition of no work (less than eight (8) hours), least senior qualified employees within the affected workgroup(s) will be retained, if necessary, to perform essential work. Employees with more seniority from the affected workgroup(s) who are able to perform the work may invoke their seniority thereby being retained before the least senior employee.

**TENTATIVE AGREEMENT  
ARTICLE 12 JOB POSTING**

**Section 1.** Whenever a new opening is created or a permanent vacancy occurs within the Bargaining Unit, the position will be filled in accordance with the procedure outlined below:

A vacancy or opening is an unoccupied opening which will require replacement or addition.

A period of recall (of not less than fifty (50) employees) is defined as the period of time for suspending the provisions of job postings and shift transfers as listed in Section 1 of Article 11.

During periods of layoff, the job posting procedure will be utilized for openings not filled by Article 11 Section 1 or the following steps:

A. Solicitation by seniority within the work group and classification in which the opening(s) exist that is not during a period of recall. The solicitation process will consist of a minimum of two (2) openings (original opening and one (1) subsequent opening) being solicited to fill the opening(s). Any employee accepting an opening through the solicitation process will be charged one (1) job bid.

**B. Displaced Employees**

Clarification: Employees who are working in another classification as a result of an involuntary displacement, will be given the opportunity to return to an opening(s) in their previous Department and "regular assigned work group". Employees in the same classification working in another work group as the result of involuntary displacement will be given the opportunity to return to an opening(s) in their previous Department and "regular assigned work group". In the event there are employees in both categories listed above, the opening(s) will be first filled by the most senior employee. The employee will forfeit all rights back to the classification and/or work group in which they decline displacement rights. Openings due to employee(s) holding Union positions will be filled in accordance with Article 12. Upon returning to work from a Union position the employee(s) may displace the least senior employee in the workgroup and classification they were last awarded ~~vacated prior to accepting the Union position~~, provided they hold enough seniority to do so. If unable to displace the least senior employee, the employee(s) determined to be displaced will be reduced in accordance with Article 11.

Employees returning from an approved long term military leave will have displacement rights back to their home workgroup, provided they have seniority.

C. If there are no employees affected by displacement or all displacement rights to the Department and work group have been exhausted, then the opening will be posted. However, during periods of recall, assembler and utility vacancies not filled by displacement rights, will be filled by recall in plant seniority order.

Notice of vacancy will be posted in digital format accessible to all employees ~~on designated bulletin boards in all buildings, including:~~

1. Department
2. Workgroup & Team
3. Shift
4. Classification and Top Rate of Pay
5. Date & Time of posting
6. Rotation Pattern (where applicable)

**TENTATIVE AGREEMENT  
ARTICLE 12 JOB POSTING**

The name(s) and seniority date of the selected employee(s) to fill the opening(s) will also be posted after the opening(s) is filled. Job postings will be reviewed by the Union. A Union Representative will review this selection process.

The parties recognize due to ergonomic purposes and the need to diversify skills in a team, and provide ergonomic relief rotation among positions in the team(s) will be required.

It is understood and agreed by the parties that the Job Posting Article will be utilized at all times that the plant is in operation building trucks, except thirty (30) calendar days prior to and fifteen (15) calendar days following the effective date of a mass layoff or permanent reduction.

An employee with six (6) months of seniority who desires to fill an opening(s) may file a job bid on an agreed upon form to be supplied by the Company. Employees will not be eligible to job bid if they are in the Attendance Control Program (ACP) at the time of the posting. There shall be two (2) transfers allowed in a twelve (12) month period. No employee will be allowed to job bid or job while on a medical leave of absence.

Job bid requests will be honored on a seniority basis except for the positions of: Team Leader, CI Facilitator, OU Trainer, TOS Implementation Team Member, ~~Complexity Team~~, Production Technician, Skilled Trades, Plant Clerical, QA LAB, AUDIT, and CAT and ~~GMM Operator~~.

Said positions will be filled using a Joint Selection Committee comprised of equal number of designated members from the Company and Local 3520. The Joint Selection process will be mutually agreed upon by the Company and the Union. Employees cannot interview for a Joint Selection Process job while on a medical leave of absence. Candidates who bid on a Joint Selection Process and require an interview, as well as candidates who bid on any tested position, will be interviewed and/or tested within thirty (30) calendar days from the candidates being identified on the awards list. If the candidates are not interviewed and/or tested within this time frame the job will be awarded to the most senior candidate that applied.

The position of Systems Technician will be filled with the most senior applicant capable of performing the functions of the job.

~~Five (5) secured boxes (two (2) in the Main plant, one (1) in the 400 Building, one (1) in Offline, one (1) at PDI) will be maintained for filing of such forms. 1. The parties discussed the need to implement Utility Teams within each Department. The functions of this group may include, but are not limited to, filling in for manpower shortages, filling in as extra help on tough truck options, garage repairs, special continuous improvement projects, special quality improvement projects, and training.
2. Members of the Utility Team will be assigned to specific workgroups within a Department. ~~The percentage of Utility per workgroup will be determined by the Company.~~ **The average MAV for these workgroups will be included by the Company in determining the size of the Utility Team.** Utility Team members will be deployed to areas within the Department as necessary to assist with the functions listed in number one (1) above. Selection for Utility Team positions will be by plant seniority. In the event a Utility Team position is not filled through the posting procedure, employees will be solicited from within the Department first, then plant wide. Accepting a position through solicitation requires the use of a job bid.
3. Due to the unique nature of the Utility Team, the team members will be exempt from Article 12- Job Posting, Section 6, (b), as the position requires significant flexibility to handle unlimited daily job reassignments and meet the unique requirements of daily truck production. During the job assignments process, Utility Team members will be assigned based on their skills and the needs of the Department.

**Section 6.** The parties recognized there are times when employees will need to be re-assigned on a temporary basis to other opening(s) to meet daily production needs. These re-assignments may result from absenteeism, adjustments in equipment uptime/downtime, and high labor content.

When the need arises to re-assign employees (with the exception of skilled trades) on a temporary basis either within the Department or to another Department, the **able and available** Utility Team members will be the first to be assigned. When all **able and available** Utility Team members have been assigned on required to run jobs or to functions with high complexity due to model or option mix, other employees may be assigned by the least senior employee **(outside of the probationary period) within the department first, then outside of the department** who is able and available to perform the necessary position, **these employees will be paid one (1) pay grade higher than normal rate. If employee is unable to perform this temporary assignment independently/efficiently,**

qualified assistance will be maintained.

All classifications fall within the above guidelines, with the exception of the following list below. When all options listed above have been exhausted, movement will follow the following prioritization by least senior able and available within the Department, then outside the Department within these classifications.

