

WE FILED!

BOSK workers just officially filed for a union .

An overwhelming supermajority of us have signed union authorization cards. We sent those cards to the NLRB to request a union election. We ask that BOSK respect our right to form our union and not attempt to delay our democratic election.

BOSK WORKERS SUPPORT FORMING A UNION BECAUSE:

- *We will have a stronger voice.* Collective bargaining means we will be able to negotiate over pay, benefits and working conditions, and secure those improvements in a binding contract that the company cannot change without our consent.
- *We will decide what's best for us at BOSK.* Once we form a union, we will elect a bargaining committee, decide what matters most to us, and bargain for those priorities.
- *We're joining forces with tens of thousands of autoworkers across America.* We have the opportunity to make battery worker jobs the best jobs in this country.

Details to come about when the election will take place.

We Are Voting UNION YES!

I have worked both union and nonunion jobs and have seen the power of a union firsthand. At BOSK, we don't have a say in anything they do; we are at the mercy of the company. With a union, we would have a voice and be on a level playing field with management. That's why I will be voting yes!

Andrew McLean (Formation-Logistics)

I am voting yes because I want representation. I've been in the hot seat before without anyone to represent me. I don't want to see anyone leave the company because of a lack of representation. With a union, some of our coworkers will receive training on how to implement the contract and help enforce it. I want to see us united so strongly that the company can't neglect our needs whether it be safety or benefits.

Joseph Morgan (Maintenance-Formation)

My dad worked at a job with a union, and the first thing he said to me when I got hired at BOSK was, if workers form a union, make sure you are a part of it. Being raised in a union family showed me how when you are a part of a union, you will always have someone who has your back if you need support in the workplace.

Michelle Hoffman (Production-Module)
