TENTATIVE AGREEMENT

PREAMBLE

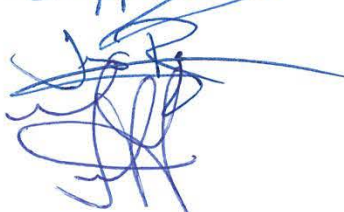

Section 1. The successful operation of the Company's business is hereby declared to be of mutual interest and both parties hereto desire to preserve, promote, and improve industrial and economic relationships, safety, cleanliness and economy and to improve and increase the quantity and quality of work performed. The Company and the Union recognize the principle of a fair day's work for a fair day's pay.

Section 2. The Company and the Union recognize the principle of a fair day's work for a fair day's pay. In general, a fair day's work is one that is fair to both the Company and the employee. This means that the employee should give a full day's work for the time that he or she gets paid, with reasonable allowance for personal delays and fatigue. He or she is expected to operate in the prescribed method at a pace that may be considered representative of all-day performances by the experienced, cooperative employee.

TENTATIVE AGREEMENT

ARTICLE 5 SENIORITY

Section 1. An employee's seniority shall be computed from the time of initial employment by the Company in any capacity within the Bargaining Unit, except that a new employee shall be on probation for the first sixty (60) days worked. A day of work is defined as four (4) or more hours worked. After the sixty (60) days worked, a new employee shall be placed on the seniority list and given a seniority rating as of the first day last hired by the Company. Retention or termination of probationary employees shall be at the Company's sole discretion and specifically excluded from the grievance procedure except in cases related to illegal discrimination or Union affiliation. In cases of alleged illegal discrimination or Union affiliation, the probationary employee will have access to the grievance and arbitration procedure.

Section 2. Seniority shall be lost and employment terminated for any of the following reasons:

- A. Voluntary resignation;
- B. Discharge for just cause;
- C. Retirement;
- D. Three (3) working days unreported (absence without notification to the Company for three (3) consecutive working days) unless the absence is of such a serious nature that it was impossible for the employee to provide or arrange for the provision of the required notification to the Company and is substantiated by medical documentation;
- E. Absence for five (5) consecutive working days without a reasonably satisfactory excuse;
- F. Failure to report to work within three (3) working days following notification of recall from layoff. However, it is understood and agreed to by the parties that this three (3) working day rule will be automatically extended to fourteen (14) calendar days if the laid-off employee has taken work with another company during such period of layoff.

The only use of temporary seniority employees in this Agreement shall be as defined below:

1. Temporary seniority employees shall only be used as summer vacation replacements.
2. Employees who are on layoff who decline the opportunity to return for temporary summer employment shall not lose seniority.
3. Employees who do return to temporary summer employment shall retain their original layoff date.
4. Each year laid off employees will be offered temporary summer employment from May 1st through September 30th beginning with the most senior employee on layoff and in descending order thereafter. Any extensions beyond September 30th will be done through mutual agreement by both parties.
5. Temporary seniority employees may exercise shift preference among other temporary seniority employees by seniority at their time of initial placement. In the event it is necessary to transfer temporary seniority employees outside their initial work group, it will be done in consideration of seniority and their ability to do the work.
6. Temporary seniority employees will be paid the current step progression rate at which they

15

4/13

had at the time of layoff for the job being performed and all time worked will count towards the next pay step progression.

7. Temporary seniority employees will not fill positions in departments with displaced employees before first offering the opportunity to senior employees currently working in the plant prior to May 1st to return to their "home" department. Employees who decline to return to their "home" department during the employment of temporary seniority employees will not forfeit their displacement/homestead rights.
8. Such employees will not be subject to shift displacement by seniority employees by Article 13.
9. Such employees will not be eligible for provisions of Article 12.
10. Notification requirements regarding temporary seniority employees will be the same as required regarding other Bargaining Unit employees per Article 4.
11. Maximum amount of temporary seniority employees hired for vacation replacements will not exceed the number of employees needed to fill the highest week of vacations entitlement during the five (5) month period.
12. All other provisions of the Agreement will apply to these employees.

G. Layoff or medical leave of absence for a continuous period of time exceeding the applicable accumulation limit. Seniority shall continue to accumulate during periods of layoff or medical leave of absence for an employee with seniority for a period equal to such employee's service with the Company or a minimum of thirty-six (36) months. During the 2018 ~~2018~~ **2024** negotiations, it was agreed that during the life of this Agreement, no employee will lose seniority due to layoff.

Section 3. It shall be the responsibility of the employee to keep both the Company and the Union informed of their current address and telephone number. During periods of layoff, the employee shall provide notice in writing of any change in address and telephone number. Failure on the part of the employee to keep the Company informed of the correct address releases the Company of any responsibility of any backpay liabilities for failure to be recalled by seniority. Upon notice of recall by certified mail, (return receipt requested) the employee shall report to work within three (3) working days. The three (3) working days provision may be extended at the Company's discretion upon reasonable and acceptable proof of failure to report to work but not to exceed fourteen (14) calendar days.

Notice of loss of seniority and termination will be given to the employee involved at the employee's last known address, in writing, promptly after an entry to that effect is made in the personnel records of the Company.

Section 4. A seniority list shall be prepared by the Company every three (3) calendar months for all employees covered by this Agreement and posted in one (1) agreed central location in each plant. The Union shall receive a copy of this list. The employee with the most Company seniority will be first on the list and the employee with the least Company seniority will be the last. During periods of layoff, a seniority list of employees on layoff will similarly be provided to the Union.

Should any objections arise to seniority listing, such objections shall be made within thirty (30) days after posting the roster, with the exception that any employee who is on any approved leave or layoff at the time of posting the roster shall have a thirty (30) day period after returning to work to enter

CM

such objection.

Section 5. Employees who are transferred or promoted to positions within the Company outside of the Bargaining Unit and are subsequently separated from that job will not have the opportunity to return to a job in the Bargaining Unit.

ARTICLE 6 GRIEVANCE AND ARBITRATION PROCEDURE

The Union and the Company encourage all employees to discuss and fully disclose to their Supervisor any problem or complaint in an effort to resolve such problem or complaint before resorting to the grievance procedure. If after the employee has shared the facts of the matter with his Supervisor, he requests his Shop Committeeperson, the Company will summons the Shop Committeeperson and no further inquiries will be made by the Company until the Shop Committeeperson arrives.

Should a grievance occur, all parties involved should make an earnest effort to ascertain the facts and seek a fair and equitable settlement through the use of the following procedure. Neither party will burden the formal grievance procedure with insignificant matters or cases unsupported by the facts or common sense.

If the complaint is not raised within two (2) working days, it shall be deemed abandoned and not entitled to consideration thereafter, unless the employee(s) were not aware of the facts leading to the grievance.

Group grievances will be entered at Step 2 of the Grievance Procedure.

Policy grievances will be entered at Step 3 of the Grievance Procedure.

Section 1.

Step 1. In the event that the complaint is not settled between the employee and his immediate Supervisor within twenty-four (24) hours of the time it is raised, it will be reduced to writing on an agreed upon form provided by the Union, and presented to the employee's Supervisor by the Shop Committeeperson. The Supervisor's answer will be given in writing to the Shop Committeeperson and/or placed in the designated box within three (3) working days after receipt of the grievance.

Step 2. If the grievance is not settled at Step 1, it may be presented to the Department Manager by the Shop Committeeperson within three (3) working days after receipt of the Supervisor's answer in Step 1. The Department Manager's answer will be given in writing to the Shop Committeeperson and/or placed in the designated box within three (3) working days.

Step 3. In the event the Department Manager's answer is not satisfactory, the Shop Chairperson may, within five (5) working days of the Department Manager's answer, request a meeting in writing with the Human Resource Manager or designee to seek resolution of the grievance. The Step 3 meeting may include representatives of the Human Resource Department and other management representatives as deemed necessary and, the Union Shop Chairperson and the Committeeperson who has handled the grievance in Steps 1 & 2 above and other appropriate witnesses as deemed necessary. This group shall meet as soon as practical but, no later than ten (10) working days of receipt of written request. The Company's answer will be given within five (5) working days of the conclusion of the Step 3 meeting.

Step 4. Regional Review Step: In the event the Company's answer is not satisfactory, the Shop

KS

rd

Chairperson may, within five (5) working days request a meeting in writing with the Human Resources Manager or designee to seek resolution of the grievance. The Step 4 meeting will include the Plant Manager or his designee, the Human Resources Manager or his designee, and other Management representatives as deemed appropriate by the Company; also included will be one (1) or two (2) Representative(s) of the International Union, the Shop Committeeperson involved in previous grievance steps, Shop Chairperson, and the local Union President. The Shop Chairperson may bring an additional representative(s) as deemed necessary by the Union. This meeting will be scheduled within ten (10) working days of the written request from the Shop Chairperson for the 4th step meeting. The Company's answer will be given within five (5) working days of the conclusion of the 4th step meeting.

The Regional Representative upon receipt of the 4th Step Company answer shall have thirty (30) calendar days to settle, withdraw or appeal the grievance to the Arbitration Step of the procedure or the UAW Heavy Truck Department. Upon receipt, Representatives from the UAW Heavy Truck Department shall contact DTNA Corporate Labor Relations in an attempt to dispose of the grievance.

Step 5. Arbitration: Region and/or UAW Heavy Truck Department. If the matter is one subject to arbitration as provided in Article 2, Management's Rights, or one involving the discharge and discipline of employees pursuant to Article 15, Discipline and Discharge, hereof, and all conditions satisfied, including applicable time limits, then the Union may, within sixty (60) working days of the Company's answer in Step 4, request that the grievance be submitted to an arbitrator for determination pursuant to Sections 2 through 6 hereof. The fact that the Union does not request arbitration within the allotted time, or the fact that a grievance is withdrawn by the Union, will be without prejudice or precedent to either party.

Section 2. The written request for arbitration of a matter, which is arbitral under the terms of this Agreement, shall set forth the nature of the grievance. The ~~Union~~ Company will submit a form to the FMCS requesting a panel of seven (7) arbitrators within ten (10) working days of the request of the Union (Company will pay the cost of submitting the form). The Company and the Union shall within ten (10) working days, select the arbitrator by striking from the panel until only one (1) name remains on the list. The name of the arbitrator remaining on the list shall be deemed as accepted by both parties.

Section 3. The arbitrator so selected shall schedule a prompt hearing at which time he shall have the power to make determinations of fact on the questions submitted to him and apply them to the provisions of the Agreement alleged to have been violated, so long as the matter is one which is subject to arbitration under the terms of this Agreement and so long as it is submitted to him in accordance with the procedure herein specified. In interpreting and applying the provisions of this Agreement which are subject to arbitration and in making findings of fact in connection therewith, the arbitrator's interpretation must be in accordance with the terms of this Agreement.

No arbitrator shall have the jurisdiction or authority to add to, take from, nullify or modify any of the terms of this Agreement or to impair any of the rights reserved to management under the terms hereof, either directly or indirectly, under the guise of interpretation; nor shall he have the power to substitute his discretion for that of management in any manner where management has not contracted away its right to exercise discretion. The arbitrator shall be bound by the facts and evidence submitted to him and may not go beyond the term of this Agreement in rendering his decision. No such decision may include or deal with any issue or matter, which is not expressly made subject to arbitration under terms of this Agreement.

6/13

The decision of the arbitrator shall be in writing and shall be final and binding upon the parties when rendered upon a matter within the authority of the arbitrator and within the scope of matters subject to arbitration as provided in this Agreement.

The decision of the arbitrator shall be rendered in writing within thirty (30) calendar days after the close of the hearing or the date for submission of written briefs.

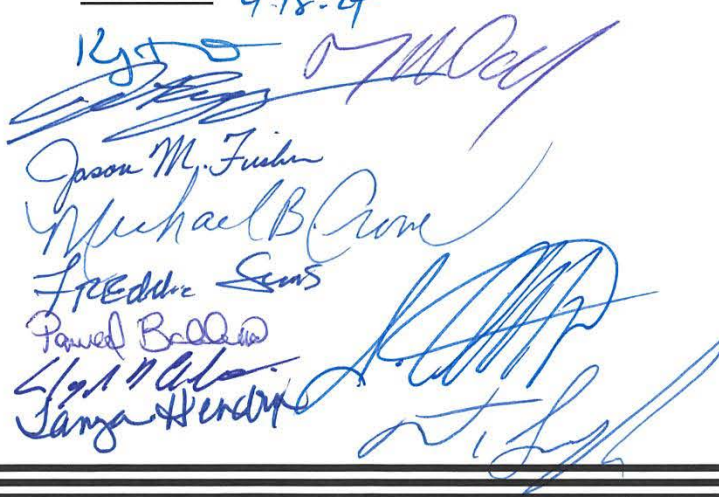

Section 4. Unless it is mutually agreed otherwise, each grievance, which is subject to arbitration, shall be handled by a separate arbitrator in a separate hearing, except grievances arising out of an identical set of facts or the same incidents may by agreement be heard together. It is further agreed that arbitration cases will be scheduled on a prioritized basis such that discharge cases or other potential back pay cases will be scheduled ahead of other pending cases.

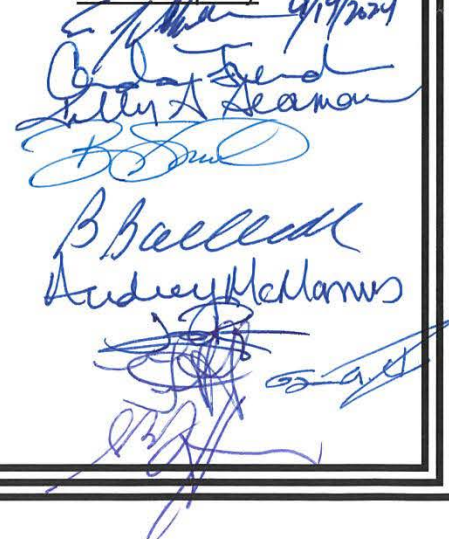

Section 5. The fees of the arbitrator and the necessary expenses (exclusive of payment to witnesses) shall be borne by the losing party. Each party shall pay the fees of his own counsel or representative. If an employee-witness is called by the Company, the Company will reimburse him for the time lost. The Company will also reimburse either the grievant or one (1) Union witness for time lost to attend the arbitration hearing. If other employee-witnesses are called by the Union, the Union will reimburse them for the time lost. Any non-employee witness will be compensated by the party requesting his appearance.

In the event an arbitrator is selected and a hearing date is scheduled and agreed upon by both parties and either party subsequently cancels such hearing, the party so canceling shall pay any cost assessed by the arbitrator.

Section 6. Except as noted in Article 5, Section 1, should it be determined that an employee, other than a probationary employee, was disciplined or discharged without just cause as provided in Article 15, Section 2, Discipline and Discharge, he shall be restored to his former status; provided, however, any unemployment compensation or other compensation or remuneration from any source shall be credited against any back pay award.

Section 7. In all cases, where agreed upon time limits appear herein, those time limits shall be strictly enforced. Such time limits may be extended only by mutual agreement in writing. Absent such agreement should the Union or its members default on such limits, the grievance shall be deemed as closed and not subject to further review.

ARTICLE 14 LEAVE OF ABSENCE

Section 1. Personal Leave

Personal leaves under this Article are defined as emergency and / or hardship leaves of absence. Employees with seniority may be granted personal leaves of absence, without pay, for up to ninety (90) days upon written request to the Company, stating the reason for the leave (the Local Union will be given notice within forty-eight (48) hours). Employees requesting a personal leave of absence due to emergency or hardship reasons will not be required to use accrued benefits (sick time, vacation time, etc.) when applying for such leave. It is understood and agreed that personal leave is separate and apart from any requirements under the Federal Family Medical Leave Act as stipulated in Section 5 of this Article.

Such leaves are subject to HR Manager or Plant Manager / PDI Manager approval, but will not be unreasonably denied if the Company's operations or requirements permit. Seniority shall continue to accumulate during the personal leaves. No personal leave of absence will be granted to employees who are incarcerated. Any employee who accepts other employment while on leave of absence will be considered to have quit his job. Any disputes will be addressed with the Company and appropriate Union Representative.

Personal leaves of absence without pay must be a minimum of three (3) workdays.

Employees in the Attendance Control Program with thirty (30) or more chargeable hours are ineligible for personal leaves of absence.

Personal leaves may be extended for an additional period of thirty (30) calendar days upon approval of the Company. Such leaves will not be unreasonably withheld. Any disputes will be addressed with the Company and appropriate Union Representative.

Section 2. Union Leave

The Union will notify the Human Resource and Department Manager in writing in the event it is necessary for employees to have a leave of absence to attend to Union business. The Union will provide such notice at least forty-eight (48) hours in advance when feasible. Such notice will stipulate the number of employees and the duration of the leave. Daily Union leave will not exceed twelve (12). Such leaves will be granted by the Company. Any alleged abuses will be referred to the Heavy Truck Division of the UAW.

The Company will consider more than the aforementioned number of employees when requested by the Union providing the request would not abnormally affect the operation of the plant.

For purposes of "compensation" under the pension plan, employees of the Company on approved Union Leave will be paid for such Union Leave time by the Company provided the Union shall promptly reimburse the Company monthly for all pay provided for time not worked.

Section 3. Medical Leave

91

Employees who are unable to work due to injury or illness will be granted a medical leave of absence, provided the employee completes the application for medical leave and presents medical proof of inability to work covering the period of disability. The minimum duration of medical leaves will be seven (7) calendar days. The maximum duration of medical leaves will be based upon employees' service with the Company to the same extent and period of time as they would maintain and accumulate seniority while on layoff.

Section 4. Military Leave

Employees who enlist in the Armed Forces of the United States or who otherwise are required to perform military service will be granted a leave of absence and shall be entitled to reinstatement to the extent and upon the conditions provided by applicable federal and state law.