1. TOS Rotational Team Member
2. Complexity
3. TOS Implementation Team Member
4. Production Tech, CI, Materials CI/Standards Team Member
5. Production E-techs
6. OU Trainer
7. Team Leader

A transferred employee will be paid the rate of his classification or the rate of the temporary classification; whichever is higher, for the time worked on the temporary assignment. Temporary assignments will be considered vacancies and the positions will be posted, (unless the employee is on an approved leave) if filled by temporary assignment for more than thirty (30) days in a sixty (60) consecutive day time period. Openings due to employee(s) on long term medical leaves will be filled in accordance with Article 12. Upon returning to work from Long Term medical the employee(s) will have the right back to the workgroup they vacated prior to medical leave, provided they hold enough seniority to displace the least senior employee. If unable to displace the least senior employee in the workgroup, the employee(s) will be displaced in accordance with Article 11. The time period of thirty (30) days in a sixty (60) consecutive day time period may be extended by mutual agreement when presented in writing due to model mix variations, or new product launch, or volume adjustments.

TENTATIVE AGREEMENT

Cleveland

**ARTICLE 33  
SKILLED TRADES**

It is understood that Skilled Trades classifications are recognized solely for administrative purposes relating to vacation, overtime, training, and job posting procedures. No jurisdictional craft restrictions will apply in the assignment of maintenance work. Employees may be assigned to any job to which they are qualified to perform. The Company will determine qualifications in assigning work.

Skilled Trades Probationary Period:

The Company and the Union agree to implement a one hundred eighty (180) calendar days probationary period for all newly hired employees whether they come from inside or outside the plant. The Chairman of the Skilled Trades Committee or designated representative will sit in on all

reviews. If it is determined that an employee who came from the plant while on their probationary period does not meet the established criteria or does not perform to expectations he will be notified and will be given the opportunity to obtain an opening in the plant. An employee that came from the outside as a new employee will be terminated if they do not meet the established criteria or does not perform to expectations.

Criteria for hiring Journeymen:

1. Skilled Trades for the purpose of this Agreement shall be those trades and classifications listed below:

Maintenance Mechanic

Forklift Mechanic

Plumber

Wastewater

Millwright

HVAC

Machinist

Electrician

Electronics Technician

CMM Operator

Clarification: CMM Operator will be a work group assigned to the Quality Department

2. The term "Journeyman" as used in this Agreement shall mean any person:

- (a) who presently holds a Journeyman card or certification classification in a skilled trades occupation as listed in one above, or
- (b) who has served a bona fide apprenticeship of four (4) years – 8000 hours and holds a certification which substantiates his claim of such service, and holds a Certificate of Qualification in such trade.
- (c) who has eight (8) years of verifiable practical experience in the skilled trade or classification in which he claims Journeyman's designation and can prove same. A UAW Journeyman Card will be accepted as proof.
- (d) Any further employment in the Skilled Trades occupations as listed above, after signing of the Agreement, shall be limited to Journeymen, Apprentices and experienced skilled trades people meeting the criteria of Journeyman.

**TENTATIVE AGREEMENT**

Cleveland

**ARTICLE 33**

**SKILLED TRADES**

The Company will present to the Union proof of qualifications before hiring. In the event that there are no applicants that meet the above criteria, the parties agree to mutually give consideration to hiring the best qualified applicant based on business requirements.

- (e) New employees or existing plant employees with Journeyman status will be hired at a no less than the forty-two (42) month level on the pay progression scale based on their relative experience in regards to the plant's equipment.

3. Seniority

- (a) An employee having seniority in the plant, who enters the Skilled Trades group, will have a Skilled Trades' seniority date as the day he enters the group. However, it is understood that any previous seniority toward pensions, vacations, etc., will be maintained.
- (b) Seniority in the Skilled Trades shall be by Skilled Trades' classification within the Plant.
- (c) Future employees entering a trade shall have date of entry seniority in the Skilled Trades as listed in number one (1) above.
- (d) **An employee having seniority in the plant who enters a Facilities Dispatcher or Data Integrity position will have a Facilities Dispatcher / Data Integrity seniority date as the day they enter the Facilities work group. However, it is understood that any previous seniority towards pensions, vacations, and all other benefits in the CBA will be maintained.**

4. Layoff – In the event of a decrease in force in any Skilled Trade, the following procedure shall apply:

- (a) **In the event of a layoff Facilities Dispatcher / Data Integrity will be laid off or displaced before Skilled Tradesman or Journeyman in the Skilled Trades work group.**
- (b) All layoffs will go by seniority, within their classification. Recalls will be in reverse order.
- (c) First, Apprentices or Trainees will be laid off in the reverse order of their entry into their apprenticeship.
- (d) Second, probationary employees will be laid off from their classification.
- (e) If further employees are to be laid off, such employees will be laid off in order of their skilled trade's seniority within the classification seniority list.
- (f) In the event of a reduction in force in the skilled trades, the employee's plant wide seniority date will be used for layoff, recall or reduction in manpower. If the employee does not have sufficient seniority within a classification (that seniority has been established) to hold a position in skilled trades, then the employee would be subject to the provisions in Article 11.

5. Shift Preference - Shift preference will be by classification seniority.

6. Physically Disabled – Should a skilled trades employee become permanently medically unable to follow his skilled trade, both the Company and the Union will cooperate in endeavoring to place such an employee on a job he is capable of performing taking their total seniority with them. However, if placed in a non-skilled classification, he shall then forfeit all rights within the skilled trades.

7. Tools and Uniforms - The Company will replace all tools that are damaged through use on the job. Uniforms will be offered by the Company to all Skilled Trades employees. The offer will be one-time after ratification of the 2018 Labor Agreement to all senior employees. Electrician, Electronics Technician, and HVAC classifications are required to wear appropriate PPE uniforms while performing their job. The Company will determine the type of uniform.

8. Training - The Company will offer training to skilled trades (Equipment troubleshooters/repair technicians) by seniority in the classifications the training is being offered to. **Employees will attend the provided training required of the**

classification without refusal unless they have a reasonable cause. Training will be provided whenever practicable in advance of new equipment installation and technology changes. Training may be either on-site or provided by vendors at off-site locations. The Company will make an effort to provide continuing education to all tradesmen to insure they remain proficient in their skills. The Company reserves the right to offer training based on seniority within classification by shift if critical to plant operations. Additionally, an on-the-job training program will be jointly developed between the Company and the Union to develop the breadth of experience of tradesmen for jobs within their classification.

