

A SUPERMAJORITY of BOSK Workers Have Signed Union Authorization Cards!

We signed authorization cards so that we can have a real voice at work. We want BOSK to thrive as a company and make it a stable, safe, longterm career. By forming a union, we will get a seat at the table to negotiate improvements over pay, PTO, and health and safety.

Next Steps for Our Union

1

Once we are ready, we will submit our cards to the National Labor Relations Board (NLRB) as a way to request a union election.

2

The NLRB will conduct an election. If a majority of us vote YES, we will elect bargaining committee members, from our peers, to negotiate a contract.

3

We, BOSK employees, will vote on whether we want the contract or not.

- Right now BOSK decides our wages, working conditions, and safety standards. By forming a union, we'll have a seat at the table to negotiate over these topics.
- BOSK will do anything to convince us that forming a union is a bad idea. They want to continue to hold all the power.
- We have filed an Unfair Labor Practice (ULP) charge against BOSK for breaking labor law. Regardless of the ULP, we will continue to form our union and stand up for what we deserve.

When we form a union we can negotiate a contract. A contract has predictability, better benefits, better pay, and health and safety protections. Forming a union at BOSK will give us the life we deserve. That is why I signed my Authorization Card.

Bill Wilmoth (Production-Formation)