Section 5. Federal Family Medical Leave Act

The parties recognize, understand and agree that the Federal Family Medical Leave Act, 107 Stat. 6, 29 USC 2601, took effect on February 5, 1994.

In some instances, FMLA leaves will be concurrent with leaves of absence covered by the Collective Bargaining Agreement, those cases where the employee is eligible for leave under the Daimler Trucks North America-UAW Collective Bargaining Agreement and the leave also qualifies under the FMLA, the Company intends to comply with the requirements of the FMLA as well as the separate provisions of the Collective Bargaining Agreement regarding covered leaves of absence.

- Automatically designate and apply absence time that is compensated under the short-term disability provisions of the Life, Disability and Health Care Benefits Program against an eligible employee's FMLA entitlement for up to two (2) weeks per calendar year.

Individuals placed in the Chronic Attendance Program will be subject to having any FMLA leave being taken concurrently with any paid leave the employee is entitled to including Paid Sick Leave, PTO, Vacation, and absence time that is compensated under the short-term and/or long-term disability provisions of the Life, Disability and Health Care Benefits Program.

Pursuant to the Company's present plan for compliance with the FMLA, the Company's rights under the act will be modified to:

- Employees seeking to use FMLA leave are required to provide thirty (30) day advance notice to take FMLA leave when the need is foreseeable and such notice is practicable. If leave is foreseeable less than thirty (30) days in advance the employee must provide notice as soon as practicable generally either the same or the next business day. When the need is not foreseeable, the employee must provide notice to the Company, via the third (3rd) party FMLA administrator, as soon as practicable under the facts and circumstances of the particular case, which should normally be within two (2) business days of the need for FMLA leave becoming known. Absent unusual circumstances, employees must comply with the employers' usual and customary notice and procedural requirement for requesting leave.

E/S

- Provide that an employee on FMLA leave will continue to accumulate seniority in the same manner as the employee also would be eligible under the Collective Bargaining Agreement, respectively, as appropriate.
- Permit, but not require employees to substitute vacation and/or paid sick leave in single day increments for unpaid FMLA leave.
- Provide that employees who are married to each other will be each entitled to a maximum of twelve (12) weeks of qualifying leave under the Act.
- If two (2) employees apply for FMLA for the same event regarding the birth, adoption, or placement of a child, the time permitted for the event will be divided between the individuals and in no case will exceed twelve (12) weeks.
- Continue Company-paid Group, Life, Accidental Death and Dismemberment, and Disability Insurance during all FMLA Leaves.

Problems related to the implementation of this letter may be discussed by the representatives of the UAW Heavy Truck Department and the Company's Employee Relations Staff.

Section 6. International Union Leave

Upon application, the Company will grant a leave of absence to such of its employees, who are appointed to the staff of the International Union, provided the Company is furnished with written certification of such appointment. The employee will continue to accumulate seniority and pension credits per the pension plan during such leave. The International Union will notify the Company, to the extent possible, thirty (30) days in advance of the expiration of such leave(s). Upon the expiration of such leave of absence, the employee on such leave of absence under this section shall be returned to the employee's job in line with the employee's seniority and shall receive the rate of pay prevailing for that job.

Section 7. Parent Involvement in School Leave

In conjunction with the North Carolina School Leave Law, four (4) hours of excused leave per student without pay will be granted per year to any employee who is a parent, or guardian of a school-aged child so that the employee may attend or otherwise be involved at that child's school or designated location.

- The leave shall be at a mutually agreed upon time between the Company and the employee.
- The employee must submit a written request for the leave at least forty-eight (48) hours before the time desired for the leave.
- The Company will require that the employee furnish written verification from the child's school or designated location that the employee attended or was otherwise involved at that school or designated location during the time of the leave.

Note: Sporting events are not covered under this law/provision.

TENTATIVE AGREEMENT

ARTICLE 15 DISCIPLINE AND DISCHARGE

Section 1. In the case of discipline, suspension or discharge, the Company agrees that an employee who shall have completed his probationary period provided for in Article 5, Seniority, shall not be disciplined or discharged without just cause. In all cases, a copy of written discipline notifications will be provided to the Union within twenty- four (24) hours of issuance to the employee. Employee requests for Union representation in accordance with the provisions of this Article shall be provided. Employees who elect not to be represented shall do so by signing the "waiver of representation" form provided by the Company in the presence of their Shop Committeeperson. The Union will be notified of suspensions and discharges at the time of such disciplinary meetings with employees. In cases where the immediate removal of the employee from the plant is required, the Union will be notified in writing of the disciplinary action within twenty-four (24) hours.

Grievances relating to suspension or discharge must be filed by the Union within five (5) working days from the date of notification, exclusive of Saturdays, Sundays, and holidays, and entered into Step 3 of the Grievance Procedure.

Section 2. Any employee who has been suspended or discharged may request the presence of his appropriate Shop Committeeperson to discuss the case with him in a private setting provided by the Company, unless the nature of his offense requires his immediate removal from the Plant. The Shop Committeepersons in said meeting will not experience a loss of earnings.

Section 3. The rights to discipline suspend or discharge employees shall remain in the discretion of the Company except that the Company shall have the burden to show such discipline, suspension or discharge was only imposed for just cause. Disciplines for violations of DTNA work rules and Company policies will be issued no later than fifteen (15) working days upon completion of the investigation.

Section 4. Disciplinary records will not be used for progressive disciplinary purposes after one (1) year from date of issuance. However, a break in active employment due to STD, LTD and layoffs will be extended time for time (e.g. employee who was disciplined in March 2010 and laid off or placed on disability in July 2010, recalled or returned from disability in January 2011, the discipline the employee received in March 2010 will be removed for the purpose of progressive discipline in September 2011 provided the employee has continuous employment).

Section 5. Where feasible, the Company recognizes that Shop Committeepersons are a valuable resource that can be used to assist in correcting an employee's negative behavior prior to issuing formal discipline. Supervisors will be strongly encouraged to utilize this resource.

Section 6. Standards for Discipline and Discharge

This letter memorializes the parties' understanding and agreement to the principles of "Just Cause" as referred to in the Collective Bargaining Agreement. The just cause principle entitles Bargaining Unit employees to "industrial due process" and consideration of specific mitigating and aggravating factors. The essence of the just cause principle is the requirement that the Company must have

some demonstrable reason for imposing discipline. The parties agree that industrial due process includes the following elements: (1) notice to the accused bargaining unit employee of the specific allegations of wrongdoing or misconduct; (2) an opportunity for the accused Bargaining Unit employee to respond to the allegations before any final disciplinary decision is made and imposed; (3) that the Company will conduct a prompt and thorough investigation; and (4) that the Company will render a decision and take action within a reasonable time based upon the nature and consequence of the allegations and circumstances involved in each situation.

The parties agree that the levels of discipline must be proportional and will depend on the nature and consequence of the Bargaining Unit employee's offense, the clarity or absence of rules, the length and quality of the employee's work record, and the practices of the parties in similar cases. Discipline must bear some reasonable relation to the seriousness and/or frequency of the offense. Discipline for all but the most serious offenses will normally be imposed in gradually increasing levels aimed at correcting the offending behavior. Serious offenses include, but are not limited to, theft, physical assaults, willful and serious safety breaches, gross insubordination, and significant violations of law on the Company's time or premises.

The parties further agree that the Company will provide the Union and the accused with all relevant evidence, to include exculpatory evidence, gathered and considered by the Company in its determination to take any disciplinary action against a bargaining unit employee.

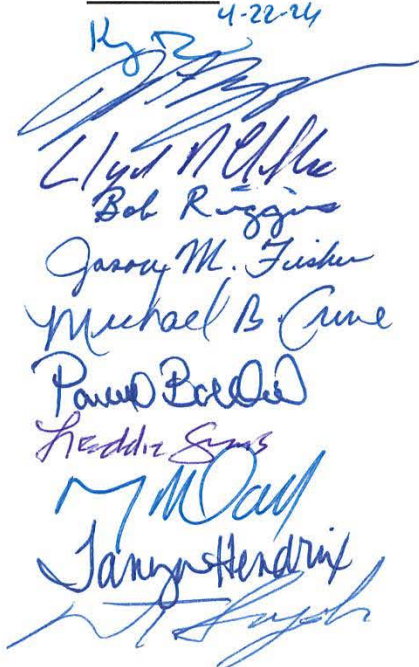

The parties also agree to the following definitions:

Mitigating factors include the Bargaining Unit employee's seniority, good work records, and in appropriate cases, the presence of provocation or misrepresentations leading to the misconduct.

Aggravating factors include such things as the seriousness, willfulness, or repetition of the misconduct and the harm stemming from the misconduct.

Section 3. Injury/Examination/Inspections/Monitoring

A) Employees must report to their supervisor any injury suffered so proper treatment can be administered by the Medical Department or doctor. Reports should be made promptly after the employee becomes aware of the work relatedness of the injury or illness. The Company shall promptly make adequate provision for first aid, hospital care, and ambulance service as on all shifts (first, second, and third, **and weekend**).

The Company will survey employees on the quality of care in the medical department. The survey will be jointly developed and the results shared with the members of the JSSC. Improvements may be implemented based on survey results.

The supervisor will lead the investigation of all reported injuries; the investigation will begin immediately and be completed within twenty-four (24) hours, based on available facts. If determined that the serious injury was caused by an equipment malfunction, the investigation will be completed prior to another employee being assigned to that machine but no later than twenty-four (24) hours. Notification will be provided to the Union Safety Representative or designee prior to release of the equipment that has been involved in an accident **incident**.

Upon notification of an accident **incident** the supervisor will ensure that if there are any injuries that medical attention is provided immediately. As soon as possible the **Company supervisor** will notify the Union Safety Representative of **or** their designee. **The Union Safety Representative or designee will be afforded the opportunity to participate in investigations.**

The supervisor will investigate the accident **incident** and document the results of his/her investigation. This documentation will be forwarded to the local Safety Engineer and the Union Safety Representative.

The joint parties agree on the importance of reporting, investigating, evaluating, and determining corrective actions for "Near Miss" incidents which occur in the workplace. The joint parties recognize that the foundation of any successful safety process rests with a cultural atmosphere that allows employees to bring potentially hazardous situations to the attention of management in order to achieve timely correction. This line of communication can only be achieved if Employees are free to discuss self-report "Near Miss" incidents with supervision without fear of discipline reprisal. To this end, In order to proactively correct potential hazards, near miss reporting is encouraged and required. Workers will not be subject to progressive disciplinary measures provided there is no willful breach of safety

KD

policies discovered after a joint review of the near miss incident is conducted. The Company will instruct Management and employees at each facility on the importance of reporting "Near Miss" incidents.

Further, Near misses will be entered into Enablon B.E.S.T. 2.0 included as part of accident investigations with corrective actions identified and implemented plans and due dates. In the interest of mitigating hazards and improving our safety culture, the company will use counseling in lieu of discipline in those cases where and employee immediately self-reports a "Near Miss" incident involving a possible violation of safety rules. In addition, a communication in the form of a Huddle-Topic an awareness topic Safety Talk and/or other materials to encourage employees to immediately report near misses to their supervisor will be distributed across all locations. Any issues arising from this document will be resolved between the joint parties at the appropriate level.

Any equipment operator employee involved in an accident with property damage and/or injury will may be subject to the Drug and Alcohol Policy of this contract depending on the circumstances of the accident as determined by the Union Safety Representative and Safety Engineer.

In the event that a powered industrial vehicle (PIV) operator has two(2) accidents in which the operator was mutually (Union & Company) found at fault in one (1) year, the operator will have their operator's license revoked for a period of one (1) year and will be assigned to an open job (placement to be decided by Human Resources and the Shop Chairperson) that does not require the use of a PIV. Employees who have moved will not retain rights to return to the previously held position.

- B) If a medical examination or test given to an employee by the Company discloses any abnormal conditions, the employee shall be informed of said conditions and shall be given a full copy of any written opinion or recommendation made by the doctor.

Medical examinations will be offered at an off-site location for employees if they are potentially overexposed to in-plant chemical agents. Safety Data Sheets (SDS) will be provided to the employees upon request. Published Biological Exposure Indices such as those developed by the ACGIH will be used as a guide.

- C) The Company agrees to notify the Union Safety Representative or his/her Alternate in advance, or upon the Company's knowledge of health and safety inspections by OSHA, insurance loss control, environmental inspections, boiler inspectors, city, county and state inspections related to health and safety, licensed health and safety inspectors and any health and safety consultants retained by the Company. The Union Safety Representative will be afforded an opportunity to accompany such officials or consultants and provide any pertinent information to them. Upon request, the Company will provide a copy of such

reports, including those of insurance inspectors, to the Union Safety Representative regarding violations of applicable local, state, or federal codes or standards.

D) In an effort to monitor and control noise and air quality in the plant, the Company will maintain noise measurement equipment, current NIOSH approved detector tubes for sampling airborne contaminants and appropriate multi-gas meter for air monitoring. Direct reading sampling equipment will be purchased, rented or contracted for the purpose of air quality surveys of the contaminants identified by the JSSC. The Union Safety Representative, Alternate and location Safety Engineer will be trained on the use of this equipment. A chain of custody will be used for quality assurance when sampling is performed. The location Safety Engineer and Union Safety Representative will evaluate the need for testing if there are process changes or other exposure changes. Specific exposure limits are to be reviewed and agreed upon by the location Safety Engineer and Union Safety Representative. The Company will use ACGIH TLV's and will strive to achieve NIOSH REL's, unless local or federal regulations are lower, as the standard for comparison. For chemicals where no TLV or PEL exists, the Company will seek other sources for bench marking such as best practices in industry. The location Safety Engineer and Union Safety Representative will conduct industrial hygiene monitoring when valid employee complaints are registered to their supervisor, Union Safety Representative or the Medical Department and in areas where isocyanates are used. The isocyanate program will proceed as follows:

- These areas will be identified by the Union Safety Representative and Location Safety Engineer within ninety (90) days of ratification.
- Once these areas have been identified the Union Safety Representative and the Location Safety Engineer will prioritize the list.
- The Union Safety Representative and Location Safety Engineer will then identify those personnel who require baseline medical surveillance to determine the level of any potential previous isocyanate exposure and will sample the areas using the ASSETNCO sampler or its equivalent to determine the potential isocyanate exposure.
- The Union Safety Representative and Location Safety Engineer may decide, in each of the predetermined areas, that industrial hygiene monitoring should be performed prior to baseline medical surveillance to identify which employees should be included in the program.
- If an isocyanate overexposure is detected during monitoring, the employee will be placed into a mandatory medical surveillance program using the NIOSH protocol or other available technologies.

The program will consist of detailed physical examination, medical history, pulmonary function testing, urine and/or blood sampling for antibodies related to isocyanate exposures and chest x-rays, if deemed necessary by the treating physician. Employees restricted from working in identified isocyanate areas will be placed per the Agreement. The Company will provide the Union Safety Representative and the JSSC chairs a copy of the results of industrial hygiene surveys.

The B.E.S.T. program will be a tool for bringing safety concerns to the attention of Management and the UAW. This program will be used to track any safety issues brought up by Management or represented team members through to the satisfactory completion of both parties. Overall implementation of the B.E.S.T. program is designed to ~~complement~~ complement provisions associated with health and safety in this Article and the parties are committed to integrated management of the program. The B.E.S.T. program will not supersede provisions of this Agreement.

Members of the JSSC will receive appropriate health and safety and ergonomics training as agreed to by the JSSC. In addition, the Union Safety Representative and the location Safety Engineer will attend three (3) mutually agreeable training sessions each year, with one (1) being internal training, one (1) being regional, and the third (3rd) being national training. Internal is defined as a joint training provided by the UAW International or a reputable, outside source and conducted onsite at one (1) of the NC-DTNA/UAW locations consisting of a topic that is relevant and important to all represented NC-DTNA/UAW locations whenever possible. It is understood that the internal training would be attended jointly by each Union Safety Representative, Alternate Safety Representative as well as the locations Safety Engineer. The regional training and the national training will be attended by each Union Safety Representative and the location Safety Engineer. Section 6. Ergonomics Program

(4) It is the Company and Union's objective to ~~establish and~~ maintain an effective ergonomics program, appropriate to each facility, ~~in order to~~ control occupationally related Musculoskeletal Disorders (MSD). The Company and Union both recognize their responsibilities to support the Ergonomics Program by providing the necessary resources and leadership through the JSSC. All aspects of the Ergonomics Program will be jointly developed, implemented, and administered by the Ergonomics Committee.

The parties agree to maintain the roles and responsibilities of each specific location's Ergonomics Committee. The course "Building Effective Joint Ergonomics Committees" will be held, as needed.

(3) A. Ergonomics Committees

1. An Ergonomics Committee of equal representation will be maintained at each facility and co-chaired by the Company and the Union. The committee ~~established at the facility~~ will include, but not be limited to, the Union Safety Representative, location Safety Engineer, members from Facility/Maintenance Departments, Engineering, Medical, Production and/or Logistics Departments, ~~Corporate Manufacturing Engineering~~, Ergonomics Coordinators/Soft Tissue Therapists, and appointed UAW members ~~trained analysts~~, as appropriate. One (1) member will be dedicated as an Ergonomic Engineering Champion. The Ergonomics Committee will:

- a. Meet monthly to review employee injuries and illnesses to identify potential ergonomic problems.
- b. Conduct and review ergonomic job analyses.
- c. Evaluate the status of the facility's prioritized problem job listing.
- d. Review the upcoming and completed CI events.
- e. Recommend job improvements.
- f. Oversee related ergonomics training.
- g. Help to implement corrective actions when necessary.