A- Fall Protection and Working Alone (see Article 16)

9. Outside Contractors - In order to minimize the potential for reduction of skilled trade's employees as a result of outside contracting throughout the life of this Agreement, the following joint efforts will be implemented:

- (a) Planning – Plant Management shall meet periodically to review with UAW Skilled Trades Representatives, projected workloads regarding the installation, construction, maintenance, repair, service, and warranty work of existing or new equipment, facilities and the fabrication of tools, dies, jigs, patterns and fixtures.
- (b) Information – Advance notice of outside contract activities will be provided in situations other than emergencies, by completing an outside contracting form and submitting it to the Skilled Trades Subcontracting Committee. This advance notice is to permit meaningful discussion and a careful analysis of the Company's workforce capabilities in connection with the subject work. This notice will provide the Union and facilities Management with information on the nature of work, including plans and the number of trades persons required to perform the work.
- (c) Layoff/Recall – When Skilled Trades employees are on layoff, and consideration is being given to outside contracting work, trades employees will be given consideration for the work, before letting the contract, provided that they can perform the available work and if an economic justification can be made to the satisfaction of the Company.
- (d) Full Utilization – It is the policy of the Company to fully utilize its own employees in maintenance skilled trades in the performance of skilled trades work. When such work is required to be performed, skilled trades employees will be given first priority to do such work provided they are capable of performing such work and an economic justification can be made to the satisfaction of the Company. Additionally, the Company will consider adding additional skilled trade's work, in lieu of subcontracting if an economic justification can be made to the satisfaction of the Company.
- (e) In cases that work is contracted out, consideration will be given to International Union tradesmen for the work. The local UAW will be responsible for providing Management a list of companies within the area available to compete on a competitive basis for subcontracted trades work.
- (f) Contractors will furnish all materials and equipment needed to complete the work they are in the plant to perform as specified within the terms of the project contract.

It is not the intent of the Employer to subcontract work customarily performed by the Skilled Trades employees, Employer in the Cleveland TMP with its own employees, during a reduction in force, or which would directly result in a reduction in force.

It should be understood in some instances subcontracting involves considerations of production schedule, Maintenance work order backlog in excess of one hundred twenty five (125) work orders, the lack of machinery and/or equipment or economic factors that will compel Management to subcontract some functions. On the other hand, it is generally to the Employer's advantage to perform as much of the work with its own employees as possible.

**TENTATIVE AGREEMENT**  
**Cleveland**  
**ARTICLE 33**  
**SKILLED TRADES**

If the work order backlog is greater than one hundred twenty five (125) work orders, the Company may utilize outside contractors for work order or project completion providing those Skilled Tradesmen who are able to perform the work are being utilized on other work orders or projects. In this case the Skilled Trades Representative will be notified and may request additional information which will not be unreasonably denied. 8

Management has the final decision concerning work orders related to:

- Painting
- ~~Building blue parts racks~~

In all instances, The Company will submit an advanced notice of all work being considered within the plant to the Skilled Trades department Subcontracting Committee prior to letting a contract for the performance of maintenance and construction work of the type historically performed by the Skilled Trades department. In this, the local management will review its plans or prospects for performing particular projects. This includes describing the nature, scope and approximate dates of the work and additionally present data such as operational factors, personnel skills, facility and/or equipment factors as well as financial considerations. At such times the local management will afford the Subcontracting Committee and its union representatives an opportunity to comment on local Management's plans and to give appropriate weight to those comments in the light of all attendant circumstances. Further the local Management will consider any other alternatives as presented by the Union committee to retain the work in-plant, prior to outside contracting without mutual agreement. In the event of an emergency due to unforeseen circumstances outside of the Company's control where the need for outside contractors is an immediate necessity, the Company agrees to notify Skilled Trades Union Representative(s) of said need and the details surrounding the situation. The Company reaffirms its commitment to keep the Union informed of work that is normally performed by Bargaining Unit employees that is being considered for subcontracting prior to awarding a contract. The Company further commits to give advanced notification in writing to the Union describing the contemplated work to be subcontracted and its reasons. If the Union feels that such work is within the capability of the Bargaining Unit, and can be feasibly and competitively performed by Bargaining Unit employees, representatives of the Company and the Sub Contracting Committee will meet together to discuss this possibility. The Company's final decision will be based on the factors listed in this section.

10. Licenses - All costs for Company or regulatory required licenses will be paid by the Company.
11. Overtime - Overtime will be administered by rotating seniority. Saturday, and Sunday overtime will be maintained on separate classification rotational lists. An out of group sheet will also be posted each week. Employees interested in out of group work will sign the sheet with their seniority date. The work will be awarded to the most senior qualified employee, taking into consideration first or prior classifications. Example: A team leader with G.M. seniority will be selected for G.M. work before a more senior employee without G.M. seniority. If Saturday's project unexpectedly continues into Sunday or holiday it will first be offered to the employee on the job and then selection from the Sunday or holiday list if needed. If the work scheduled is of a critical nature, i.e., hazards and equipment down, the first qualified employee who signed up will be selected. The employee will be charged with time worked. Projects that can be scheduled two (2) weeks or more in advance can be posted in the shop with a signup list. The posting will consist of details of the project, start and expected finish date along with manpower per classification needed. Qualified senior employees will be selected from the posted list. For continuation purposes, selected employee(s) will be assigned to the project until complete. Upon project completion the employee(s) will be placed on the bottom of the rotational lists. Exceptions will be made to effect emergency and critical repairs necessary to keep the facility/equipment running; additionally, all TPM Planners within the Facilities Department will be included within the rotation for scheduling overtime. Christmas and Holiday shutdown work in skilled trades will be done

**TENTATIVE AGREEMENT**

Cleveland

**ARTICLE 33**

**SKILLED TRADES**

by most senior volunteers that first sign up for the entire Christmas and Holiday shutdown period (excluding weekends) and then the most senior employees on single days if needed.

The Training and Skills matrix will be used to determine qualification for weekend and holiday overtime work.

Clarification for weekend shift: When workloads require twenty (20) or more regular shift employees to work overtime on Saturday or Sunday, a minimum of four (4) employees from the weekend shift will also be offered weekday overtime. The weekend shift employees will typically be offered overtime equal to one half the percentage of the total number of regular shift employees that worked voluntary overtime on Saturday or Sunday, providing twenty (20) or more regular shift employees worked on the weekend including both Saturday and Sunday across all 3 regular shifts combined from the preceding weekend. Both the Company and Union agree that this overtime provision may be revisited to account for changes in business condition.

Clarification:

Daily Casual Overtime – The daily overtime worked at the end of or beginning of a shift outside of the employee's normal work hours, primarily used to respond to emergency work orders for critical plant equipment. The overtime is first offered to the person performing the work, then the most senior volunteer by classification before mandating.

Scheduled Overtime – Overtime scheduled in advance to support weekend projects/repairs and/or weekend shift employees scheduled to work during the normal work week to supplement shifts or support designated projects.