The Company agrees to implement ergonomic solutions within a three (3) month time frame after a job analysis determines corrective action is required. Problem jobs have not been corrected within three (3) months of the ergonomics job analysis will be placed on the agenda of the facility JSSC. The Ergonomics Committee will utilize the consultation of the International Union's Ergonomic Specialist when they deem it appropriate to aid the Ergonomics Committee.

2. Corporate Joint Ergonomics Steering Committee

100 4-19-24

The Corporate Joint Ergonomics Steering Committee's mission is to promote ergonomic awareness, develop and implement technical documentation, program documentation and guidance information and to act as a point of contact/reference for all UAW-DTNA locations. Each of the UAW-DTNA represented locations will have at least one (1) UAW Ergonomics Committee member as part of the Corporate Joint Ergonomics Steering Committee.

The Committee will also identify and make available assessment tools to assist DTNA in developing strategies to avoid and minimize musculoskeletal injuries. The committee will monitor the effectiveness of the program components, documentation, and training through the risk assessment process and Corporate Safety Audit modules.

The Committee will meet quarterly to achieve objectives/goals and share best practices. The Company will ensure at least one (1) member of the Corporate Design Engineering Group and/or one member from the Corporate Manufacturing Engineering Group will be part of this committee to act as a liaison for ergonomic issues related to engineering.

- (2) **B.** The Company recognizes that analyzing and reviewing all symptom survey and injury data is an important step in the ergonomic process and will begin working toward that end. The Ergonomics Committee will be provided MSD-related data to analyze and track. The Ergonomics Committee will use this information to identify jobs and departments with the highest rates of MSDs and maintain a priority job list. Employees will have the opportunity to submit recommendations to the Ergonomics Committee through the employee suggestion system.

~~Ergonomic analysis shall be conducted by the location Safety Engineer and/or Union Safety Representative and/or those trained in the tools agreed to by the Ergonomics Committee. Ergonomic improvements made as a result of these analyses shall be incorporated into standard work.~~

- (4) **C.** Job Evaluation

- (a)1. Ergonomic analyses shall be conducted by the location Safety Engineer and/or Union Safety Representative and/or those trained in the tools agreed to by the Ergonomics Committee. Ergonomic improvements made as a result of these analyses shall be incorporated into standard work documents. The primary tools used to evaluate standardized work and maintenance tasks will include the UAW-GM Risk Factor Checklist and the Washington State Caution Zone Checklist and will be further developed and revised as needed. The Ergonomic Committee will select additional advanced method(s) of job analysis based on mutual agreement, such as, but not limited to ACGIH Hand Activity Level TLV, Rhomert recovery model for

analyzing shoulder stress, Snooki-Cirello Tables for push and pull motions, NIOSH 1991 Lifting formula, the Washington State lifting model, ~~and three (3) dimensional static strength prediction model,~~ **and any recognized ergonomic tool available in the ergonomics industry.** The use of qualified outside source(s) to perform job analyses will be considered jointly but will not reduce the duties of the Union Safety Representative. Ergonomic job evaluation(s) will be conducted within two (2) weeks of a reported job-related MSD, when the Company becomes aware of an ergonomic risk factor, when a symptom survey indicates an ergonomic issue, and when major machinery and equipment changes are made. Employees performing jobs being analyzed will be asked to provide input on problem aspects of the job and potential corrective measures. Employees performing the job will be notified prior to job changes.

~~(b)~~**2.** Ergonomic job evaluations will be entered into a computer database and can be accessed via a handheld device, which will be selected during the Implementation Meeting. The Ergonomics Committee will establish and have access to this system for consistent recordkeeping, tracking of problem jobs, and provide a convenient method to update evaluations after job changes or ergonomic improvements.

~~(c) Ergonomic design criteria and checklists will be selected by the Ergonomic Committee for use in the review of new equipment and processes such as ANSI B11 Appendix for Ergonomics Design.~~

~~(d)~~**3.** Trained Analysts of each facility Ergonomics Committee will be afforded the time needed to perform their periodic ergonomic job evaluations and attend scheduled meetings.

4. In order to identify elements of Skilled Trades jobs that require necessary ergonomic interventions, the joint Ergonomics Committee, under the guidance of the JSSC, will develop a Skilled Trades Ergonomic Assessment Form to effectively and efficiently analyze Skilled Trades jobs.

~~(5)~~ **D. Job Improvements**

~~(e)~~**1.** Ergonomic design criteria and checklists **have been developed by the Corporate Joint Ergonomics Steering Committee** will be selected by the Ergonomics Committee for use in the review of new equipment and processes. ~~such as ANSI B11 Appendix for Ergonomics Design.~~ **Engineers, TOS Implementation Team members and Contractors will follow the Corporate document "DTNA Ergonomic Design Guidelines for Control of Musculoskeletal Loads" when designing work stations, work processes and purchasing and/or building equipment and tooling.**

2. Feasible Engineering controls (job redesign) will be implemented as the preferred method to control ergonomic risk factors. **When engineering controls are not**

feasible, the Hierarchy of Controls will be followed in eliminating or reducing ergonomic risk factors. Employees performing the jobs will have direct input into the redesign of their workstation using the Standard Work process.

3. Seats, chairs, mats or insoles can be considered appropriate solutions to control specific ergonomic risk factors. The Company agrees to leave such devices in place when they are provided in accordance with the guidelines and are recommended by the Ergonomic Committee.

(6) E. Training

(a) 1. New Ergonomics Committee members will have initial internal Practical Ergonomics Training (PET) as soon as practical possible, but at least within twelve (12) months of appointment to the Committee. Participants will be able to perform evaluations using the basic risk factor checklist. The Ergonomics Committee will receive additional internal training on other advanced risk factor analysis tools.

(b) 2. An Ergonomics Awareness Training Program will be developed for all facility employees. This awareness training will be conducted every three (3) years annually and during new/recall employee orientation. Employees will have the opportunity to submit recommendations to the Ergonomics Committee through the employee suggestion system.

(c) 3. In addition to general practical ergonomics training, manufacturing engineers and design engineers will be trained initially in the job evaluation tool(s), design criteria and checklists used for equipment and process reviews.

(d) ~~The Ergonomics Committee will utilize the consultation of the International Union's Ergonomics Specialist when they deem it appropriate to aid the Ergonomics Committee.~~

TENTATIVE AGREEMENT

ARTICLE 16 HEALTH AND SAFETY

Section 7. Miscellaneous

1. Occupational Health

A) Noise Abatement

The Company and the Union recognizes that noise induced hearing loss is a permanent and irreversible condition that significantly affects the quality of an employee's life. Management and the Union are committed to reducing noise levels in the plant. An initial noise determination process will be repeated for any significant change in production, process, equipment, controls or personnel which may result in new noise exposures at or above eighty (80) dBA. A comprehensive sound survey will be conducted at least every two (2) years at each plant to measure sound exposures throughout the plant(s). The survey will identify those areas of the plant(s) required to participate in a hearing conservation program and those areas required to wear hearing protection. Areas found to be in excess of eighty (80) dBA as an eight (8) hour time-weighted average (TWA), will be evaluated for engineering controls to reduce noise levels below eighty (80) dBA. The survey will identify the primary sources of noise and list engineering controls to reduce exposure. The Company and the Union will continue to maintain a comprehensive noise abatement program to address areas exceeding eighty (80) dBA on an eight (8) hour TWA. The goal of the noise abatement program is to significantly reduce the number of employees required to wear hearing protection as a result of eliminating exposures to hazardous levels of noise. The JSSC will review the noise abatement program each year. The Company will establish an eighty (80) dBA specification for new machinery, equipment and powered hand tools. Deviations from the noise specification, when compliance is not feasible, will be reviewed by the JSSC. The Hierarchy of Controls will be utilized to develop noise abatement programs to reduce noise levels in areas where hearing protection is required. Powered hand tools will be evaluated for compliance with the noise specification and ergonomics design guidelines prior to purchase.

B) Industrial Hygiene and Hazardous Chemical Use Reduction

1) Effective control of hazardous materials will serve to protect the employees of DTNA as well as the environment in the surrounding community. The Company and the Union are committed to the continuous reduction in the use of hazardous materials.

WSD

This will be accomplished through process changes and on-going efforts to identify safer substitutes for materials currently in use. This program will be reviewed with the JSSC and is expected to reduce employee exposures and protect the environment and to improve communication when products or processes are introduced into the work environment. The Union Safety Representative will participate in the Chemical Review Committee. Initial process reviews will include intra-plant benchmarking on electrostatic spray paint transfer efficiency and spray booth cleaning methods. The Company will use ACGIH TLV's and will strive to achieve NIOSH REL's, unless local or federal regulations are lower, as the standard for comparison. For chemicals where no TLV or PEL exists, the Company will seek other sources for bench marking such as best practices in industry.

C) CADMIUM AND HEXAVALENT CHROMIUM USE

During the course of these negotiations, Management and the Union have held discussions concerning cadmium and hexavalent chromium in the workplace. The below elements were agreed to:

1.) The Company commits that it will not use cadmium-coated fasteners in the assembly process.

2.) Hexavalent chromium will not be utilized as it pertains to metal pretreatment.

3.) In the unlikely event that cadmium-coated fasteners or hexavalent chromium as it pertains to metal pre-treatment are found in the plant, the Company will provide a risk communication regarding cadmium and hexavalent chromium to all affected employees within the facility. Should an exposure occur, the Company will schedule and pay for biological testing conducted by a mutually agreed upon certified laboratory and will ensure that any cadmium-containing residue and hexavalent chromium containing residue is properly cleaned up and disposed.

4.) The DTNA Corporate Manager of Health and Safety, the UAW International Health and Safety Representative, and the Local Health and Safety Representative agree to meet, discuss, and determine the adequacy of our existing strategy relating to cadmium and hexavalent chromium and determine if any additional actions may be required.

5.) If any components/parts containing Cadmium are found to be in any UAW represented plant covered under this Agreement, the Company will communicate to the work force to minimize exposure. The Company will work with those vendors to identify suitable alternatives and follow procedures outlined in Section 3 above.

D) Plant Ventilation Systems, Heat Stress

The Company recognizes the importance of ventilation systems to maintain a comfortable and safe environment, and control air contaminants and reduce the risk of fires and explosions. Preventive maintenance programs will be implemented and maintained to ensure that plant ventilation systems operate properly. All exhaust ventilation and make up air units will be rated the highest priority. The Manager of Maintenance will review the program with the JSSC on a periodic basis, or at a minimum, annually. The Company will perform a ventilation study on new equipment as and mutually agreed to establish baseline performance requirements.

The Company is committed to effectively controlling ambient temperature within the DTNA facilities during periods of high or low temperature conditions. The parties agree to identify economically feasible ways to improve air movement through the locations to address employee exposure to high or low temperature conditions.

The Company will monitor temperatures (the JSSC will verify) during high or low temperature conditions. The Company will purchase a mutually agreed to heat index measuring device capable of monitoring the heat index for each plant. In areas of the plants where the heat index is typically highest, the UAW Safety Rep or a Company designee will measure the heat index via a company provided Wet Bulb Globe Temperature device or equivalent. Should the heat index reach ≥ 90 degrees in affected work areas, the Company will follow the established DTNA Occupational Safety and Health Environmental Heat Stress Policy by providing 10 minutes of rest break every 2 hours of exposure. Should the heat index temperature reach ≥ 100 degrees in affected work areas, 15 minutes of rest break will be provided every hour of exposure. The Company will supply ample hydration stations, drinking fountains, and electrolyte drinks as well as any other heat relief items that protect exposed workers during periods of excessive heat conditions in affected work areas. In addition to the DTNA Occupational Safety and Health Environmental Heat Stress Policy, the April 8, 2022, OSHA directive on Heat Related Hazards (CPL 03-00-024) including NIOSH criteria for Recommended Alert Limits (RAL) and Recommended

Exposure Limits (REL) will be referenced as a guideline to protect workers from heat related injury/illness potential. The company agrees to train all employees on heat illness prevention and provide a detailed review of the heat illness compliance program. Annual refresher training will also be provided.

E) Pandemic Health Protocols

During the course of these negotiations, Management and the Union have held discussions concerning global pandemics and its effects in the workplace regarding health and safety.

The parties agree that if the World Health Organization (WHO) declares a global pandemic, the Company will follow the guidance protocols of the Centers for Disease Control and Prevention (CDC) or local government agencies, whichever is stricter, by establishing protocols to reduce the spread of any novel pandemic virus.

2. Safety Processes & Procedures

A) Review of New Equipment and Rearrangements

New equipment (including used equipment from other facilities) and rearrangements will be reviewed and signed-off by the Facilities/Engineering Manager, location Safety Engineer and the Union Safety Representative prior to being placed into operation. The Certification of Facility Equipment Installation (preliminary form 09ME-R02 or preliminary form 09ME-R04) or another approval/buy-off process will be routed to the Location Safety Engineer and the Union Safety Representative for review and sign-off.

If the new equipment and/or rearranged equipment does not meet applicable OSHA standards and Relevant Consensus Standards, the equipment will be immediately assessed jointly by the Union Safety Representative, the Location Safety Engineer, and the Project Lead Representative prior to the equipment being placed back into service.

When work areas are redesigned for new operations, new models, or new technology, upon completion of the modifications, changes may be reviewed on-site by the International Health and Safety Department, upon request.

B) Outside Contractor Safety Program

The Company will maintain an Outside Contractor Safety Program and provide a copy to the JSSC for their review. Outside Contractors will be required to comply with all Federal, State, and Municipal Health and Safety regulations as well as company health and safety policies and procedures. The Company will notify the Union Safety Representative, in advance, of contractors working in the plant and a job site safety plan will be developed and reviewed prior to commencement of on-site work. Where construction or maintenance work requires that contractor employees work in proximity to DTNA-UAW employees, additional precautions will be taken to minimize any adverse safety or health concerns. Management and Union Safety Representatives will conduct periodic inspections and monitor the work of outside contractors so they may correct any safety related violations immediately ~~to ensure compliance.~~ Contractors found to violate health and safety regulations and standards will be advised and will be expected to implement corrective action or be required to leave the facility.

C) Plant Emergency Response Drill

The parties agreed to regular trials of an Emergency Evacuation Plan and Severe Weather Plan. It was further agreed that an Emergency Evacuation Drill or Severe Weather Drill will be conducted on each shift if production employees are assigned to the shift. The drills will be conducted on an annual basis. These planned and pre-announced drills will be to familiarize employees with the emergency warning system, evacuation routes, and assembly areas. Future drills will be conducted as deemed necessary by the JSSC. The Plant Emergency Evacuation Routes will be periodically updated to reflect changes in the plant. In addition, emergency coordinators will receive annual refresher training, and the emergency alarm will be activated at least once a year, at pre-announced times, for familiarization purposes. Supervisors will review the evacuation routes and warning system, Severe Weather Plan and the Active Shooter Plan with employees at least twice a year during Supervisor Safety Awareness meetings. A written Plant Emergency Response Plan will be maintained with up-to-date contact information that includes responsible plant personnel as well as local municipal emergency response agencies.

D) Powered Hand Tools Safety

A preventive maintenance program for powered hand tools will be maintained. Defective powered hand tools will be immediately removed from service and tagged out.

The Company agrees to reduce slip and trip hazards by reviewing and replacing powered hand tools. A joint hazard assessment will be conducted to review hand and portable power tools with electrical flex cord and pneumatic hose connected tools used in production and assembly areas. Based on the results of the assessments the company agrees to create a priority list and replace those high risks tools with cordless, battery powered hand tools provided battery powered hand tools meet the torque specifications/applications needed to perform the work.

E) Audits

An annual comprehensive Health and Safety audit of each NC DTNA/UAW represented facility will be conducted by the Corporation, International Union, Local Union, and Plant Management. ANSI Z10-2019 protocols will be used to further develop the current audit process.

The parties agree that beginning in 2019, **A** follow-up event to the **joint** audits will take place within ninety (90) calendar days of the facility submitting a corrective action plan. **A** The corrective action plan will be completed within fifteen (15) working days of the facility receiving the final **audit** report. The corrective action plan will then be submitted to the Corporate Safety Manager and the International Union for review. A follow-up event is defined as a conference call, web conference, video conference, online meeting, or onsite visit to be mutually agreed upon by the Location Safety Engineer, Union Safety Representative, Corporate Safety Manager, and UAW International Safety & Health Department. These follow-up events will apply to NC DTNA/UAW facilities that had, in their most recent audit, significant regulatory requirements either missing or not effectively controlled or have exposure with repeat findings and potential violations within a module.

F) Liability

The International Union, Local Union, the JSSC and Union officials, employees and agents shall not be liable for any work connected injuries, disabilities, diseases, deaths, or loss resulting there from which may be incurred by employees of the Company or by third parties while on Company property. This is not intended to and does not increase the Company's liability in such cases beyond its normal exposure, if any (i.e., worker's compensation).

G) Health and Safety Training

1. General Population

The parties agree that health and safety training is an essential part of an effective safety program. All health and safety training curriculum will be approved by the location Safety Engineer and the Union Safety Representative prior to being delivered to employees. The training must meet all applicable OSHA training requirements and all DTNA guidelines.

2. Skilled Trades

All Skilled Tradespersons will receive mutually approved Powered Industrial Vehicle Operator Training, Aerial Lift Operator Training, Fall Protection Equipment Training, Confined Space Entry Training and Lockout Tag Out Training upon initial assignment to the Maintenance Department. In addition, Electrical Safe Work Practices/NFPA 70E Arc Flash Training will be conducted for all Electricians, Electronics Technicians & HVAC Technicians. Refresher training in all safety related topics will be provided as determined between the parties.

3. Certification Training for Safety Trainers

The Company agrees to cover the costs associated with training certifications for the UAW Safety Representative, Alternate UAW Safety Representative and other mutually agreed to facility trainers for regulatory safety topics including, but not limited to, Powered Industrial Vehicle Operation, Cranes and Hoists Operation, Fall Protection Competent Person,

and Lock Out Tag Out. Those trained will be the designated trainers on the specific topics.

3. Worker Protections

A) Lockout

The Company and the Union jointly recognize the importance of the Lockout program, and every effort will be made to ensure the safety of all employees. It is the policy of DTNA and endorsed by the UAW that Lockout is required where employees may be exposed to hazardous energy which could cause serious injury or fatalities. Therefore, the company agrees to the following:

1. Proper utilization of energy isolating devices during servicing and maintenance of machines and equipment in which the unexpected energization or start-up of the machines or equipment, or release of stored energy could cause injury to employees.

42. Maintaining placards containing machine specific lockout procedures, listing equipment needed and verification methods on all machinery and equipment with multiple energy sources in the plant. The Company will utilize a third party or internal process at all plants to generate a common lockout placard for new machines and equipment. This will also be used to update existing placards into the common placard template whenever machinery and/or equipment is modified.

23. All plants will be required to conduct an annual review of lockout placards. Records of this annual review will be tracked to ensure appropriate compliance.

34. Ensure that all types of energy isolating devices and the proper number of devices needed to perform complete lockout procedures are always on hand in the plant.

45. Ensure that authorized and affected employees per OSHA standard are trained in lockout and authorized employees are provided the necessary types and number of devices to safely perform lockout procedures.

56. The Company and Union recognize the importance of maintaining and reevaluating cell entry procedures to ensure that effective health and safety controls

are in place and that no exposure exists to operators entering the cell to perform minor, routine, and repetitive tasks. A risk assessment will be performed on new robotic cells **and all current cells will be reviewed for compliance.**

7. Whenever replacement or major repair, renovation or modification of a machine or equipment is performed, and whenever new machines or equipment are installed, energy isolating devices for such machine or equipment shall be designed to accept a lockout device.

8. The company shall conduct an audit of authorized personnel at least annually to ensure that the procedures are being followed. The periodic inspection shall be performed by an authorized employee other than the ones utilizing the energy control procedure being inspected. Any deviations or inadequacies identified will be corrected.

B) Fall Prevention Program

The Company will maintain a Fall Prevention Program that meets all elements of the most current version of the ANSI Z359 Fall Protection Code. The Union Safety Representative will survey employees to identify tasks that involve work at heights greater than four (4) feet within one (1) year of the effective date of the Agreement. Each task will be documented, prioritized, and evaluated to determine feasible engineering controls. Fall protection equipment **including engineering approved, certified anchorage points where required,** will be made available only when engineering controls are not appropriate to prevent falls. The Company agrees to maintain all equipment in safe working order and replace equipment found to be defective. Appropriate fall prevention equipment that meets ASTM_F887-0420 will be provided for applicable skilled trades. Appropriate employees will be trained in the proper use of fall protection equipment per the OSHA standard. Fall protection equipment will be made available, properly stored, ~~and~~ maintained, **and inspected per OSHA requirements.** Appropriate refresher training will be provided on an annual basis for all applicable employees. The Company will make readily available fall protection equipment to the employees who are required to use such equipment.

In the event of an emergency rescue from heights related to man-up equipment, selected employees will be trained to immediately rescue a fellow employee either with the use of the emergency descent valve on the piece of equipment being utilized or other equipment such as aerial work platforms or order picker vehicles depending upon the location, situation, and safe methods. Additionally, to avoid prolonged post fall suspension trauma, an emergency call

will be placed to the nearest local municipal fire and rescue agency immediately to request assistance in performing the rescue where needed.

The Company understands the risk associated with portable ladders. The Company agrees to evaluate and work to eliminate all portable ladders on assembly lines. A joint hazard assessment will be performed on all jobs which require a portable ladder. Hazards will be prioritized by risk and controls will be implemented to limit work on portable ladders. Additionally, production jobs that require employees to climb onto chassis, cabs, moving dollies, or other components during assembly will be identified and corrected.

The company agrees to comply with all regulatory standards related to fall protection when requiring employees to work on roofs within a 6' unprotected leading edge. A roof safety plan will be developed to ensure adequate protection/prevention for employees exposed to potential falls prior to roof top work commencing. Under no circumstances will employees be required to work within 6' of unguarded roof edges without proper protection/prevention such as guardrails, and/or personal fall arrest systems.

C) Working Under Suspended Loads

The Company will eliminate the practice of employees working under suspended loads in all areas of the plant. Each task that currently requires employees to place part of their body under a suspended load will be identified and corrective measures will be implemented to address each including product design changes, moving certain operations to other stations and modification of tooling and methods.

D) Working Alone

The Company and Union agree that assigning an employee to work in an isolated location does not in and of itself create an unsafe condition. When such assignments involve work situations potentially hazardous to an employee, such work shall be in accordance with recognized safe work practices. Each location's JSSC and the Skilled Trades Representative will review and list **remote** high hazard areas and jobs and develop Safe Operating Procedures (SOP) **to address the potential hazards**. When an employee is required to work in an isolated area, precautions ~~which might include~~ **such as** two-way communication **devices**, ~~periodic checks by the supervisor, team leader or security,~~ **continuous monitoring, adequate support personnel** or other means, will be taken to monitor the well-being of the employee. Additionally, the Company will exercise caution in the assignment of apprentices **or newly hired**

employees who may be less familiar with the hazards associated with certain tasks necessary to be performed in remote or isolated locations. The Company will make certain apprentices or newly hired employees are knowledgeable of the potential hazards prior to making any work assignments.

E) Refusal of Hazardous Work

The company recognizes that all employees have the opportunity to exercise their right to refuse to do unsafe work under the protection of OSHA Standard 1977.12.

Therefore, A worker, who has a reasonable belief that their work assignment may result in a physical injury, including illness, should immediately discuss the safety aspects of the work assignment with their supervisor. Failing resolution, the issue will be brought to the district union representative immediately. Should technical consultation be requested by the supervisor or the district union representative, the UAW Safety Representative and Company Safety Engineer will be notified before further action is taken.

F) No Hands In Dies Policy/Strategy

The Company and UAW supports a "No Hands in Dies" policy/strategy throughout all facilities. Full implementation of "No Hands in Dies" in each location requires provisions for expendable or other hand feeding tools, slide feeds, sliding bolsters, automatic or semiautomatic operation, die cutouts, cobots/robots or other means and procedures whereby the operators are not required to place their hands into the point of operation. In addition, procedures for use of die blocks/slide locks and safety lock-outs for maintenance and setup personnel are imperative. An intensive orientation program for operators, supervisors, and process and facilities engineers may also be advisable.

4. Powered Industrial Vehicle & Material Handling

A. The company and union understand the need to evaluate and replace forklift and PIV equipment. The JSSC will evaluate and agree on a replacement strategy to ensure PIV's are in safe working condition. The parties agree to replace PIV's that have exceeded 15,000 hours. The JSSC will explore an electronic PIV inspection and monitoring system which can be installed on future and existing equipment within 90 days of ratification and mutually agree on implementation of the electronic system. Further, the JSSC will work to create a more comprehensive PM program to maintain all PIV's as well as other material

handling equipment such as dollies, mother carts, daughter carts, bulk flats, totes, trash gons, etc.

B.-The Company and Union recognize the importance of crane/hoist operators performing daily pre-operational inspections prior to utilizing the equipment. The Company will explore options for electronic crane/hoist inspection systems for cranes/hoists. The JSSC will mutually agree on the electronic inspection system and create a crane prioritization list. The Company will budget funding for implementation of the electronic inspection systems to be completed in stages over the life of the agreement.

C. The Company agrees to install and maintain virtual/projected floor markings/signs to improve visual safety. Each facility's JSSC will discuss and mutually agree to the locations & priority of virtual floor markings within their respective facilities. Additionally, fixed floor markings designating both pedestrian and equipment aisles will be maintained as needed. The parties agree that pedestrian aisles will be indicated by two four-inch-wide parallel lines 36 inches apart from outside-to-outside dimension wherever possible. Under no circumstances will pedestrian aisles lead to overhead doors or other recognized hazards. The Company Safety Engineers and UAW Health and Safety Representatives will develop a plan to conduct strategic flow mapping, separating high vehicle traffic areas from high pedestrian traffic areas.

D. The company agrees to maintain and utilize dock locks for all docks. In the event the dock locks are not functioning or no dock lock exists, the company agrees to use wheel chocks to prevent unintended trailer movement.

The Company agrees to follow material handling, stacking and storage best practices as discussed in the quarterly best practice-share meetings. Material storage racks both inside and outside of each facility will be inspected and properly maintained on a regularly scheduled basis. Stored materials must not create a hazard for employees. The company and union will provide mutually agreed upon training to all material handlers for proper material storage and safe load handling. To prevent creating hazards when storing materials, the company agrees to make every effort to store materials safely.

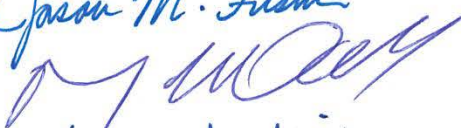

E. A documented trailer safety inspection process will be developed and implemented to ensure all trailers are free from damage and safe to load or unload with powered industrial equipment. Damaged trailers are to be identified,

tagged, and removed from service. Employees will be trained to inspect the condition of the floor, side walls, ceiling, understructure, landing gear, etc. for damage prior to crossing the threshold of a trailer with a PIV. In the event that a docked trailer landing gear is compromised, jack stands will be provided and utilized to stabilize the trailer.

G. The company recognizes the importance of maintaining outside walking-working surfaces for safe PIV and pedestrian travel, trailer movement, stability and storage. The JSSC will identify, document and prioritize areas in need of repair. The company agrees to provide the necessary funding to expedite repairs of all damaged concrete and asphalt surfaces. Further, the company agrees to discontinue the use of covering potholes, cracks or deteriorated surfaces with non-coated steel plating and will seek immediate repairs. In the event a pothole, crack or deteriorated surface requires temporary covering, the company agrees to utilize anti-slip material to provide maximum traction until such time proper repairs can be completed.

H. Roof leaks will continue to be addressed in a timely manner by the Maintenance and Facilities department. Employees will not be required to work in areas where roof leaks are compromising their safety. Maintenance will divert roof leaks out of work areas until roofers can come in and make needed repairs.

It is the policy of Daimler Trucks North America LLC and the UAW that the provisions of this Agreement be applied to all employees covered by this Agreement without discrimination because of race, color, religion, age, national origin, status as a qualified person with a disability, sex, including sexual harassment, sexual orientation, marital status, Union affiliation and membership in any legally protected class and political affiliations.

In order to assure full knowledge and understanding of the forgoing principle on the part of the employees and all agents and representatives of Daimler Trucks North America LLC and the UAW, the parties hereby incorporate the same in this Agreement. Any employee who claims that, in violation of said principle, he has been denied rights guaranteed by this Agreement may complain as provided in the grievance procedure. Any such claim, when presented in writing to the Department Manager, pursuant to Step 2 of the grievance procedure, must contain a full statement of the facts, as known, giving rise to the claim and the reasons why the employee believes he has been discriminated against. All grievances filed under this Article shall be initiated at Step 2 of the grievance and arbitration procedure.

If appealed to Step 3, the Shop Chairperson of the Local Union, before deciding whether to take the grievance up with the Human Resource Manager or designee, may refer the claim to the Chairman of the Civil Rights Committee. The Chairman, or in special circumstances, the Co-Chairman of the Civil Rights Committee, will review the alleged claim of discrimination and, if mutually agreeable, will conduct a joint investigation. The investigator will receive pay for time spent on the investigation, with the understanding that any overtime must be approved, by the Human Resource Manager.

The grievance and arbitration procedure shall be the exclusive contractual procedure for remedying such claims.

ARTICLE 23 AUTHORIZATION FOR CHECK-OFF DUES

During the 2018 2024 contract negotiations for the UAW represented DTNA North Carolina facilities, the parties agreed to a procedure for the authorization for check-off dues. The following will apply:

Subject to the limitations as provided by the applicable laws of the State of North Carolina and/or Federal law, the Company agrees during the life of this Agreement, to deduct Union membership dues from the pay of each employee who is a member of the Union, in accordance with the procedures set forth herein. For the purposes of this Letter, pay from which Union membership dues may be deducted shall include all categories of payment to the employee, which the Union Constitution recognizes as appropriate for deduction of dues.

Upon receipt of a signed authorization which is in conformity with the laws of the State of North Carolina and applicable Federal law, the Company agrees to deduct from pay earned by employees who are members of the Union the amount which is certified by the Union as membership dues, including any applicable initiation or reinstatement fees, and remit such amounts monthly to the Local Union Financial Secretary. Employees who desire to authorize the request to the Company to make such deductions and payments of their Union membership dues shall use the form entitled "Authorization for Check-Off of Dues." Such authorization may be revoked by the employee as provided therein and as provided in Section 302(c) of the Labor-Management Relations Act of 1947, as amended. It shall be the responsibility of the Union to provide such authorization.

The Local Union Financial Secretary shall give written notice to the Company of the amount of membership dues, including initiation or reinstatement fees, deductible in accordance with the preceding authorization. In all cases where a deduction is made which duplicates payment already made to the Union by an employee, or where deduction is not in conformity with the provisions of the Union Constitution and bylaws and/or terms of this Agreement, refunds to the employee will be made by the Union.

All sums deducted shall be remitted to the Local Union Financial Secretary not later than the fifteenth (15) day of each calendar month in which deductions are made. At the time of remitting the deducted amounts each month, the Company will furnish the Local Union Financial Secretary with a listing of the employees, by name, social security number and amount deducted, for whom payroll deduction of Union membership dues was made. The Union will give the Company prompt written notice of any errors in the listing or remittances.

Once each month, the Company will forward to the Local Union Financial Secretary a listing of employees' names indicating the reason for failure to include any sum or sums, which ordinarily would have been checked-off from the pay of the employee, covered by the Agreement.

The Union shall indemnify and save the Company harmless from all claims, demands, suits, or other liability arising out of or by reason of any action taken or not taken by the Company for the purposes of complying with the provisions of this letter.

DTNA Payroll will use the pay rate in effect for the last complete work week of each month for the

RS

dues deduction calculation the following month. Thereafter, all sums deducted will be remitted to the Local Union Financial Secretary not later than the fifteenth (15th) day of each calendar month in which the deductions are made. Electronic reporting will continue to be used for this purpose.

ARTICLE 24 PAID SICK LEAVE

~~Paid Sick Leave provisions will remain unchanged for the 2018 calendar year. The following is effective January 1, 2019.~~

Section 1. Beginning on January 1 of each year, Paid Sick Leave in the maximum amount of five (5) days per calendar year will be awarded to every employee (see Section 6) not in the attendance disciplinary step of the Attendance Control Program. Attendance Control Program employees will accrue Paid Sick Leave at a rate of 3.33 hours per month. Any days not taken will be accrued to a maximum of fifty (50) days. An employee with fifteen (15) or more days of accumulated Paid Sick Leave may use five (5) of such days as an additional full week of vacation in accordance with normal scheduling requirements. An employee with twenty-four (24) or more days of accumulated Paid Sick Leave may use ten (10) of such days as additional full weeks of vacation in accordance with normal scheduling requirements.

Individuals who are on layoff on January 1 and who are subsequently recalled during the calendar year will continue to accrue Paid Sick Leave at a rate of 3.33 hours per month beginning the month after they return up to the maximum of five (5) days.

Individuals hired on or after January 1 will accrue 3.33 hours of Paid Sick Leave per month beginning the month after they attain seniority.

Section 2. Up to four (4) days per calendar year may be used as personal time at the employee's option provided these days off are scheduled in advance in the same manner as single days of vacation.

Section 3. Any employee with accrued Sick Leave of five (5) days may cash out the excess above five (5) days (cash out full days only) at any time.

Section 4. Paid Sick Leave may be used during the statutory waiting period by employees who are off work with compensable injuries. Employees who choose to use contractual sick leave to satisfy the unpaid waiting period will not have any adverse pay impact. Paid Sick Leave used for this purpose will not be reinstated. Employees indefinitely laid off through a reduction of force will be paid for earned and accrued sick leave pay including pro-rata to the last day worked. Upon request of an employee who is indefinitely laid off or terminated pending a just-cause determination by an Arbitrator, the Company will defer payment of any sick leave money to which he/she is entitled, but not in excess of twelve (12) months following layoff or termination. Sick leave money paid subsequent to the date of layoff is payable at the employee's applicable pay rate as of the date of his last day worked.

Section 5. Up to four (4) hours of Paid Sick Leave may be utilized in one (1) hour increments each calendar year. All other Paid Sick Leave must be used in four (4) hour increments. The only exceptions to these rules are in cases when the normal shift hours are shortened due to a plant or department shutdown. In such cases, an employee can use an increment of available Paid Sick Leave necessary to cover the balance of the shift. Paid Sick Leave cannot be used to cover absences

on Saturdays, Sundays, or Holidays. **Paid Sick Leave can be used to cover absences on Sundays and holidays. All Paid Sick Leave used on Sundays and holidays will be paid at the straight time rate.**

Section 6. Sick Leave: Eliminate accrual on all leaves over sixty (60) days (excluding Military Leave and FMLA) in duration.

Individuals who are off for any of the following reasons on January 1 and who return to work during the calendar year, will be awarded five (5) days of Paid Sick Leave upon reinstatement as long as the individual was not in the attendance disciplinary step of the Attendance Control Program as of January 1. Five (5) days is the most that is awarded regardless of how long the individual has been off.

- International Union Leave

Attendance Control Program employees will continue to accrue Paid Sick Leave at a rate of 3.33 hours per month beginning the month after they return up to the maximum of five (5) days.