12. The Company agrees to initiate an Apprenticeship Program as business conditions permit and no skilled trades employees are displaced out of skilled trades or on lay-off. The Company and the Union also agree, at a later date if the need arises, to discuss a trainee program potentially allowing employees on lay-off to cross train in other skilled trade classifications where no other employees are eligible for recall before hiring; i.e. an Electrician on lay-off be eligible to train in an HVAC trade where no other HVAC tradesmen are on lay-off status.
13. Drawings – The Company will provide blueprints and plant layouts for skilled trade employees.
14. Vacation – Employee's in the maintenance department will maintain current practice. Skilled Trades vacation scheduling will be administered as follows: Limited to twelve percent (12%) (prime) and ten percent (10%) (non-prime) by shift not to exceed twenty five percent (25%) in a single classification. For classifications with fewer than four (4) employees one (1) employee will be granted vacation. This is to maintain the required skills in classification to support plant operations. Approval for granting vacations above the allowable percentages will be at the sole discretion of the Company.
15. Hours of Work - Employees will be scheduled to work forty (40) hours per week consisting of five (5) consecutive eight (8) hour days, with the exception of the weekend shifts. The normal workweek will be Monday through Friday except for the weekend and third (3<sup>rd</sup>) shifts. (Days worked represent the days an employee clocks out). Any of the shifts may be split into an A and B shift to allow for appropriate production coverage, start-up and shutdown procedures.
16. Job Postings - Will be first posted in the Maintenance shop then plant wide before going to outside hiring sources.

The normal shift hours during one (1) production shift will be:

First Shift      A - 6:30 a.m. to 2:30 p.m.  
                          B - 7:00 a.m. to 3:00 p.m.

Second Shift    2:30 p.m. to 10:30 p.m.

Third Shift      A - Monday – Friday    10:30 p.m. to 6:30a.m.  
                          B - Monday – Friday    11:00 p.m. to 7:00 a.m.

TENTATIVE AGREEMENT

Cleveland

**ARTICLE 33  
SKILLED TRADES**

These shifts shall include Saturday and Sunday and will include Friday or Monday where determined necessary to reduce the effect of shift overlap as outlined above.

Clarification for Fourth and Fifth shift overtime, sick leave, bereavement and vacation:

Overtime

Overtime is paid at one and one half times the normal weekend rate of pay for the thirteenth (13) hour in the normal workday. Any hours worked in excess of thirteen (13), of the normal workday would be paid at double time the normal weekend rate. Any Tuesdays and Thursdays worked by 4th or 5th shift employees regardless if it's an A or B shift employee will be paid at one and a half times the normal weekend rate of pay. All other days worked other than their normal work days will be paid at double the normal weekend rate of pay.

PTO and Paid Sick Leave

Employees will receive forty eight (48) hours of paid sick leave annually to be accrued at a rate of four (4.00) hours per month. PTO will be based upon hours as currently established under the current Agreement. For this group of employees one (1) day of PTO or paid sick leave would result in accumulation of twelve (12) hours charged time.

Bereavement Pay

Bereavement Leave will be administered per Article 28 with the following exceptions: Employees shall be excused with pay for three (3) scheduled workdays, for a bereavement leave of a five (5) day qualifying event, two (2) scheduled workdays for a three (3) day qualifying event and one (1) day for all other qualifying events under the terms of this Agreement.

Vacation

The Company and the Union will use the same pro-rata schedule in our Labor Agreement for vacation pay calculation as outlined in Article 10 Section 3 (1200 hours equals 100% of vacation pay). Employees getting forty (40) hours working thirty-six (36) would be given credit for forty (40) hours worked against vacation entitlement pay.

**17. Apprenticeship Program**

**The apprenticeship program will follow the agreed upon guidelines set forth by the JAC in the NC Apprenticeship Agreement. The JAC will consist of equal members of Union Journeyman and members from management. There will be 3 members each totaling 6 members on the JAC. The sitting skilled trades representative will retain 1 seat on the JAC. It will be the responsibility of the skilled trades representative to appoint another Journeyman to the JAC when and/or if a vacancy needs to be filled. These members will be skilled Journeyman employees. All decisions will be addressed and decided upon with the JAC board members. All decisions should be agreed upon unanimously.**

**Apprenticeship coordinator: There will be a coordinator for the program that will not be required to be a member of the JAC board. Coordinator responsibilities are outlined in the current agreement.**

**Apprenticeship applicants will be selected following the agreed upon process. Applicants that are applying from inside the plant currently in the Attendance Control Program WILL NOT be eligible to apply at the time of posting.**

TENTATIVE AGREEMENT

Cleveland  
ARTICLE 33  
SKILLED TRADES

Qualified Journeyman of each classification will be selected by utilizing the training matrix by shift and offered to become a trainer for an apprentice. Trainers will receive compensation of "Team Leader" pay for the responsibility during the time that they're tasked with an apprentice. Once the Journeyman is no longer paired with an apprentice they will no longer be entitled to the additional compensation. In the event a Journeyman trainer is deemed underperforming based on expectations required for the success of the apprentice, then the JAC may vote to remove the apprentice and place them with another qualified Journeyman for their classification. Once an apprentice enters the program they will be considered, at any level, a skilled tradesman with their date of entry of day 1 when they entered the apprenticeship program. An apprentice will no longer be available for production work. The apprentices will not be required to remain at arms length of any trainer while performing certain job duties after being trained to do so with both their trainer and themselves feeling confident in performing certain tasks while having a Journeyman check over any work performed.

Overtime: Apprentices will be included in the overtime scheduling process, as well as mandated OT, to work alongside any Journeyman as long as it does not interfere with their school schedules and/or scheduled training. Apprentices will not be considered for voluntary overtime work over a Journeyman by shift. All Journeyman by classification must be worked before consideration including those signed up for out of group/shift.

Once the apprentices graduate from the program they will be placed on the shift for which they currently occupy at the time of graduating the program. They will then be subject to the Article 12 and Article 13 processes.

Apprentices who are in the program will be on probation for of the duration of the program through completion.

**LETTER OF UNDERSTANDING**  
**DAIMLER TRUCK OPERATING SYSTEM (TOS)**

**TOS Implementation/UAW TOS Coordinator**

The parties agree that while the Plant's progress has been reasonable, today's competitive environment requires intensity and speed for marketplace success and the job security that accompanies that success. Clearly, a joint DTNA/UAW Local 3520 commitment to the Truck Operating System will benefit the customer, the operation of the plant, DTNA employees and the membership of the UAW at the facility.

The parties agree a significant and visible role including UAW involvement is required to support the concepts expressed in this Letter of Understanding. To that end, the full-time position of UAW TOS Coordinator, appointed by the UAW Vice President/Director of the Heavy Truck Department, is included in the local Union's representation structure at the plant. The UAW TOS Coordinator will report to the Union Shop Chairperson or his designee. Work performed by the UAW TOS Coordinator will be performed on all shifts that are operational at the Cleveland and CTS facility.