Section 7. The Company may require that single day absences on a Monday or on a Friday be supported by a doctor's certificate which verifies that the employee was unable to work. This will be applicable only to employees who are in the Attendance Control Program, or where there is a reasonable suspicion that the request for Paid Sick Leave was utilized for purposes other than sickness.

Section 8. To streamline the pay request procedure the Union and the Company agree that employees' sick pay will automatically be paid from the absentee call in system **or a time keeping app.**

Each day of absence must be reported using **a time keeping app** or the IVR call in system. On any occasion when the system is inoperable, absences can be reported by notifying plant security.

TENTATIVE AGREEMENT

LETTER OF UNDERSTANDING
EMPLOYEE PLACEMENT

The Union and the Company recognize the hiring of new employees while there is a surplus of seniority employees in layoff status at other Daimler Truck North America (DTNA)/UAW represented locations is not in the best interest of the parties. Therefore, the parties will provide seniority employees, who are subject to indefinite layoff, idling, and/or plant closure, an opportunity for employment at other DTNA/UAW represented facilities covered under this language.

For purposes of this Letter of Understanding, seniority for placement refers to the longest unbroken Company service with a DTNA/UAW facility, which will be used to give priority to indefinitely laid off employees who choose to be employed at another DTNA/UAW facility.

Employees who are hired to work at another DTNA/UAW represented facility will maintain all recall rights to their original facility. However, if an employee chooses to stay at the new facility when offered an opportunity to exercise their recall rights, the employee forfeits any recall rights back to their original facility. If there is an indefinite layoff, closing or idling at the employee's new facility, they will maintain seniority for hiring opportunities to all DTNA/UAW represented facilities covered under this language.

Once the employee enters the new facility, they will be given a plant entry date for purposes of job bid, shift preference, overtime, vacation scheduling, and layoff/recall at the new facility. Company service/seniority will continue for pension purposes, vacation accrual, pay rate and wage scale progression.

Details of the process will be established and communicated and any unexpected issues that arise will be discussed and resolved by mutual agreement.

**LETTER OF UNDERSTANDING
MEDICAL LEAVE LASTING 7 CALENDAR DAYS WITH THE FIRST DAY
HAPPENING ON THE WEEKEND**

The union has shared that because Short Term Disability claims always start on the first scheduled work day, and outside of those with an alternate schedule, that will be Monday – Friday. If someone has a medical issue come up after work on Friday, on Saturday or Sunday and their provider certifies them as medically disabled for 7 calendar days including the first weekend, that they are not meeting the STD waiting period but also the absence is treated as chargeable time.

The company agrees to modify the notification email that the third-party Disability Administrator currently sends advising when an STD claim is denied due to not meeting the waiting period, that third-party Disability Administrator adds language advising of the dates certified to include those weekend days that were prior to the first schedule work day.

This will not modify the official STD waiting period for purposes of STD relapse within 90 days.

The Benefits Group will work with local HR to make sure the same approach is used for those with less than 12 months of service that provide information to the Plant/Facility location of being medical disabled for 7 calendar days.

LETTER OF UNDERSTANDING MEDICAL LEAVE TRANSPARENCY FOR EMPLOYEES WITH LESS THAN 12 MONTHS OF SERVICE

Prior to 2024, the third-party Disability Administrator & DTNA worked together to update the reason used for STD denial when an employee did not have 12 months of service and added language to the denial letter the third-party Disability Administrator sends to the employee.

Going forward all DTNA UAW employees will be advised to file an STD claim if they expect to be medically disabled for 7 calendar days or more, even if they do not have 12 months of service.

The Benefits Group will update the script so the Customer Service Representative does not stop employees from filing an STD claim and to use the Attending Physician Statement in the packet and return it to local HR (not plant medical).

The Benefits Group will make sure if the third-party Disability Administrator receives the Attending Physician Statement in the denied STD claim (when denied for length of service) that the information is either forwarded over to the Disability Coordinator or the Disability Coordinator is advised so they can access the documents in the claim images. Union Benefit Representatives to be notified via email of receipt of the Attending Physician Statement (for notification purposes only).

TENTATIVE AGREEMENT

LETTER OF UNDERSTANDING

ATTENDANCE CONTROL POLICY

The Company and the Union mutually agree that the Attendance Control Policy is a reasonable work rule. **Attendance Control Policy discipline will be issued within twenty (20) available working days of the triggering occurrence.**

An employee's regular attendance on the job is of vital importance for the efficient operation of our business. Disruption of established work schedules due to excessive absenteeism places a heavy burden on fellow employees as well as on the planning necessary to achieve production goals. In order to maintain acceptable standards of attendance and to provide for fair and consistent treatment of employees receiving corrective action for excessive absenteeism, the following Attendance Control Policy is effective upon ratification. The parties further acknowledge this policy is a reasonable work rule and corrective discipline will be imposed under the provisions of this Letter of Understanding.

1. Absences (Non-Chargeable):

Absences for the specific reasons listed below are not charged against the employee's attendance record:

1. Negotiated Paid Sick Time Leave (03-Time)
2. Short-Term Disability in Excess of Seven (7) Calendar Days
3. Approved Military Leaves of Absence
4. Holidays
5. Vacations
6. Jury Duty
7. Court Appearance (Only as subpoenaed witness and not as a principal of court action itself)
8. Bereavement (as defined in the Agreement)
9. Time Lost due to Industrial Injuries or Illness
10. Layoff or Temporary Plant Closures / Shutdowns
11. Time Lost due to Plant Emergencies (power failures, bomb threat, tornadoes, etc.)
12. Disciplinary Suspensions
13. Approved Leave for Union Business
14. Approved Personal Leave of Absence
15. Medical Leave (minimum of 5 working days)
16. PTO (if employee has time available)
17. FMLA

2. Absences (Chargeable):

Absences for the following reasons will be charged against the employee's attendance record:

1. Casual Absenteeism
2. Tardy / Leave Early

Common (MTH - GAS - CLE - ATL - MEM)

3. Committed Overtime

Charges for the following situations will result in chargeable time until the employee reports their absence or tardiness to the Company.

- Late call in with 03 time **Paid Sick Leave** available.
- Late call in without 03 time **Paid Sick Leave** available.
- Late call in for bereavement leave.
- Late call in when an employee is going to be late.
- Late call in for workers compensation injury.
- Late call in for medical leave (first day only).

Exceptional circumstances will be reviewed by Management on a case-by-case basis.

~~Paid Sick time~~ **Leave** (~~03 time~~) will automatically be paid from the absentee call in system.

3. Procedure:

A. The program will be administered on a continuous twelve (12) month basis beginning on the date of the employee's first chargeable occurrence. All chargeable time associated with absences, tardies, and leave earlies will be accumulated over a twelve (12) month period. On the anniversary of the day in which an absence occurred, it will be subtracted from the employee's total. For example, if an employee was absent on December 1, January 3, and May 8, he would have a total of twenty-four (24) charged absent hours on May 9. If no additional time was accumulated by December 2 of the following year, his chargeable hour total would be reduced to sixteen (16) hours to reflect the subtraction of the eight (8) hours assessed on December 1 of the previous year. It is further understood that chargeable time discipline steps will be administered each time they are crossed.

B. The Corrective Disciplinary Steps are as follows:

- 20 Hours - Written Warning
- 30 Hours - Final Warning
- 40 Hours - Termination

It is understood that all steps (written warning and final warning) must be issued before an employee can be terminated. A final written warning must be documented prior to termination for employees in excess of forty (40) hours chargeable time.

C. Tardiness or Leave Early:

Tardiness and leave early occurrences will be charged against the employee's attendance record. In addition, tardy and leave early occurrences will result in corrective discipline based on the following:

A Guidance and Counseling will be issued when an employee has two (2) or more occurrences in a thirty (30) day calendar period.

Two (2) additional occurrences in a thirty (30) day calendar period (within a twelve (12) month revolving period) will result in a written warning.

Two (2) additional occurrences in a thirty (30) day calendar period (within a twelve (12) month revolving period) will result in a final warning (in lieu of suspension).

Two (2) additional occurrences in a thirty (30) day calendar period (within a twelve (12) month revolving period) may result in termination.

4. Chronic Attendance Program:

The purpose of the Chronic Attendance Program is to identify and review an employee whose attendance records identify habitual patterns of abuse.

A. Guidelines:

1. An employee with twenty-four (24) hours or more of chargeable time under the current Attendance Control Program and an average of twenty-four (24) hours of chargeable time annually would be considered Chronic and therefore subject to placement in the Chronic Attendance Program and Final Written Warning.
2. Average annual chargeable time will be calculated by taking the total hours of charge time the employee has accrued in the last three (3) years (1095 days) of active employment divided by three (3). For example: An employee with seventy-eight (78) total hours of chargeable time in the previous 1095 days would have an average of twenty-six (26) hours of charge time annually over that period.
3. Employees with less than three (3) years of active service with the Company will have their average annual chargeable time calculated and annualized based on their total active time of employment based on the following formula:

$(\text{Total chargeable hours} / \text{Total active service time}) \times 365 = \text{Average annualized charge time}$

For example: An employee with sixty (60) total hours of chargeable time with only 790 days of active employment would have:

$(60 / 790) \times 365 = 27.72$ hours of average annualized charge time

4. An employee with twenty-four (24) hours or more of chargeable time under the current Attendance Control Program and at least fifty percent (50%) of the chargeable time in the past three (3) years of active employment (or total active time of employment is less than three (3) years) occurring on Mondays and Fridays would be considered Chronic and therefore subject to placement in the Chronic Attendance Program and Final Written Warning.
5. An employee with twenty-four (24) or more hours of chargeable time and has been in the Chronic Attendance Program during the last three (3) years of active employment would be considered Chronic and therefore subject to placement in the Chronic Attendance Program and Final Written Warning.
6. An employee with six (6) or more tardy/leave early occurrences in a rolling twelve (12) month period of active employment and average six (6) or more tardy/leave early occurrences in the last three (3) years of active employment would be considered Chronic and therefore subject to placement in the Chronic Attendance Program and Final Written Warning.
7. Employee with less than three (3) years of active employment that reach or exceed an average of six (6) tardy/leave early occurrences and average six (6) tardy/leave early occurrences annually based on the following formula:

(Total number of tardy/leave early events / Total active service days) x 365 = Average annualized tardy/leave early events.)

For example: An employee with fifteen (15) tardy/leave early occurrences with 820 days of active employment would have:

$$(15 / 820) \times 365 = 6.67 \text{ average annualized tardy/leave early events}$$

B. Program:

Once an employee has been placed in the Chronic Attendance Program they will remain in the program for a period of six (6) months of active employment. While in the program, the employee will be subject to the following:

1. Any FMLA leave will be taken concurrently with any paid leave the employee is entitled to.
2. Will not be eligible for job bids.
3. Will not be eligible to accrue sick time.
4. Will not be eligible to use any previously accrued sick time without a doctor's excuse that includes a diagnostic code.
5. Will not be eligible for PTO without a doctor's excuse that includes a diagnostic code.
6. Will not be allowed a personal leave of absence.
7. Will not be eligible for the Attendance Bonus if the employee is in the Chronic Attendance Program.

If an employee was in the Chronic Attendance Program at any time during the quarter in which Attendance Bonus is calculated, the employee is not eligible for payment. For example, an employee in the Chronic Attendance Program from March 30th – September 30th would not be eligible for Attendance Bonus payment in Q1, Q2 or Q3. Alternatively, an employee that meets the criteria for Attendance Bonus payout for Q1 but is placed in the Chronic Attendance Program in early April (prior to actually receiving Q1 payout check) would be eligible to receive payment.

8. On any approved leave or approved absence during the six (6) month period, the excused time will be added back to the employees six (6) month period they must serve to complete the program.

C. Final Written Warning – Chronic Program:

There are two (2) types of Final Written Warnings that employees may receive based on attendance issues associated with total charged time or tardy/leave early occurrences as noted in Guidelines section above:

1. Chargeable Time: The Final Written Warning will specify that the employee cannot accumulate more than eight (8) hours charge time. An employee at or above 8.01 hours charge time will be subject to termination.
2. Tardy/Leave Early Occurrences: The Final Written Warning will specify that the employee accumulating more than two (2) tardy or leave early occurrences will be subject to termination.

The period of the Final Written Warning will be six (6) months. Employee and Company representative must sign the Final Written Warning. The Union Representative will sign the Final Written Warning acknowledging receipt. Employees who refuse to sign the Chronic Attendance

Program Final Written Warning will be subject to termination.

D. Special Accommodations:

The Plant Manager or Human Resources Manager may grant or deny a special accommodation request. The Union can appeal the decision of the Company following Article 6 of the Grievance and Arbitration Procedure.

E. End of Program:

At the end of the program, the employee will have all contractual rights reinstated.

F. Effective Date:

The Chronic Attendance Program is effective January 1, 2015. Employees that reach or exceed twenty four (24) or more hours of chargeable time that accrue any charge time after this date will be subject to review and potential entry into the program based on Guidelines. In addition, any employee that reaches or exceeds six (6) or more tardy/leave early occurrences in a rolling twelve (12) month period and has a tardy/leave early occurrence after this date will be subject to review and potential entry into the program based on Guidelines.

LETTER OF UNDERSTANDING EQUAL APPLICATION AGREEMENT

For several years, the Company and the Union have been leaders in adopting and effectuating policies against discrimination because of race, color, religion, age, sex, national origin, status as a qualified person with a disability, sexual orientation, marital status, union activity or membership in any legally protected class and to this end the parties have expressly incorporated in their Agreement an "Equal Application" provision that both ensures adherence to that principle in all aspects of employment at Daimler Trucks North America LLC and provides the contractual grievance and arbitration procedure for the resolution of alleged violations of that principle.

The parties now recognize the desirability of increased communication and a cooperative effort in this area on this subject (1) to encourage employees and grievance Representatives to use the grievance and arbitration procedure as a the exclusive contractual method for the prompt resolution of all claims of denial of equal application rights or claims of sexual harassment or discrimination (2) to determine the cause of such claims in order to reduce the probability of these claims arising and recurring, and (3) to maintain liaison with appropriate federal, and state civil rights agencies for the following purposes: (a) to increase understanding, (b) to promote and encourage the use of the contractual grievance and arbitration procedure in order to avoid multiplicity of litigation in many forums simultaneously which is frequently time- consuming, contradictory and hence nonproductive to relieving employee problems, (c) to seek solutions to mutual problems, (d) to relieve tensions in this area, and (e) to exchange information, expertise and advise.

Accordingly, the parties now establish an Equal Application Committee and its functions shall be the following:

- A.) Suggest guidelines for Union and Company representatives active in the grievance procedure in the proper and prompt handling of grievances alleging such claims.
- B.) Conduct or arrange for investigations and/or studies into the cause of equal employment opportunity and discrimination problems and tensions in an attempt to prevent such problems from arising or recurring.

The parties continue to recognize their legal and moral responsibility for assuring that all Daimler Trucks North America LLC employees have equal employment opportunities and freedom from discrimination. Consequently, the function of the Equal Application Committee shall be advisory, consultative and cooperative. While the Company and the Union will welcome the recommendations the Committee may make, the Committee may not commit either party to a specific course of action. However, the Union agrees that it will encourage its members to utilize the grievance and arbitration procedure with respect to any claim or complaint against the Company, which may be made a subject of the grievance procedure under the contract.

LETTER OF UNDERSTANDING NAFTA PENSION PROJECT

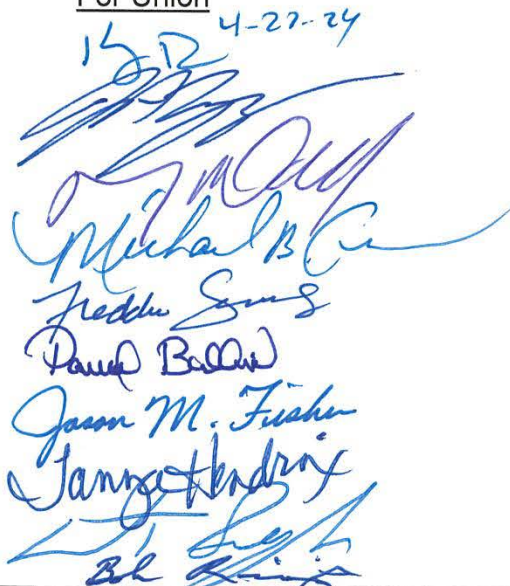

During these negotiations, the Company and the Union have discussed the impact the NAFTA Pension Project may have on employees covered under this Agreement. It is understood that the Company maintains its right and obligation to administer pension and retirement programs, subject to the requirements of Collective Bargaining Agreements. Administrative changes resulting from initiatives implemented as a result of the NAFTA Pension Project will not alter this arrangement.

The goal of the NAFTA Pension Project, as announced by the Company, is to leverage and standardize current asset management/service providers, investment consultants, record keepers, paying agents and the like currently utilized by subsidiaries of Daimler AG operating in the

NAFTA region. The Company advises that the streamlining of multiple providers and leveraging of multiple current vendors will result in lower administrative and management fees and costs.

While project work is underway for this initiative, there have been no changes made at this time that impact employees covered under this Agreement. However, during the course of this Agreement, the selection of new vendors, managers, investment options, etc. is likely to occur. As such, Daimler Trucks North America LLC is committed to providing advance notice to the Union of potential changes that may impact our current service provider or third party administrator arrangements. The Company will continue to honor all negotiated contractual commitments relative to health and retirement plan benefits, and no such changes shall adversely affect UAW represented employees, retirees, or their spouses and beneficiaries.

LETTER OF UNDERSTANDING NATIONAL HEALTH CARE

As a result of the Patient Protection and Affordable Care Act and its companion legislation, Health Care Reform has been, and will continue to be, enacted to fundamentally change the delivery, coverage, access and the relationship of patients, providers and plan sponsors in the delivery of healthcare.

New considerations such as mandated benefits, state exchanges, penalties, and the potential for tax credits and coverage options may result in potential benefit changes, additional costs, or shared savings over the life of this Agreement. This new health care delivery model may require the Company and Union to investigate and implement changes in order to meet the requirements of Health Care Reform regulations.

It is agreed, with mutual consent of the Joint Benefits Committee, if Health Care Reform options become available, the medical plans contained in this Agreement may be modified to address the opportunities as they arise.

LETTER OF UNDERSTANDING ON-SITE MEDICAL CLINICS

The rate of escalating healthcare costs presents a significant challenge to both the Company and the UAW. One of the cost mitigation strategies being investigated is the implementation of on-site medical clinics at one or more Company locations. The feasibility, and potential scope, of implementation is currently being reviewed. The intent would be that operation of the clinics would be contracted to a third party supplier specializing in this area. Initially, we would select one pilot location, and depending on the success, consider expanding to other locations as the business case warrants.

Initially, implementation would have no impact on contracted benefits. However, depending on the success of this initiative over time, opportunities could arise which would warrant discussions between the Company and the UAW regarding integration with the contract and benefit plans. Conversely, if not successful, continuation of on-site clinics could be discontinued at any time at the sole discretion of the Company. Although no formal decision has been made, this Letter of Understanding is intended to keep the Union apprised of the Company's plans in this area.

The parties acknowledged the desirability of ensuring prompt, fair, and final resolution of employee's problems. The parties also recognized the maintenance of a stable, effective, and dependable grievance procedure is necessary to implement the foregoing principle to which both subscribe. Accordingly, the parties view any attempt to reinstate a grievance properly disposed of as contrary to the purpose for which the Grievance Procedure was established and violative of the fundamental principles of collective bargaining. However, in those instances where the International Union, UAW, by either its Executive Board, Public Review Board, or Constitutional Convention Appeals Committee has reviewed the disposition was improperly affected by the Union or a Union Representative involved, the International Union may inform the Company's Human Resource Manager in writing that such grievance is reinstated in the Grievance Procedure at the step at which the original disposition of the grievance occurred.

It is agreed, however, that the Company will not be liable for any claims for damages, including back pay claims, arising out of the grievance that either (1) are already barred under the provisions of the Agreement at the time of the reinstatement of the grievance, (2) that relate to the period between the time of the original grievance and the time of the reinstatement as provided herein. It is further agreed that the reinstatement of any such grievance shall be conditioned upon the prior Agreement of the Union and the employee or employees involved that none of them will thereafter pursue such claims for damages against the Company in the grievance procedure, or in any court or before any Federal, State, or Municipal Agency. Notwithstanding the foregoing, a decision of the Arbitrator on any grievance shall continue to be final and binding on the Union and its members, the employee or employees involved and the Company and such grievances shall not be subject to reinstatement.

This letter is not to be construed as modifying in any way either the rights or obligations of the parties under the terms of the Agreement, except as specifically limited herein, and does not affect sections thereof that cancel financial liability or limit the payment of retroactivity of any claim, including claims for back wages, or that provide for the final and binding nature of any decisions by the Arbitrator or other grievances.

It is understood that this provision and the parties' obligations to reinstate grievances as provided herein can be terminated by either party upon thirty (30) days' notice in writing to the other.

It is agreed that none of the above conditions will be applicable to any grievance filed or settled prior to the effective date of the ~~2018~~ **2024** contract.

Members may visit any dentist for their dental needs, but they will have the lowest out-of-pocket costs when they visit dentists who are part of the dental network.

Our Dental plan includes a discounted dental network that reduces out- of-pocket costs when members use network dentists. Network dentists have signed agreements to accept a reduced, discounted network fee schedule, as payment in full for covered dental services. Members have lower out-of-pocket costs because copays are based on a discounted amount.

ATTACHMENT C BENEFIT PLANS

Part I: STD Benefits

Eligibility

Your eligibility for coverage begins on your completion of one (1) year of active employment. Employees must be actively at work on or after attaining one (1) year of seniority.

Waiting Period

The Waiting Period before Plan benefits may begin is seven (7) consecutive calendar days of medically certified absence from work, commencing with the first day of disability. Any paid time you have accrued at the time of the disability may be utilized during the waiting period. If an employee works less than eight (8) hours and qualifies for Short Term Disability, this partial workday will be considered as the first day of the seven (7) day waiting period.

There should be no interruption of the waiting period because of paid days from independently established benefits such as paid holidays. In other words, holidays should be counted toward the satisfaction of the seven (7) consecutive calendar day waiting period.

Independent benefits such as paid sick leave, PTO, holidays, vacations, jury duty pay, or any other paid days for the time not worked will not interrupt or extend the seven (7) day waiting period. Moreover, where "paid days" occur during a seven (7) day waiting period, there will be no pyramiding of independent benefits (for example, vacation pay plus paid sick leave or holiday pay plus paid sick leave).

Employees who are off on worker's compensation will have the option to supplement worker's compensation benefits with annual short-term disability paid days, if available.

Eligibility Ends

The coverage of any Covered Employee shall terminate on the occurrence of the earliest of the following events:

- You are no longer disabled
- The end of the 182 days
- When a formal layoff notice is issued, individuals who are on Short Term Disability will remain on disability in accordance with the guidelines in effect at the onset of such disability. Short Term Disability claims initiated after such notice will transition to lay off status consistent with their seniority date unless such claim was scheduled in advance of such notice or is the result of accident or onset of a critical illness.
- Termination of active employment by the Company;
- The Retirement Date, which means the date of a Covered Employee's retirement under the

KS

KS

Daimler Trucks North America LLC UAW Pension Plan.

Definition of Disabled

A Covered Employee will be considered disabled for purposes of STD benefits only if the Covered Employee is all of the following:

- Continuously disabled by sickness, injury, or pregnancy;
- Under the regular treatment of a legally licensed physician, which means a medical doctor (MD), physician's assistant (PA), chiropractor (DC), or osteopathic physician (DO) nurse practitioner (NP)
- For purposes of the plan a Healthcare Provider is defined as a person who; (i) is legally licensed to practice medicine; (ii) is not related to the employee by blood or marriage; and (iii) is providing care and treatment within the scope of his/her license. For the purpose of disability related to normal pregnancy or childbirth, a midwife, a nurse-midwife duly and acting within the scope of his/her practice is a qualified practitioner;
- For purposes of the Plan, Appropriate Care and Treatment is defined as treatment consistent in type, frequency and duration with relevant guidelines of national medical, research and healthcare coverage organizations and governmental organizations and agencies.
- There is Objective Medical Evidence to substantiate your disability.
- For purposes of the plan, Objective Medical Evidence has been met if the claimant has submitted a medical demonstration of anatomical, physiological, or psychological abnormalities manifested by signs or laboratory findings, apart from the claimant's perception of his or her mental or physical impairments. These signs are observed through medically acceptable clinical techniques such as medical history and physical examination. Laboratory findings are manifestations of anatomical, physiological, or psychological phenomena demonstrated by chemical, electrophysiological, roentgenological, or psychological tests.
- After ninety (90) days, employees being treated for a condition by a healthcare provider whose area of training or certification is not specific to the condition being treated may be required by the Claims Administrator to see a specialist for continued certification; and
- Unable to perform the duties of his or her occupation with the Company.

It is not necessary to be confined at home or in the hospital to receive benefits under the Plan. However, to continue receiving benefits you must furnish proof of your disability whenever requested by the Plan Administrator or the Claims Administrator.

You will be deemed to be under the regular treatment of a legally licensed physician if you are under treatment for alcohol or drug abuse in an inpatient residential, day treatment, or outpatient substance abuse facility approved for benefits under the Company's health plan and you furnish the Company with certification of disability provided either by the facility's physician director or by a physician consultant selected by the facility, based on information furnished by and upon the recommendation of, the therapist who is supervising your therapy. For such certification to be acceptable, the physician or physician consultant providing it must be a licensed MD or DO.

You will be deemed to be disabled for purposes of receiving STD benefits if you become confined as a registered bed patient in a legally constituted hospital for undergoing testing to determine your suitability to be a donor for an organ or tissue transplant and are otherwise eligible for such benefits.

STD Benefit Formula

A Covered Employee who becomes disabled will receive weekly STD benefit payments equal to seventy (70%) percent of wages, subject to the Benefit Offsets described in Part III below.

Maximum Period Payable

The period for which a Disabled Covered Employee may receive STD benefits under the Plan cannot exceed a Maximum Period Payable, as defined below. No benefit shall be paid for the period prior to the expiration of the waiting period or for the period after completion of the Maximum Period Payable.

The Maximum Period Payable an employee is eligible to receive STD benefits is 182 calendar days from the date of Disability.

Benefits for More than One Absence/Relapse

If you return to work after receiving STD benefits for less than 182 days, and you are then absent again within ninety (90) days after your return for the same or a related reason, the seven (7) day waiting period will not apply and you may begin receiving STD benefits beginning with the day of your absence for the remainder of the 182 days.

If a second absence results from an unrelated sickness or injury once you return to work, a new STD claim will be established with a new seven (7) day waiting period.

If there are ninety (90) day or more between two (2) periods of disability and you return to work for at least seven (7) days in that ninety (90) day period, the second period of disability will be deemed to be from a different disability unrelated to the cause of the first period of disability. In that case, a new seven (7) day waiting period will apply before you begin to receive STD benefits.

If while receiving STD benefits, you suffer from an additional disability distinct from the disability for which you originally qualified for STD benefits, the total period of STD benefits will in no case exceed 182 days from the onset of your original disability. At that time, you may transition to LTD benefits, even though your original disability may have resolved and the unrelated disability causes your transition to LTD benefits. You will not be required to apply for Social Security Disability Insurance benefits until the condition putting you onto LTD benefits has lasted at least six (6) months.

Applying for STD Benefits

Notice of sickness or injury must be given to the Claims Administrator within ~~ten (10)~~ **fifteen (15)** days of the date of the commencement of disability. You have twenty (20) calendar days to provide proof of disability once claim is submitted.

The reduced LTD benefit will continue for the remainder of your Maximum Benefit Duration, subject to the following:

- (a.) Effective in accordance with the effective dates listed in Appendix A, if you have less than ten (10) years but more than one (1) year of seniority, once you are found to be physically able to work as described above and beginning with the month following the month of such finding, the benefit amount payable will be reduced to fifty (50%) percent of pre-disability pay and will continue for a period equal to your seniority (or the normal LTD benefit end date above, if earlier) and beginning with the start date of your LTD benefits. Upon the conclusion of that period, you will have been deemed to have lost seniority and your employment will be terminated.
- (b.) If you have ten (10) or more years of seniority, beginning with the month following the month that you are found to be physically able to work, the benefit amount payable will be reduced to fifty (50%) percent of pay and will continue until the end of your LTD benefit period.
- (c.) If you are described in paragraphs (a) or (b) and you are awarded a Social Security Disability Insurance Benefit (or DIB) with an award effective date after the date when you were found physically able to work, your benefit amount payable will increase to sixty six and two-thirds (66 2/3%) percent beginning with the month after the DIB award date. The benefit will be offset by the DIB benefits as described in Part III. The length of benefits eligibility will remain as stated in paragraphs (a) and (b).

(d.) If you are described in paragraphs (a) or (b) and you are awarded DIB with an award effective date prior to the date when you were found physically able to work, the reduction in your benefit amount to fifty (50%) percent will be changed back to sixty six and two-thirds (66 2/3%) percent on the date of the original reduction. The benefit offsets described in Part III will apply. The length of benefits eligibility will remain as stated in paragraphs (a) and (b).

(e.) During periods of disability described in paragraphs (a), (b), (c), or (d), you will remain eligible for the employee benefits that you are entitled to under the terms and conditions of your labor contract.

(f.) If you have a concurrent disability during the waiting period, your LTD benefit will not be reduced due to a release with restrictions until 182 days have elapsed since the onset of the later of your subsequent disabilities, even though you may have begun receiving LTD benefits before the expiration of that 182 day period in accordance with the treatment of concurrent disabilities for purposes of STD benefits.

Recurrent Disability

If you cease receiving LTD benefits and, while a covered employee, suffer a recurrence of being disabled from the same or related cause or causes, the subsequent period of disability will be deemed a continuation of the prior period, unless six (6) months or more have elapsed between such periods, in which event the subsequent disability will be deemed to be a new disability subject to then-applicable benefits and a new waiting period.

In other words, if you return to work for the Company after qualifying for LTD benefits and the same or a related disability recurs within the next six (6) months, your benefits under the Plan may resume as of the first day of your reoccurring disability if you are disabled. You do not have to satisfy another waiting period.

Successive periods of disability due to unrelated causes are considered to be separate periods of disability. There is a waiting period for each disability due to unrelated causes.

Applying for LTD Benefits

Thirty (30) days prior to the end of the waiting period you will receive an LTD benefits application from the Claims Administrator. When you apply, you must submit written proof of your medical condition to the Claims Administrator. You and your Legally Qualified Physician will need to fully complete the application that will be sent to you by providing specific information about your medical condition, treatment and prognosis.

You will be asked to provide written proof to the Claims Administrator that you continue to be disabled.

As discussed below, you must also file an application for Social Security Disability Income benefits. You should apply for Social Security as soon as possible to allow sufficient time for your claim to be reviewed and processed. If you have any questions about applying for Social Security, contact your local SSA Office.

Part III: Provisions Applicable to Both STD and LTD Benefits Benefit Approval Ends

Subject to the Maximum Period Payable, your benefits under the Plan end on the earlier of the following:

- You cease to be Disabled;

- You refuse to undergo an impartial medical examination within thirty (30) days following written notice by the Claims Administrator;
- You refuse to furnish information on your treatment and care within thirty (30) days following written notice by the Claims Administrator; or
- The date you are either no longer under the regular and continuous care and treatment of a qualifying medical professional, as required by the Plan, or you refuse to follow the treatment plan recommended by a qualifying medical professional.

Examination Requirement

The Plan reserves the right to require you to undergo an independent examination or evaluation by a physician or vocational rehabilitation specialist chosen by the Plan as the Claims Administrator or Plan Administrator decides is necessary, both at the time a request for payment is made under the Plan and during the continuation of disability.

If the independent examiner finds that you are no longer disabled and that finding contradicts the finding of your treating physician, the matter may be referred to an Impartial Medical Examiner. Impartial medical examinations, scheduled by the Claims Administrator or Plan Administrator will not require selection of the physician by the Company and the UAW but rather will utilize an independent network for selecting the provider based on appropriate specialty and location subject to the following:

The opinion of such an examiner with respect to the existence of total disability as defined by the definitions contained herein, shall be final and binding upon the Company, the Union, the Carrier, and the employee.

Additionally, the Union and the Company agree to meet and review any claims by either party regarding findings favorable/unfavorable by a provider that appears to be biased in either direction.

The Carrier will encourage medical examiners to discuss their findings concerning a claimant's disability with the attending physician if there is a question as to the employee's ability to return to work.

A Certificate of Mailing will be obtained from the United States Postal Service whenever a notice is mailed to an employee advising such employee to report for a medical examination in accordance with the Plan. Additionally, Union Benefit Representatives will be notified of such mailings.

If you fail to undergo such an examination within thirty (30) days of the Claims Administrator's or Plan Administrator's request, the Claims Administrator or Plan Administrator shall have discretion to terminate benefits.

Benefit Offsets

Your STD benefits will be offset by benefits you may receive from other sources, such as:

- Any benefits from the Federal Insurance Contributions Act (Primary benefits and Dependents Social Security Disability Benefits), such as Social Security Disability Income (SSDI) benefits you or your dependents may be entitled to, including SSDI awards to your family members by virtue of your disabled status. Social Security DIB awards will not be reduced for children eighteen (18) years or older who qualify for Supplemental Social Security Income (SSI) benefits as long as they meet SSI benefits eligibility; and

TL

- Benefits payable under any workers' compensation (including payment for rehabilitation and retraining institutes) or similar law.

Your LTD benefits will be offset by benefits you may receive from other sources, such as:

- Any wages, pension, or other compensation you may receive from the Company or a subsidiary or an Affiliate of the Company;
- Income from any employer or self-employment;
- Any benefits from a governmental plan paying disability benefits;
- Disability benefits received from a group life or accident insurance policy;
- Any benefits from the Occupational Disease Act or Law;
- Effective April 1, 2011, military disability pay to the extent it is payable for the same or related illness or condition that gives rise to LTD benefits under the Plan; and

In order to receive the full amount of your benefits under the Plan, you must apply for these other benefits and diligently pursue your claims. Benefits will not be offset for amounts paid under a private or individual long-term disability policy, other than a no-fault automobile insurance policy.

Changes to the Benefit Offset Amounts

Any amendments or changes in the disability insurance benefits under the Federal Insurance Contributions Act (Social Security) that result in an increase in amounts paid or payable to a Covered Employee and his or her dependents under such laws, and that become effective during any period in which benefits under the Plan are payable to a Covered Employee, will further reduce benefits under the Plan only to the extent that the total of all monthly disability benefits under the Plan and specified Social Security payable to the Covered Employee exceed one hundred (100%) percent of the Covered Employee's monthly wages in effect on the date of the disability for which such benefits become payable.