In this role, the UAW TOS Coordinator will actively participate in the implementation of TOS at the plant with an emphasis toward implementation of the Blue Sky vision. Specifically, the role will focus on the implementation of understandings reached in these negotiations related to the positions of Team Leader, CI Facilitator, TOS Implementation Team Member, Production Technician and OU Trainer.

**In this role, the UAW TOS Coordinator will work with the TOS Manager and all plant Departments to participate in the implementation of TOS/TOS+ focused on the five Subsystems of TOS; along with DTNA Corporate directed TOS Standard Assembly Principles, TOS+ Standard Paint Shop Principles, TOS+ Standard Logistics Principles and TOS Standard for CIW Principles.**

The UAW TOS Coordinator will work with the TOS Manager, **Department Management staff, and employees** to resolve obstacles relating to TOS at the plant level. Unresolved matters will be escalated directly to the UAW Shop Chairperson and the Plant Manager. The TOS Manager and the UAW TOS Coordinator will work with the Corporate TOS Department to improve all aspects of TOS, **TOS Plus** /Lean Principles within the Cleveland facility and **CTS facility**. The UAW TOS Coordinator will periodically support team huddle meetings, Department Meetings, Plant Information Meetings, SCM Meetings, **GEMBA walks**, TIP Review Meetings and other shop floor meetings as necessary, **on all shifts that are operational at the Cleveland and CTS facilities, to include the Clerical Unit at CTMP.**

AF

It is understood that the TOS Manager and the UAW TOS Coordinator's involvement will be shared in the annual TOS assessment. Findings and recommendations from the TOS assessment will be documented and communicated within 45 calendar days upon receipt of the report by the TOS Manager ~~to the~~ and UAW TOS Coordinator, to the Plants Management Staff, and UAW Shop Chairperson. The UAW TOS Coordinator will ~~and the TOS Manager may independently~~ perform random internal plant audits on TOS Principles. These findings will be documented and communicated to the ~~respective Department Manager~~ Plant Management for containment and countermeasure assignments. The TOS Coordinator could be assigned specific TOS or Lean Projects by the Shop Chairperson. The scope of these assignments will be discussed with the Plant Manager.

The UAW TOS Coordinator will be made aware of containments and countermeasures and will work as a liaison between the Company and the UAW to ensure that there are no misunderstandings or questions in regards to the changes made in the process(es). This will also apply to any and all plant wide TOS Projects by Departments.

To ensure the UAW TOS Coordinator is sufficiently prepared to operate effectively in this role, a sincere effort will be made to ensure the UAW TOS Coordinator is aware of changes made within the TOS structure. The Plant TOS Manager will provide all relevant and requested required information regarding TOS Events (to include MRG) or any situation the TOS Management Team is involved in to the UAW TOS Coordinator in a timely manner. Continuous improvement at other facilities known for excellence in TOS implementation will be source for ongoing improvement and knowledge for the UAW TOS Coordinator. Reasonable and approved travel expenses will be paid by the Company. Expenses need to be in compliance with DTNA Travel Policy.

Finally, the parties pledge their on-going commitment to support this position, its development, and of it's the positive impact TOS development has on the Plant and UAW Local 3520's membership.

#### **TOS Events**

~~During 2010 negotiations, Management and Union discussed the importance of participation in TOS Events by hourly employees. Management will determine the desired number of Bargaining Unit employees to ensure a successful TOS Event.~~

~~Manpower requirements will be based on what type of TOS Event is needed. "Team Driven" TOS Events will be managed by each team(s). "TOS Workshop Events" incorporate more depth and content. Support for this type of TOS Event will incorporate a volunteer list that will be posted on each Department's board. The volunteers are understood as "TOS Rotational" positions which may not necessarily come from the Department that the TOS activities are occurring. A Team Member desiring to volunteer for the TOS Event must sign the voluntary signup sheet prior to the sheet being taken down. Volunteers will be solicited by the most senior team member on a "rotational" basis that is able to perform the work. The intent of this process is to provide the necessary knowledge to team members to effectively improve the implementation pace and develop the work force skills for the overall TOS philosophy.~~

~~Duration of this temporary placement into TOS rotational positions will be based on a one hundred and twenty (120) "working day" process. If for any reason the team member(s) are assigned to production it will not count towards the one hundred and twenty (120) working day agreement. Management and the UAW TOS Coordinator will monitor daily the placement of all team~~

members that are involved with this process to ensure compliance.

From 2008 to current, Cleveland TMP has been focusing on process waste elimination and job load as part of a TOS Workshop Practice. Upon completion of TOS Workshops that were focused on process reduction, area team members were reduced when work was being rebalanced. During the 2010 negotiations the parties discussed this situation and agree that employee(s) reduced who do not have the seniority to maintain a position in the work group or department will first be assigned to TOS Rotational positions providing no openings exist in other areas, the reduced employee is able to perform the work and if Rotational positions are needed. If not then the manpower reduction process as outlined in Article 11 will be followed.

When practical and resources allow, an ergonomic job assessment will be conducted in conjunction with TOS Work Shop Events. All concerns from the ergonomic assessment that are identified will be documented and presented to the Company Safety Representative and UAW Health and Safety Representative.

Volunteers into the TOS rotational positions will be limited to one (1) volunteer per classification higher than a grade pay four (4) within the work group. Exceptions may be granted with Management's approval. Such exceptions will be communicated to the UAW TOS Coordinator.

Both parties agree that specific provisions (overtime, vacation, shift preference, displacement/recall rights, insufficient volunteers, etc.) relating to the TOS Rotational positions will be mutually agreed upon when the need arises.

Employees wishing to be selected for the TOS Rotational positions cannot be in the Attendance Control Program at the time of selection.

Employees selected to be in the TOS Rotational positions will be paid a grade five (5) rate of pay to commence on their first (1<sup>st</sup>) day in the TOS Rotational position and to cease on their first (1<sup>st</sup>) day out of the TOS Rotational position.

#### TOS Implementation Team Member

It is understood by both parties that this position is still evolving. This position will be responsible for assisting in the implementation of TOS Principles.

- Support Plant Maintenance Dept. with prototype (80/20) stationary racks and workstation development and warehouse on wheels designs and trials for production and logistical needs.
- Support TOS Dept. with training and development of 120 day Rotational Team Members and all departments with Pick-2-Light.
- Implement improvements through new station layouts and have the ability to work modified schedules as needed on all shifts that are operational at the Cleveland facilities.
- Use SQDCME metrics to assist with plant standards audits and assessments to help Plant Departments achieve adherence to TOS, TOS+ Assembly Logistical Principles, and DTNA Safety/Ergonomic standards.

#### TOS OU Trainer

It is understood by both parties that this position is still evolving. This position will be responsible for assisting in the improvement of training.