Social Security Disability Benefits

A covered employee who becomes disabled and is eligible to receive and receives STD and LTD benefits under the Plan is required to file a claim for federal disability benefits (under the Social Security Act) if the disability is expected to extend beyond the applicable waiting period under that Act (unless the employee's physician completes a statement indicating they will return to work in twelve (12) months). You will be notified by the thirty first (31st) week after you become disabled of the eligibility requirements for Social Security Disability Insurance Benefits (DIB). The Disability Plan Administrator (currently Sedgwick) makes the services of a third party vendor (Allsup) available to assist an employee, on approved disability, in applying for SSDI benefits. Employees are required to use this vendor and agree to use its electronic overpayment recovery program. Their LTD benefits will not be offset by estimated SSDI until they receive notification of approval from the Social Security Administration. The Disability Plan Administrator will refer the claim to the third party vendor (Allsup) by the thirty first (31st) week. The employee must complete and return the required authorization paperwork with the third party vendor (Allsup) by the thirty ninth (39th) week to avoid the presumed offset. This requirement will apply to employees that transition to LTD on or after the ratification date. The employee continues to be required to sign and return the reimbursement agreement by the thirty third (33rd) week to avoid the presumed offset.

TS

You will not be responsible for the cost of such representation (Allsup), but failure to comply with reasonable requests from the organization in a timely manner in conjunction with its representation of you will result in your LTD benefits being offset by the amount of your presumed DIB.

If you are awarded DIB with a retroactive award date, you must repay any overpayment of LTD benefits that result from the retroactive award. The amount of the overpayment will be calculated based on the actual amount of the DIB award.

Any cost-of-living increases in your Social Security benefits will not reduce your benefits under the Plan until the total of all monthly Social Security benefits and STD and LTD benefits are more than one hundred (100%) percent of your pay in effect on the date you became disabled.

It is important to note that approval of a claim by the SSA does not in and of itself qualify you for benefits under the Plan. Approval of benefits under the Plan is at the Plan Administrator's sole discretion subject to all Plan provisions in effect.

Appendix A

The following tables set out the Maximum Period Payable for claims approved for full disability prior to January 1, 2011, by location:

During periods of disability as outlined in Appendix A employees will remain eligible for the employee benefits for which they are entitled to under the terms and conditions of the Labor Contract.

The following process will be used when an employee returns to work and owes DTNA due to an overpayment on the Disability Plan. Payroll will establish the offset amount to ongoing weekly payroll based on a forty (40) hour work week after all required taxes and deductions and twenty five (25%) percent of this net pay amount would be the established weekly offset. Any deductions from active payroll or disability payments will not exceed twenty five (25%) of net pay unless mutually agreed to. The deduction would begin on the first check processed once the overpayment information is received from Sedgwick. Deductions will continue on a weekly basis until overpayment is fully recovered. If the employee prefers a larger amount collected from ongoing paychecks that can be arranged with Payroll.

Plan documents will be amended upon ratification to reflect these changes. Should unanticipated issues arise during the implementation of this Letter; the parties agree a good faith effort will be made towards a mutually satisfactory resolution.

Section 1. See Common Language

Section 2. See Common Language

Section 3. See Common Language

Section 4. See Common Language

Section 5. See Common Language

Section 6. Notwithstanding their natural seniority, all active Committeepersons under Article 3, Sections 1 and 2, who are involved in contract administration activities, shall be deemed to have the top seniority for purposes of layoff and recall provided they are qualified to perform available work. During periods of layoff and recall, the President of the Local Union, Health and Safety, and the Benefits Representatives shall be deemed to have the top seniority in the plant.

Section 7.

Step 1. For the purpose of establishing seniority, employees with the same hire date will be rank ordered (top to bottom) alphabetically based on the first letter of their last names. Among a group of employees with the same hire date, those with the first letter of their last names coming closest to the beginning of the alphabet will be considered to have more seniority than those with the first letter of their last names coming farther down the alphabet.

Example:

Name	Hire Date
Robert Jones	10/25/79
George White	10/25/79
*Thomas Babcock	10/25/79

REM 2-21-2024

My 2/21/2024

Sheldon Right 10/25/79

Among these employees, Thomas Babcock is the most senior followed by Robert Jones, Sheldon Right, and George White in rank seniority order.

Step 2. Employees who have the same hire date and the same first letter of their last names will be rank ordered (top to bottom), for purposes of seniority, according to the subsequent letters in their last names.

Example:

Name	Hire Date
Edward Brighton	10/25/79
Thomas Boggs	10/25/79
*Robert Baker	10/25/79
Jane Bell	10/25/79

Among these employees, Robert Baker is the most senior followed by Jane Bell, Thomas Boggs, and Edward Brighton.

If two (2) or more employees have the same last name, first names and then middle initials will be considered in the same manner.

Step 3. Employees who have the same hire date and same name (Last, First, and Middle Initial) will be rank ordered (top to bottom) for purpose of seniority, according to the Representative value of their Social Security number in the following manner:

Add the last four (4) digits of the employee's Social Security number together, and the employee with the highest total will have the most seniority. If the sum total of the last four (4) digits is equal, the middle two (2) numbers will be added together and, if necessary, the first three (3) digits.

Example:

Soc. Sec. #	Name	Hire Date
*243-78-8190	Andy A. Jenkins	10/25/79
245-80-2631	Andy A. Jenkins	10/25/79

247-61-2710	Andy A. Jenkins	10/25/79

REM 2-21-2024

JAD 2/21/24

In the above example, the employees are ranked in seniority order by the value of their Social Security number.

Step 4. In all instances, whether they are layoffs, recalls, promotions, transfers, or otherwise, where it has been designated that an employee's status is to be determined specifically by seniority, the above procedures will apply.

Step 5. In the application of this procedure, the employee's name, as of their hire date, will be used thereafter for the purpose of determining their seniority ranking.

If sufficient employees cannot be obtained using the above procedure, qualified volunteers will be solicited from any work group, whenever practicable.
 4. If sufficient volunteers are not acquired by the above procedure, the overtime may be made mandatory of the necessary employees within the overtime group, by seniority, beginning with the least senior employee.
 5. If the Company deems it necessary to work overtime in a complete overtime group, the overtime may be mandated without first soliciting volunteers.

When overtime is scheduled, it will be limited to no more than two (2) hours on a daily basis and no more than eight (8) hours on weekends. It is further understood that no employee will be required to work in excess of thirty-two (32) hours of mandatory overtime, including a maximum of two (2) non-consecutive Saturdays per month, with the exception of Offline which allows for a maximum of two (2) consecutive Saturdays per month. **It is further understood that Offline will not schedule three (3) consecutive Saturdays with the exception of the months of November and December.**

If weekend hours are scheduled by the Company and then if not cancelled before the end the employee's shift on Thursday, the hours scheduled will count towards the thirty-two (32) hours of overtime per month.

In addition, if daily overtime is scheduled, then cancelled by the Company not prior to the end of the normal shift hours, the hours scheduled will not count towards the thirty-two (32) hours of mandatory overtime per month.

It is not the intent of the Company to schedule mandatory overtime work when there is not a good faith reason to believe that the overtime work may be required. However, it is recognized that there are occasions when scheduled overtime work will be cancelled. The Company will endeavor to consider employees' personal circumstances and potential hardships in the event it is necessary to cancel scheduled overtime.

The provisions of this Article that restrict the right of the Company to mandate any overtime work may be suspended if operations are interrupted by emergency situations such as extended power shortages, fire, tornado, flood, hurricane, or other acts of God; because of major equipment breakdowns, government mandated work, regulatory training, and annual inventory.

REM

The equipment referred to regarding "major equipment breakdown" is confined to the E-Kote System, Dyno Operations, and Robotics Systems and Pool 1 Roll Over Crane / Fixture / Conveyor, and Cab Monorail.

It is understood that the overtime to be mandated because of an emergency or major equipment breakdown will be limited to a period of time to overcome the emergency or major equipment breakdown. **In the event of emergency or major equipment breakdown and overtime is required, the Company will notify the Union Shop Chair and Committee person that represents the department at the start of the equipment breakdown and work with Maintenance to estimate the duration of the downtime. If overtime is needed it will be scheduled as far in advance as possible to allow employees to plan appropriately.** When practical, able volunteers will be solicited prior to a mandate. Management will overcome major equipment breakdown within three (3) working days of the occurrence.

6. If due to unforeseen events overtime planned for an overtime group is no longer necessary those employees who have reported to work may be assigned to work outside their overtime group. Alternatively, employees will be given the option of clocking out upon notice of the assignment outside of their overtime group. Employees who do elect to clock out will do so without pay or penalty.
7. Employees may not refuse to work mandated overtime without a justifiable reason.
8. Any employee skipped or otherwise missed in the overtime distribution procedure will be offered make-up work equal to the hours worked by the employee who worked the job. In the event that more employees were skipped than worked, only the number of employees skipped who equal the number of employees who worked will be offered make-up work. It is the Company's intent to correct mistakes on the same day if they are brought to the attention of the Supervisor prior to the end of the shift.

If the mistake is brought to the attention of the Supervisor, on the day overtime is scheduled, prior to the end of shift, and the mistake is not corrected, the Company will pay the employee(s) who were skipped or otherwise missed, the appropriate rate equal to the hours worked by the employee(s) who worked the overtime.
9. Employees will be notified by Wednesday (by mid-shift) for mandated Saturday work and for mandated Sunday work unless an emergency situation arises. Employees will not be mandated to work such overtime if vacation, personal day or bereavement has been approved for them on the Friday preceding or Monday following the mandated work.
10. Employees will be notified at least one (1) day in advance (by mid-shift) for mandated daily overtime work. When daily overtime is being mandated for an extended period, employees will be advised of the approximate duration.
11. No mandatory overtime will be scheduled in connection with any holiday weekend.

REM

12. A. A voluntary overtime sign-up sheet will be posted in all overtime groups on Monday for employee(s) who want to volunteer for Saturday and/or Sunday overtime. An employee desiring to be considered for Saturday and/or Sunday overtime must sign the overtime signup sheet two (2) hours prior to the end of their shift on Wednesday. Overtime will be granted to the senior employee(s) who volunteer and are able to perform the work. If a sufficient number of employees cannot be obtained, then volunteers from other work groups may be solicited where practical. Management will highlight names one (1) hour prior to the end of the employee's shift on Friday.
- B. In the event overtime for Sunday is not determined until Saturday, any senior employee(s) that signed the volunteer list, who are not present on Saturday, will be called with a Union Representative present.
- C. A voluntary overtime sign-up sheet will be posted in all overtime groups **five (5)** working days prior to a holiday for employee(s) who want to volunteer for holiday overtime. An employee desiring to be considered for holiday overtime must sign the overtime signup sheet two (2) hours prior to the end of their shift on the **third (3)** working day prior to the holiday. For example, Thanksgiving overtime would have to be signed by end of shift Monday. Overtime will be granted to the senior employee(s) who volunteer and are able to perform the work. If a sufficient number of employees cannot be obtained, then volunteers from other work groups may be solicited where practical. Management will highlight names one (1) hour prior to the end of the employee's shift the day before the holiday.
- D. For the purpose of planning a voluntary overtime sign-up sheet will be posted in the Maintenance Department ten (10) working days prior to a holiday for employee(s) who want to volunteer for holiday overtime. An employee desiring to be considered for holiday overtime must sign the overtime signup sheet by mid-shift five (5) working days prior to the holiday. Overtime will be granted to the senior employee(s) who volunteer and are able to perform the work. If a sufficient number of employees cannot be obtained, then volunteers from other work groups may be solicited where practical. Management will highlight names at mid-shift three (3) days prior to the last scheduled working day before the holiday.**

Section 1. See Common Language

Section 2. See Common Language

Section 3. See Common Language

Section 4. The Vacation workweek is defined as Monday through Friday. Vacation must be taken within the year following the anniversary date of employment. Vacation may be taken in a block week or in increments of one (1) full day at a time. **Employees may schedule at least one (1) full block week of vacation during the advance scheduling period. Employees with two (2) weeks entitlement will not be required to schedule a block week. Employees with three or more weeks entitlement are required to schedule one (1) block week of vacation.**

During a period of a plant shutdown, employees will be allowed to use four (4) or eight (8) hours of vacation for pay purposes.

All vacations will be assigned according to seniority. The employer will allow a maximum of twelve percent (12%) of the employees in each vacation group off for vacation during the months of May, June, July, August, September, October, November, and December. The months of January, February, March, and April will have a maximum of ten percent (10%).

An additional two percent (2%) will be allowed off for single days. Single day vacations will not be considered more than one (1) month (date-to-date) in advance. Additional single day vacations will be granted up to the maximum percentages specified above.

Customary two digit rounding will be used; e.g. 1.49 will be rounded down to one (1) person.

In cases of work groups where the vacation percentage is calculated to be less than one (1) employee, one (1) employee will be allowed off on vacation on any given day.

No single day vacation requests will be accepted on weekends or holidays. Employees will be allowed a two (2) hour window into their shift to submit their single day vacation request, which will be awarded on a seniority basis. Request will be processed one (1) month (date-to-date) in advance and each day thereafter until the maximum is reached. Single day vacations will be approved by seniority and posted daily. However, once you have been approved and posted to the list you cannot be bumped by a senior person

who submits a request on a subsequent day. After the maximum is reached and a cancellation occurs, the opening will be filled by the most senior person who submitted a request.

An employee must cancel single day vacation by mid-shift the day prior to the scheduled vacation in the same manner in which it was submitted.

Small Work Groups. In small work groups of twenty (20) to twelve (12) employees, a maximum of two (2) employees will be permitted to simultaneously take full week vacations; additionally one (1) employee may take a single day vacation. Section 8. The vacation scheduling procedure is set forth below:

1. All prescheduled vacation will be submitted by January 31st. Management will award prescheduled vacation by February 15th.
2. During the advanced scheduling period, employees may schedule all but one (1) full week of vacation, which they are eligible to take during the current calendar year through January of the following calendar year. One (1) week of vacation may be reserved for either one (1) day at a time use or for selection of an open vacation week later in the year. If an employee chooses not to schedule vacation during the advance-scheduling period, such employee will only be allowed to schedule vacation for remaining available weeks.

4. No employee, regardless of seniority, will be able to bump other employees from pre-scheduled vacation weeks.

Approval will be granted during the two- hour window period by seniority. Thereafter, approval will be on a first-come, first-serve basis. All requests for vacation made outside of the advanced scheduling period must be submitted in duplicate on a standardized form available for this purpose.

This will take effect January 1, 2019.

10. The Company reserves the right to upgrade and modernize the process of administrating vacation requests, approvals and other functionality which can be improved. Changes to the process of administrating vacation which conflict with this Article will be discussed with the Shop Chair and implemented with mutual agreement.

LAYOFF/RECALL

Section 1. In the event of a layoff a minimum of (5) five day notice will be given to employees unless longer notice is prescribed by law. All layoffs will be conducted within affected classifications as outlined below:

- A. Probationary employees will be the first to be reduced from the classification.
- B. If it is necessary to reduce additional manpower, less senior employees will have the right to bump into other classifications previously held. It is understood that less senior employees may be retained if more senior employees do not have the specialized skills to perform available work. "Specialized Required Skills" are defined as and limited to Paint (Top Coat, Touch-up and Pre-paint Cab Body Station); Certified Welder, (Axle line, Fifth Wheels, Fuel Tanks), Maintenance Mechanic, and CMM Operator.
- C. Employees who do not have sufficient seniority or qualifications to bump as outlined above will have the right to displace junior employees in the truck assembler classification.
- D. An employee having seniority in the plant, who enters the Skilled Trades group, will have a Skilled Trades seniority date as the day he or she enters the group. However, it is understood that any previous seniority toward pensions, vacations, etc., will be maintained. In the event of a reduction in force in the Skilled Trades, the employee's plant-wide seniority date will be used for layoff and recall.
- E. Employees that enter the Skilled Trades group after July 23, 2018 will be laid off and recalled in order of their Skilled Trades seniority date within the Skilled Trades seniority list. If displaced from Skilled Trades, employee's plant-wide seniority date will subsequently be used for layoff and recall provided the employee had previously held a position outside of Skilled Trades.

Section 2.

- A. Recall to the truck assembler will be by plant seniority. Recall to other classifications will be in the reverse order of layoff from those classifications.
- B. Employees recalled to work from layoff or who may have been ill or injured while on that layoff will be required to satisfactorily complete a return to work physical as required by the Company. Such return to work examinations shall be consistently applied to all returning employees. It is understood that additional criteria may be required where injuries or illnesses are known to have occurred. If the employee fails such examination he shall be eligible for benefits consistent with terms and conditions as are set forth in the leave of absence and/or benefit language Provisos.

REM

If the employee is on recall and fails the drug screen for illegal substances and/or legal substances taken without a prescription ~~will result in termination.~~ (See Common Language).

Disputes arising between the opinions of the employee's physician and the Company's physician concerning the medical suitability for available work recalled to will be settled by an independent physician mutually selected or a professional medical organization. All costs associated with the independent examination shall be shared equally by the parties and such final decision by such independent physician or organization will be final and binding on the Company, Union and the employee.

- C. Any employee refusing recall from layoff to the job classification from which he was originally laid off will be considered as a voluntary quit. Recall to any other classification will be voluntary. No subsequent opportunities for recall to a classification other than the classification from which the employee was originally laid off will be offered.

Section 3. During a layoff, employees who are notified that they will be displaced from their job classification may, instead of being displaced, request a voluntary layoff, which will be granted.

Requests for voluntary layoffs must be written and signed by employees and submitted to a representative of Human Resources within three (3) working days following notice of displacement.

Employees who take a voluntary layoff will not be recalled until such time as an opening becomes available in the job classification they occupied at the time of their voluntary layoff.

Section 4. This memorializes the "Parties" understanding and Agreement concerning the issue shutdown periods. A shutdown occurs when the normal operations of the plant are curtailed for a period not to exceed one (1) week. This period may be extended with mutual agreement. Such agreement will not be unreasonably withheld. During such time, employees required for essential operations will be selected in the following manner:

1. Senior qualified volunteers from the essential work groups on all shifts.
2. Least senior qualified employees from the essential work groups on all shifts will be required unless qualified former employees from the work group volunteer on a posted secondary list. The Company retains the right to determine qualifications.
3. When possible any disputes between the "parties" over who is selected to work will be addressed before the actual shutdown takes place and will be reviewed by both parties to reach a mutual agreement.