- Deliver New Employee Orientation training for performing respective jobs in a satisfactory manner.
- Assist in preparing, acquiring, or developing training materials and equipment for each training course and present training programs to designated trainees as required.
- Ability to work modified work schedule as needed on all shifts that are operational at the Cleveland facilities.
- Assist Department in development of training plans to achieve and sustain 3x3 levels within teams, assist in assigning skilled matrix level 4 trainers to trainees, and ensuring trainees' 7 step documentation is complete.

#### TOS Events

During 2024 negotiations, Management and Union discussed the importance of participation in TOS Events by hourly employees. Management will determine the desired number of Bargaining Unit employees to ensure a successful TOS Event. Manpower requirements will be based on what type of TOS Event is needed.

- "Lean Expert Projects (LEP)" will be managed in accordance to the project charter. Support for a LEP may consist of team members from the area where the activities are occurring & TOS Implementation Team Members.
- "Team Driven" TOS Events will be managed by each team(s) Department Management staff. Support for this type of TOS Event will incorporate a volunteer list that will be posted, for a mutually agreed upon timeframe, on each team board in which the event is occurring. A Team Member desiring to volunteer for a Team Driven TOS Event must sign the voluntary signup sheet prior to the sheet being taken down. Volunteers will be solicited by the most senior team member on a "rotational" basis that is able to perform the work.
- "TOS Workshop Events" incorporate more depth and content and will be managed by the TOS Manager. Support for a TOS Workshop will incorporate TOS Implementation Team Members and/or TOS Rotational Team Members. When practical and resources allow, an ergonomic job assessment will be conducted in conjunction with TOS Workshop Events. All concerns from the ergonomic assessment that are identified will be documented and presented to the Company Safety Representative and UAW Health and Safety Representative.
- A "TOS Event" will be managed by the TOS Manager. Support will consist of a

AF

combination of TOS Implementation Team Members and Rotational Team Members. The volunteers are understood as "TOS Rotational" positions which may not necessarily come from the Department that the TOS activities are occurring. The intent of this process is to provide the necessary knowledge to team members to effectively improve the implementation pace and develop the work force skills for the overall TOS philosophy.

TOS Rotational Positions

During previous negotiations the parties agreed that employee(s) reduced who do not have the seniority to maintain a position in the work group or department will first be assigned to TOS Rotational positions providing no openings exist in other areas, the reduced employee is able to perform the work, and if Rotational positions are needed. If not, then the manpower reduction process as outlined in Article 11 will be followed.

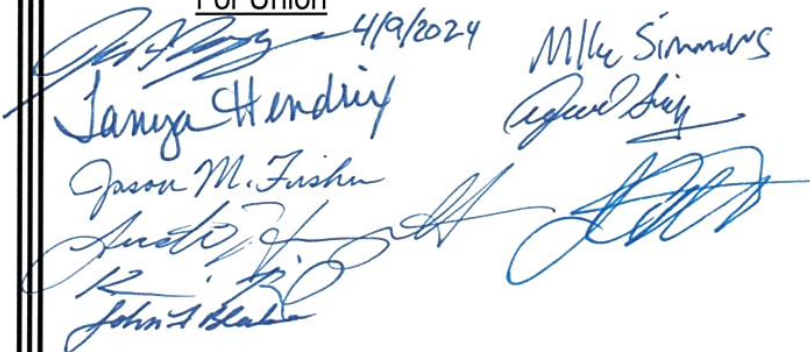

TOS Rotational volunteers will be selected using the Article 12 Job Posting process. Awards for these positions will go to the most senior team member on a "rotational" basis. Those awarded these temporary positions will not be charged a job bid and retain all rights to the position from which the team member volunteered.

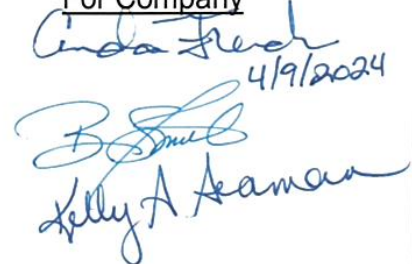

Volunteers into the TOS rotational positions will be limited to one (1) volunteer per classification higher than an Assembler pay grade within the work group. Exceptions may be granted with Management's approval. Such exceptions will be communicated to the UAW TOS Coordinator. Both parties agree that specific provisions (overtime, vacation, shift preference, displacement/recall rights, insufficient volunteers, etc.) relating to the TOS Rotational positions will be mutually agreed upon when the need arises. Employees wishing to be selected for the TOS Rotational positions cannot be in the Attendance Control Program at the time of selection. Employees selected to be in the TOS Rotational positions will be paid a 1 grade higher than their current rate of pay, unless employee is in the highest grade, to commence on their first (1<sup>st</sup>) day in the TOS Rotational position and to cease on their first (1<sup>st</sup>) day out of the TOS Rotational position.

Duration of this temporary placement into TOS rotational positions will be based on a one hundred and twenty (120) "working day" process. If for any reason the team member(s) are assigned to production, the reassignment will not count towards the one hundred and twenty (120) working day agreement. Management and the UAW TOS Coordinator will monitor daily the placement of all team members that are involved with this process to ensure compliance.

LETTER OF UNDERSTANDING  
"DONNING DOFFING"

During the 2018 **2024 contract** negotiations, discussions were held concerning employees who are required to don/doff unique protective equipment (PE) because of internal policies or state or federal regulations and the requirement to be compensated for the time spent donning and doffing the equipment.

It was mutually agreed that in areas of the facility where the "donning and doffing" of protective equipment cannot be done during the hours of work, specifically fully encapsulated breathable air suits in chassis paint, those employees involved will be compensated five (5) minutes of time and one-half. The five (5) minutes of overtime will be in addition to the scheduled hours and will not count towards the maximum hours of mandated overtime allowed per calendar month in Article 8, Wage Rates and Overtime of the Collective Bargaining Agreement.

## TENTATIVE AGREEMENT Cleveland TMP

### LETTER OF UNDERSTANDING JOB BALANCING/ADJUSTING WORK WITHIN A TEAM

During the 2018 ~~2024~~ negotiations, the parties discussed the necessity of a written standard for clarification of the appropriate steps required in job balancing and adjusting work within a team.

~~The basic process currently exists but does not require written documentation to provide transparency to Management or the Union.~~

In order to fairly move or balance work with the plant processes, the following steps will be followed to properly evaluate and job load Team Members. ~~This will help reduce the impact to the assembly/support processes due to work movement and balancing without using proper data or analysis.~~ This process applies during normal operating times and does not include entire line rate changes.

#### ~~Job Balancing Process:~~

#### ~~Analyze:~~

- Current **and future** job load will be determined using an analysis tool (Multi Moment, Yamazumi, SWI with times, Cycle timing, JES times)
- ~~• Times for new work steps or steps to be moved will be determined using an analysis tool (Multi Moment, Yamazumi, SWI with times, Cycle timing, JES times)~~

#### ~~Notification:~~

- Team Members who will be impacted will be notified of a possible rebalance of work
- Input from impacted Team Members will be solicited to help determine the best method of moving/rebalancing work

#### ~~Trial of Rebalance:~~

- Trials will be conducted to prove rebalanced times are below Takt time after implementation and learning curve.
- SWIs will be updated to reflect the new process
- Moving Work Sign Off Sheet will be completed and turned in to UAW office

LETTER OF UNDERSTANDING JOB SECURITY – CLEVELAND TMP AND  
PLANT CLERICAL

During these negotiations, the Union and the Company devoted much time to discussing the future viability of the Cleveland Truck Manufacturing Plant relative to Daimler Trucks North America's Heavy Duty Freightliner Cascadia, Argosy, Century Class and Columbia product lines and the Company's ability to maintain the flexibility to manufacture such products in the most efficient manner and location.

In consideration of the Union's concerns regarding job security at Cleveland, the Company reconfirms its commitment to the Cleveland facility by including this Letter of Understanding in the **2024** Labor Agreement.

The Company commits, for the term of the **2024** Labor Agreement, to build at the Cleveland facility a Base Level Average (BLA) of seventy- eight (78) trucks each day, **with a ramp to seventy-nine (79) by the end of Q3 2024 and to eighty (80) trucks by the end of Q1 2025**, calculated on a monthly basis as described in this Letter of Understanding and subject to the following definitions, schedules and conditions:

1. Definitions – for the purposes of this Letter of Understanding, the following terms shall have these defined meanings, regardless of the meaning of such terms in any other context.
  - a. "Trucks" shall mean:
    1. Freightliner Cascadia **and/or Western Star** chassis or new model replacement ordered for delivery and ultimate domicile within the United States or Canada, whether as a complete chassis or as a glider kit.
    2. All Argosy chassis ordered for delivery worldwide.
    3. Century Class/Columbia right hand drive export chassis ordered for delivery and domiciled in Australia, New Zealand and South Africa, whether as a complete chassis or as a glider kit.

However when calculating the BLA, as defined in Section 2(a) below, total number of Trucks shall include all Trucks Built regardless of whether the trucks are ultimately domiciled in the US or Canada or elsewhere, including product models not specifically named in this section.

- b. "Work Day" shall mean every Monday through Friday, excluding holidays.
  - c. "Trucks Built" shall mean Truck chassis started.
2. Number of Vehicles to be Built.
  - a. The BLA for a given calendar month shall be calculated by dividing the total number of Trucks Built in the calendar month by the number of Work Days in the same calendar month.
  - b. The Company shall be entitled to build less than the BLA, without any liability for breach of this LOU, so long as no Trucks are built at any other location.

- c. In the event that the Company anticipates that the calculation set forth in 2(a) and 2(b) above will result in a BLA below seventy-eight (78) **through September 30, 2024, seventy-nine (79) between October 1, 2024 and March 31, 2025, and eighty (80) as of April 1, 2025,** for a given month, the Company shall meet with the Union to discuss how best to address the shortfall without a temporary shutdown of the facility and/or a layoff of employees. The parties understand that the facility might produce no trucks and/or have extended periods of temporary shutdown. In such circumstances, the parties may modify the required number of Trucks Built necessary to comply with this Letter of Understanding by executing a written document signed by a representative of the local Union and the Company setting forth such modification. Each such written document shall only apply to the single month specified in the document.
- d. The calculation in Section 2(a) above shall not include as a Work Day any day that would otherwise be a Work Day when such day is affected by a circumstance beyond the reasonable control of the Company, including, but not limited to, acts of God, weather, outbreak of disease, war, supplier insolvency or failure, unavailability of essential components, equipment failure, power failure, or intervention of local, state, or Federal government. In all cases where a Work Day is impacted by such circumstance, the Company shall meet with the local Union Representatives to discuss how best to address the shortfall.

3. Conditions:

- a. Reporting to the Company – By the fifth (5<sup>th</sup>) day of each calendar month, the Company shall deliver to the Union a calculation of the number of Trucks Built each day during the prior calendar month and the total number of Work Days in the preceding calendar month.
- b. The BLA is intended by the Company to be a floor on the level of production of trucks at the Cleveland facility assuring a minimum level of production in the absence of severe economic conditions. The Company commits to increase production at the Cleveland facility above the BLA levels established in this Letter of Understanding, but the parties acknowledge that such increase may not be permanent.

**LETTER OF UNDERSTANDING MOVING WORK**

During the 2018 2024 negotiations it was discussed the need for separate language regarding the movement of employee(s) due to work being reassigned from one team to another team or from a work group to another work group or from one Department to another Department. Providing additional manpower is required in the area the work is moving to the following process will be followed:

- 1) By seniority employees in the team and classification that are affected by the moving of the work will be offered the opportunity to be reassigned to the team where the work is being relocated.
- 2) If no one in the team volunteers to be reassigned to the team where the work is being relocated within the department the opportunity will be offered by seniority to the employees in the work group and classification affected by the moving of the work.
- 3) If there are no volunteers from the team or work group the least senior employee in the work group and classification will be moved to the team to which the work has been relocated. However, other classifications within the workgroup may invoke their seniority to be reassigned where the work is being relocated forfeiting displacement rights to the workgroup and classification they are leaving.
- 4) If the work is being moved to another Department the employees in the workgroup and classification affected by the moving of the work will be offered the opportunity in seniority order to be reassigned to the Department the work is being relocated to. However, other classifications within the workgroup may invoke their seniority to be reassigned where the work is being relocated forfeiting displacement rights to the workgroup and classification they are leaving, save and except joint selection processes or specialized required skill classifications.
- 5) If subsequent openings remain in the work group (from where the work moved) and the affected team continues to have excess manpower the least senior members from the reduced team will fill those vacancies in seniority order. Employees who are involuntarily displaced through this process will have displacement rights back to their workgroup and classification.

If no additional manpower is required in the area the work is moving to and there is still a need to reduce in the area the work came from Article 11 Reduction in Manpower will be utilized.

In the event that the movement of work is occurring due to layoff, recall or reduction in manpower Article 11 will supersede this Letter of Understanding.

LETTER OF UNDERSTANDING NEW TECHNOLOGY

During the 2018 2024 contract negotiations, the Union expressed concerns about the impact new technology on job security for the Cleveland Truck Manufacturing Plant represented office work force. The Company recognizes that job security is an important consideration for all employees. The Company also recognizes the importance of communicating plans that could impact job security to the Union in a timely manner. The Company's goal is to protect jobs for Company employees and utilize Company facilities to the extent practical, understanding that it must balance employee concerns against the business environment in which we must compete.