Section 5. Displacement/ Balancing of Manpower during the elimination of a work group or reduction of force (Lay Off).

1. When it becomes necessary to displace or balance manpower from a work group to another work group or "work groups" the Company will provide a list of jobs and work groups where the employees will be absorbed. The Company will then start with the

most senior of the work group; the employees will be given a choice of displacement by seniority.

2. If sufficient volunteers are not acquired the least senior employees will be displaced.
3. If the employee volunteers to be displaced he/she loses the right to job bid for six (6) months. Employees who volunteer to be displaced lose all homestead rights to the original work group.

If employees are involuntarily displaced into a work group, they are considered displaced for one (1) year. If it becomes necessary to displace or balance manpower out of their new work group, the displaced employees will be the first to be displaced to other areas in the plant.

JOB POSTING

Section 1. Whenever a new job is created or a permanent vacancy occurs within the Bargaining Unit, the position will be filled in accordance with the procedure outlined below:

A vacancy is an unoccupied position, which will require replacement or addition. A vacancy is defined as a recall from layoff, hiring, or separation from employment (i.e. death, retirement, voluntary quit, etc.). During periods of layoff, the job posting procedure will be utilized for openings not filled by Article 12, Section 5, or recall.

Notice of vacancy will be posted on a designated bulletin board in the plant, including the workgroup, rate of pay, number of vacancies, job qualifications, shift and the date and time of the posting. Once the vacancy is posted, it shall be filled as posted and cannot be withdrawn unless mutually agreed by Company and Union. The name(s) of the selected employee(s) to fill the vacancy will also be posted after the job is filled. A Union Representative will review this selection process.

It is understood and agreed by the parties that the Job Posting, Article 12 will be utilized at all times that the plant is in operation building trucks.

(A) An employee with one (1) year of seniority (~~hired after ratification~~) who desires to fill a permanent job vacancy in another regular assigned work group may file a request on an agreed upon form to be supplied by the Company. **An employee with six (6) months of seniority who desires to fill a permanent job vacancy at a higher pay grade may post job bid.** There shall be one (1) transfer or refusal allowed in a six (6) month period.

Job bid requests will be honored on a seniority basis provided the employee requesting a change to another "regular assigned work group" has the necessary skills and ability to perform the job in a normal and average manner.

One (1) subsequent vacancy will be considered for job change request purposes. However, this will not apply to employees recalled from layoff except in the truck assembler classification.

(B) A secured box will be maintained in a designated area for filing of such forms. When a vacancy has been posted for three (3) working days (72 hours from the time and date of posting) the posting shall be removed from the bulletin boards by a Company and Union Representative, and no more job bid forms will be accepted. If an employee is interested in a job, which may be posted during his vacation, he may file a written application with the personnel department for vacancies that might occur during his absence. The Union and the Company will jointly remove the job

bid from the box.

- (C) When an employee has been selected for a job change and he accepts, employee will be moved in twenty (20) working days from signed job bid acceptance. He will be allowed a trial period to demonstrate his capabilities on the job. The trial period shall not be less than fifteen (15) or more than ~~thirty (30)~~ **forty (40)** working days. This shall count as a job transfer under section 1 (A). An employee who fails to perform satisfactorily will be returned to his prior "regular assigned work group". This will not count as one of the employees' job bids. Employee must remain in accepted position for a minimum period of six (6) months. **An EAR will be submitted and employee will start receiving the new rate of pay (unless lower than current rate) for the bid accepted.**

The parties agree that the "regular assigned work groups" (these work groups only apply to job posting, they are not applicable to vacation and/or overtime) referred to in this Section are as follows:

All other work groups including Electric Shop and Fuel Tank are eligible for second round posting. Transfers through job postings will have a maximum cap of thirty percent (30%) of the work group. The initial move will be fifteen percent (15%) within the current thirty (30)-day period and the remaining fifteen percent (15%) to be moved within fifteen (15) days following the initial thirty (30) days.

Job postings may be suspended during periods of recall and layoff by mutual agreement of the parties.

Section 3. When the Company has honored an employee's job bid form, the employee will not be eligible for a subsequent job change for six (6) months from the date that the job was awarded.

Section 4. Administrative Procedure for the Job Change Bid System

1. The job bid request system will include the following:

- A. The system will use a triplicate form.
- B. Copies of the form will be given to the employee and to the Union.
- C. Forms will be submitted to the designated job bid box at a central location in the plant.
- D. An employee must submit a bid form during the designated time frame.
- E. When the job bid is placed in the box it becomes final.
- F. The list will show all jobs for which requests are submitted and will rank all employees who are requesting each job in seniority order.
- G. A minimum of twenty (20) top senior bids will be retained for each job posting (in an effort to reduce administrative time for each posting).
- H. Employees will be notified of selection for a vacancy within five (5) working days, he may be retained in his old job for a period not to exceed twenty (20) working days in order to secure a qualified replacement, or longer if mutually agreed to between the parties.
- I. In cases where an employee is selected for two (2) or more vacancies at the same time, the individual may choose between which vacancy he wishes to fill.
- J. In the interest of best practices and continuous improvement, the Company reserves the right to upgrade and modernize the process of administering job postings. Changes to the process of administering job postings which conflict with this Article will be discussed with the shop chair and implemented with mutual agreement.

Section 5. Employees who are working in another classification as a result of an involuntary displacement will be given consideration to return to a vacancy in their previous regular assigned work group. Employees in the same classification working in another work group, as a result of an involuntary displacement, will be given consideration to return to a vacancy in their previous regular assigned work group. In the event there are employees in both categories listed above, the vacancy will be filled first by the most senior employee.

REM

Section 6. When the need arises to transfer employees in or out of a "regular assigned work group" to fill any job in a work group on a temporary basis, the transfer will be offered to the senior employee. If no senior employees volunteer for such transfer, the least senior employee will be required to transfer. A transferred employee will be paid the rate of his regular job or the rate of the temporary job, whichever is higher, for the time worked on the temporary job. Temporary jobs will be considered vacancies and the jobs will be posted, (unless the employee is on approved leave) if filled by temporary assignment for more than thirty (30) days in a calendar year.

- (a) A workday is defined as any time in the workgroup.
- (b) Employees are limited to no more than two (2) moves on a daily basis unless the employee volunteers to move.
- (c) An electronic PAF or another form mutually agreed upon will be provided to the Union documenting all temporary transfers.

Section 7. Any employee remaining at work or recalled after a layoff with less seniority than laid off employees will be excluded from exercising job bidding rights until employees with greater seniority have been recalled.

TRANSFER OF SHIFT

Section 1. Shift Adjustments

When it becomes necessary to balance the number of employees from one shift to another within a work group, the senior employees will have the opportunity to volunteer before the least senior employees within the work group are reassigned to offset the imbalance. All employees will be given a minimum of one (1) weeks' notice. The Company will consider an employee's personal hardship, which prevents the employee's reassignment. In no event will reassignment be delayed beyond a reasonable period of time to resolve the employee's hardship. The Union will be notified of time extensions allowed to employees due to hardship.

Section 2. Shift Preference

An employee with six (6) months of seniority who is capable of performing the required work may displace a junior employee on a different shift within the same work group subject to the following:

- (a) Requests for shift preference must be made in writing using a triplicate form. Copies of the form will be provided to the employee, the Human Resources Department, and the Union.

When such work is required to be performed, Skilled Trades employees will be given the first priority to do such work provided they are capable of performing such work and an economic justification can be made to the satisfaction of the Company. COMPLEXITY TEAMS

During 2006 Negotiations, the parties discussed the historical usage of complexity teams, and the understanding that ongoing business conditions may necessitate the need to recognize and implement these teams to support complex build volume.

This letter establishes the concept and intent of these teams should business conditions warrant their use as follows.

1. The primary objectives of the complexity teams will be to improve in-station quality, resolve discrepancies related to repetitive issues in the work group, assist training of Team Members on complex and high content trucks, and identify upcoming quality issues and supplement existing staff to address high content product manufacturing.
2. Complexity team members focus areas will consist of the following; Pool 1, Pool 2, Pool 3, Engine Line, Axle Line, Pool 60, and Pool 61.
3. Complexity teams will not exceed four percent (4%) of the combined number of employees in the assigned work groups on each shift.
4. The parties agree that the complexity team members will be managed as other work groups covered within the Agreement consistent with, Article 8 (Wage Rates and Overtime), Article 10 (Vacations) and Article 12 (Job Posting). It is also understood the primary focus of complexity team members is to be assigned to difficult build volume as determined by market demand and product loading and will not function as a general labor pool.
5. During the life of the contract, this agreement can be cancelled by either party within thirty (30) days if requested in writing. It is further agreed that neither party will invoke this clause arbitrarily.

EXTERNAL LOGISTICS SERVICES

During 2006 negotiations, the Union expressed concerns about the Company establishing an external logistics operation to support parts warehousing, kitting, and just-in-time (JIT) supply to the Mt. Holly Truck Plant. The parties reviewed potential business scenarios associated with third-party or supplier-based material strategies designed to reduce in-plant inventory, improve line-side materials staging, and manage pre-scheduled parts delivery. Enhancements to the material supply process in the Mt. Holly Truck Plant would support ongoing continuous improvement in cost, quality, and delivery metrics.

The Company commits to providing to the Union additional process information regarding external logistics services should such strategy be pursued by the Company. Consistent with the Letter of Understanding – Subcontracting, the Company will review the potential business impact and operating efficiencies with the Union.

HENROB ON-SITE EQUIPMENT SUPPORT

During 2006 negotiations, the parties discussed on-site support provided by Henrob equipment technicians.

Cab-In-White automated processes are highly dependent on the performance of Henrob equipment. During 2004, downtime on Henrob equipment was determined to be at unacceptable levels by both Management and members of the Bargaining Unit. The excessive downtime resulted in additional overtime to meet production demand. A plan was implemented to increase on-site support from Henrob to reduce downtime. In the first eighteen months of implementation, the Mt. Holly Truck Plant has increased process efficiency and reduced the cost of operation.

The current benefits of on-site Henrob support include:

- Focused maintenance
- Lower cost of operation
- Equipment warranty
- Improved inventory control of spare parts
- Simplified parts ordering process
- Feedback / reporting systems
- Free training
- Fully dedicated resources with core competency
- Liability for parts shortages

In summary, the Company is willing to reduce Henrob on-site support consistent with the implementation of Total Productive Maintenance (TPM) programs and provided the parties can consistently demonstrate the ability to efficiently maintain the Henrob equipment utilizing internal resources.

SUBCONTRACTING

The following sets forth the provisions of an understanding reached in negotiations with reference to subcontracting by the Employer. Because of the fears expressed by the Union that the Employer would subcontract work that could be performed by the Employer's employees during a period when employees are on layoff, the following assurances are given:

It is not the intent of the Employer to subcontract work customarily performed by the Employer in the Mt. Holly Plant with its own employees, during a reduction in force, or which would directly result in a reduction in force.

It should be understood that in some instances subcontracting involves considerations of production schedule, the lack of machinery and/or equipment or economic factors that will compel management to subcontract some functions. On the other hand, it is generally to the Employer's advantage to perform as much of the work with its own employees as possible.

During the 2003 Negotiations, the Company reaffirmed its commitment to keep the Union informed of work that is normally performed by Bargaining Unit employees that is being considered for sub-contracting prior to awarding a contract. The Company further commits to give advanced notification in writing to the Union describing the contemplated work to be subcontracted and its reasons. If the Union feels that such work is within the capability of the Bargaining Unit, and can be feasibly and competitively performed by Bargaining Unit employees, representatives of the Company and the Union will meet together as a joint Labor/Management Sub-contracting Committee to discuss this possibility.

LETTER OF UNDERSTANDING

WORK DISTRIBUTION – PADS and OFFLINE

During the 2006 negotiations, the issue of Pads was discussed by the parties as they relate to the allocation of work between the production work groups and Offline for overtime consideration. It was understood in these discussions that the Pads are required to maintain the appropriate accountability for production to take ownership of the quality issues leaving specific production areas. The Union expressed concerns about the underutilization of Offline while production employees work overtime on the Pads. To address the issues discussed by the parties, the following understanding was reached.

The Offline work group will not be disadvantaged in regard to work required to be completed on the Pads for overtime. However, certain installations (axles, cab swing, clutch, CIW, trans installation, radiator changes, axle / brake installation, upholstery installation, windshield installation, major spec errors, major shortages, frame rail replacement and any other upon mutual agreement which will not be unreasonably withheld) will remain in the original production areas due to special skill requirements to perform the work regardless of whether it is done on straight time or overtime.

Job Security

During these negotiations, the Union and the Company devoted much time to discussing the future viability of the Mt. Holly Truck Manufacturing Plant relative to Daimler Trucks North America's Business Class M2 truck product line and the Company's ability to maintain the flexibility to manufacture such products in the most efficient manner and location.

In consideration of the Union's concerns regarding job security at Mt. Holly, the Company reconfirms its commitment to the Mt. Holly facility by including this Letter of Understanding in the ~~2018~~ 2024 Labor Agreement.

The Company commits, for the term of the ~~2018~~ 2024 Labor Agreement, to build at the Mt. Holly facility a Base Level Average (BLA) of ~~fifty-nine (59)~~ seventy (70) trucks each day, calculated on a monthly basis as described in this Letter of Understanding and subject to the following definitions, schedules and conditions:

1. Definitions- for the purposes of this Letter of Understanding, the following terms shall have these defined meanings, regardless of the meaning of such terms in any other context.
 - a. "Trucks" shall mean any Business Class M2 chassis Built for delivery and domicile within the United States or Canada, whether as a complete chassis or as a glider kit. However, when calculating the BLA, as defined in Section 2(a) below, total number of Trucks shall include all Trucks Built regardless of whether the trucks are domiciled in the US or Canada or elsewhere.
 - b. "Work Day" shall mean every Monday through Friday, excluding holidays.
 - c. "Trucks Built" shall mean Truck chassis started in Pool 1.
2. Number of Vehicles to be Built.
 - a. The BLA for a given calendar month shall be calculated by dividing the total number of Trucks built in the calendar by the number of Work Days in the same calendar month.
 - b. The Company shall be entitled to build less than the BLA, without any liability for breach of this LOU, so long as no Trucks are Built at any other location.
 - c. In the event that the Company anticipates that the calculation set forth in 2(a) and 2(b) above will result in a BLA below ~~fifty-nine (59)~~ seventy (70) for a given month, the Company shall meet with the Union to discuss how best to address the shortfall without a temporary shutdown of the facility and/or a layoff of employees. The parties understand that the facility might produce no trucks and/or have extended periods of temporary shutdown. In such circumstances, the parties may modify the required number of Trucks Built necessary to comply

with this Letter of Understanding by executing a written document signed by a representative of the local Union and Company setting forth such modification. Each such written document shall only apply to the single month specified in the document.

- d. The calculation in Section 2(a) above shall not include as a Work Day any day that would otherwise be a Work Day when such day is affected by a circumstance beyond the reasonable control of the Company, including, but not limited to, acts of God, weather, outbreak of disease, war, supplier insolvency or failure, unavailability of essential components, equipment failure, power failure, or intervention of local, state, or Federal government. In all cases where a Work Day is impacted by such circumstance, the Company shall meet with the Local Union Representatives to discuss how best to address the shortfall.

3. Conditions:

- a. Reporting by the Company- By the fifth day of each calendar month, the Company shall deliver to the Union a calculation of the number of trucks built each day during the prior calendar month and the total number of Work Days in the preceding calendar month.

The BLA is intended by the Company to be a floor on the level of production of Trucks at the Mt. Holly facility assuring a minimum level of production in the absence of severe economic conditions. The Company commits to increase production at the Mt. Holly facility above the BLA levels established in this Letter of Understanding, but the parties acknowledge that such increase may not be permanent.

TENTATIVE AGREEMENT
Mt. Holly CTS

Letter of Understanding

Job Security

During the 2024 negotiations, the Union and the Company discussed the future viability of the Mt. Holly Custom Truck Services Department and it is the Company's Intent to maintain operations at the Mt. Holly CTS facility. The Company is committed to growing the business at Mt. Holly CTS providing job security and profitability for all employees at the facility. CTS production volume emanates from plant BLA language but is ultimately determined by the dealer/customer base as they have a choice in who performs work after factory release. The Company agrees that if business volume dictates the need to decrease CTS headcount below the level necessary to support the plant agreed to BLA (Base Level Average) or, if the penetration rate for CTS falls below 45% for a period of Sixty (60) days or more, prior to a lay-off being determined the Company will meet with the Union at 30 days to work together to figure out options to avoid or mitigate job loss within the CTS facility.

It is further understood by the Company and the Union that, in all that we do, day in and day out, our focus must be on effective and efficient operations. To do so we must always demonstrate that we care about and hold ourselves accountable for:

- **Every employee and their safety.**
- **The quality of the service and product that we put out.**
- **Timely and efficient completion of customer work with accurate logging in and out of work orders**
- **The reputation of the business both internally and externally.**

The Leadership of this CTS pledges to work together to make the CTS Facility effective and efficient by:

- **Working safely**

BL

MBH

- Putting the customer first through the quality and integrity of our work.

- Make cost effective decisions.
- Jointly work together with the Union on improving employee morale.

This statement of intent will guide us in all that we do in our daily activities and our relationships with each other and embracing these principles will ensure that the Mt. Holly CTS facility will be able to sustain job security for years to come.