In addition, the Union expressed concern regarding the introduction of new technology and the issues related to its implementation. If the Company plans the introduction of new or advanced technology, the local parties will meet so as to permit meaningful discussion of the impact of the technology, if any, upon employees. When new technology will simply replace current technology the employees are using (e.g. an updated version of Windows), employees will be trained on the new technology.

It is also understood that the Company will make the final decision on work design, new technology implementation, and expenditures of capital investment funds.

**LETTER OF UNDERSTANDING  
QC INSPECTOR, QA LAB, QC AUDIT, AND CAT SELECTION**

The parties recognize the roles and responsibilities of a QA Lab employee, Audit-Customer Feedback and CAT member often involve specific duties that require a higher level of understanding of the truck manufacturing process and expertise when dealing with daily assignments related to these roles. These roles require the ability to interpret items such as drawings, specifications, ~~GMT~~ **GM&T** analysis, dealer reports, corrective/quality action requests, warranty data, and interactions with external contacts such as dealers, customer, and suppliers. As a result, the parties acknowledge the selection criteria for a job posting in one of these positions cannot be based on seniority alone. Both parties agree for future postings to determine qualifications based on a validated evaluation/testing criteria. Said positions will be filled using a Joint Selection Committee comprised of an equal number of designated members from the Company and the Union.

The Company will provide essential training materials (through Company established study guides) to ensure employees seeking promotional opportunities (into QC Inspector **and QC Audit** positions) will have access to necessary data to obtain entry level knowledge. #### CTS OFF-SITE AGREEMENT

- A. The UAW CTS Shop Chair will be notified when off-site work is agreed to by Management and it requires hourly employees to travel. Any work off site in which employees report to Cleveland CTS at shift start and return by shift end will be treated as standard daily work and subject to the standard work assignment procedures.
- B. Selection of employees for off-site work will be performed on a voluntary "most senior qualified" basis as outlined below. If the selection process does not result in a sufficient number of volunteers, no employee can be forced to work off site unless the hours of work fall within the normal operating hours for CTS.

This discussion will outline the required skills for volunteering based on the off-site work being performed. If the off-site work does not clearly fall into one of the CTS classifications, a decision will be made between Management and the UAW CTS Shop Chair to determine the classification from which the primary solicitation will be made.
- F. Available training matrix scores for the volunteers will be reviewed if work being performed is standard Tech I or Tech II work as defined on the training matrix. In order to be eligible for off-site work, the employee must have a matrix score of three (3) or higher for the job(s) being performed off-site. If the training matrix scores have not been updated within the previous month, the specific job scores required for the off-site work will be reviewed between Management and the UAW CTS Shop Chair before solicitation begins. If the work being performed is not a specified job on the training matrix, selection will be based on classification and seniority alone.
- G. With regard to expense reimbursement, employees will be reimbursed per the DTNA Travel and Reimbursement guidelines in use at the time. Expense reports will be completed in the Reimbursement System by CLE- CTS Office Administration following the off-site workers return. It is further understood that employees must maintain accurate records for expense reimbursement including the retention of all receipts.
- H. All volunteers who perform off-site work will be supplied a copy of the DTNA "Code of

BACK FILLING THE YARD DOG CLASSIFICATION**

- a) When a Yard Dog is absent for four (4) or more hours of a scheduled work-day workday and the Company finds it necessary to temporarily reassign another employee to the classification for the day, Management will first give the option to anyone who is currently displaced from the Yard Dog classification before selecting another employee to back fill off of the daily manpower adjustment sign-up sheet. During periods of voluntary overtime for Saturday, Sunday, and/or Holiday when PDI lanes are operating and/or truck moves requiring CDL holding drivers are to take place, the Company agrees to have at least one Yard Dog present to move trucks. If a yard dog is brought in for overtime and Management determines there is no work available moving trucks, that person or persons will be moved to another job within the shop or have the option to leave early with no penalty to the employee or Company. In the event there are no volunteers, overtime can be mandated within the Yard Dog classification.
- d) In instances where there is a need to only backfill the Yard Dog classification for less than four (4) hours, an employee from the daily manpower adjustment sheet who does not possess a CDL can be placed with the Yard Dog classification to drive the shuttle vehicle for the duration of time needed to minimize the impact on daily production.

#### CTS Certified Welder Compensation

1. In the 2024 negotiations the Union and the Company discussed in depth the need for Daimler CTS certified welders as this is vital to the type of work being performed at CTS. To be considered a Daimler Truck CTS certified welder the employee must have performed and passed a Daimler Truck facilitated welding test in all three (Flat, Vertical-Up, & Overhead) positions and performed structural welding in a Daimler Truck production setting in a period not exceeding 6 months. Due to the ever-changing nature of this scope of work the Company and Union agree that these requirements may change. In the event of a requirement change, the Company agrees to notify and provide adequate documentation supporting those changes to the CTS Shop Chairperson.

2. (Open) AF GF

3. The number of employees allowed to receive the forementioned compensation depends solely on the business needs of the Company and is subject to change based on those needs. Job Security

During the 2024 negotiations, the Union and the Company discussed the future viability of the Cleveland Custom Truck Services Department and it is the Company's Intent to maintain operations at the Cleveland, NC CTS facility. The Company is committed to growing the business at Cleveland CTS providing job security and profitability for all employees at the facility. CTS production volume emanates from plant BLA language but is ultimately determined by the dealer/customer base as they have a choice in who performs work after factory release. The Company agrees if business volume dictates the need to decrease CTS headcount below the level necessary to support the plant agreed to BLA (Base Level Average) or, if the penetration rate for CTS falls below 45% for a period of Sixty (60) days or more, prior to a lay-off being determined the Company will meet with the Union at 30 days to work together to figure out options to avoid or mitigate job loss within the CTS facility.

*JS*

*JK*

It is further understood by the Company and the Union that, in all we do, day in and day out, our focus must be on effective and efficient operations. To do so we must always demonstrate we care about and hold ourselves accountable for:

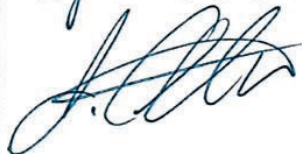

- Every employee and their safety.
- The quality of the service and product we put out.
- Timely and efficient completion of customer work with accurate logging in and out of work orders
- The reputation of the business both internally and externally.

The Leadership of this CTS pledges to work together to make the CTS Facility effective and efficient by:

- Working safely
- Putting the customer first through the quality and integrity of our work.
- Keep every employee in mind when making business decisions.
- Make cost effective decisions.
- Jointly work together with the Union on improving employee morale.

This statement of intent will guide us in all we do in our daily activities and our relationships with each other and embracing these principles will ensure the Cleveland CTS facility will be able to sustain job security for years to come.
